GATES' ACADIAN LINIMENT
 For Internal and External Use.
 A few drops in a cup of hot water, well sweetened, makes a pleasant drink and is the best remedy for COUGHS AND COLDS.
 After a cold winter's drive, a seat by the fire and a cup thus prepared will be highly prized.
 As an application for cuts, bruises, sore throat, croup, burns, headache, rheumatism, etc., Gates' Acadian Liniment is the
Best Because Strongest.
 Hence a certain quantity lasts longer than other Liniments beside giving better satisfaction. It will also remove the "black and blue" from bruises when other Liniments fail.
 It is equally useful for Horses, and hundreds of stables and liverymen keep it constantly on hand, for scratches, sprains, swellings, coughs, distemper and other ailments of their horses and cattle. For colic 1-3 of a bottle given in a bottle of milk or water is a speedy and positive cure.
 Athletes have found Gates' Acadian Liniment excellent for a rub down.
 It is sold everywhere, at 25 cts. in 3 oz. bottles, each fitted with a rubber cork to preserve its full strength.
GATES' VEGETABLE PLASTER
 is the best strengthening Plaster

SYNOPSIS OF CANADIAN NORTH-WEST.
Homestead Regulations.
 Any even numbered section of Dominion Lands in Manitoba, Saskatchewan and Alberta, excepting 8 and 26, not reserved, may be homesteaded by any person who is the sole head of a family, or any male over 18 years of age, to the extent of one-quarter section of 160 acres more or less.
 Application for entry must be made in person by the applicant at a Dominion Lands Agency or Sub Agency for the district in which the land is situated. Entry by proxy may, however, be made at an Agency on certain conditions by the father, mother, son, daughter, brother or sister of an intending homesteader.
 The homesteader is required to perform the homestead duties under one of the following plans:
 (1). At least six months' residence upon and cultivation of the land in each year for three years.
 (2). A homesteader may, if he so desires, perform the required residence duties by living on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of his homestead. Joint ownership in land will not meet this requirement.
 (3). If the father (or mother if the father is deceased) of a homesteader has permanent residence on farming land owned solely by him, not less than eighty (80) acres in extent, in the vicinity of the homestead, or upon a homestead entered for by him in the vicinity, such homesteader may perform his own residence duties by living with the father (or mother).
 (4). The term "vicinity" is defined as meaning not more than nine miles in a direct line, exclusive of the width of road allowances crossed in the measurement.
 (5). A homesteader intending to perform his residence duties in accordance with the above while living with parents or on farming land owned by himself must notify the Agent for the district of such intention.
 Six months' notice in writing should be given to the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.
 W. W. CORY,
 Deputy of the Minister of the Interior.

BRITAIN WILL SEND SHIPS TO PACIFIC.
 VICTORIA, Wednesday. — A despatch from London says that the armored cruisers Euryalus, Hogue, and Cressey, of the fourth cruiser squadron, now at Bermuda, will proceed at the end of the month to the Pacific coast. The despatch states further that the British government although reluctant to further deplete the available cruisers in home waters, feel that the disturbing turn of events in the Pacific make it absolutely necessary that the British fleet be reinforced by a strong fleet of observation on the North American Pacific coast.

WOULD PROHIBIT EXPORT OF PULP
 Mr. Lewis Brings Question up In House Of Commons.
\$1,000,000 A YEAR.
 Would Be Saved By Having All Our Pulp Manufactured Into Paper Here

OTTAWA, Wednesday. — A beginning was today made in the Commons with a debate on a large question. It was precipitated by Mr. Lewis who asked the House to join him in declaring that such an export duty should be placed on pulp wood as would be sufficient to induce its manufacture in Canada into paper. He declared that if this were done the country would be saved at least a million dollars annually. He was of the opinion that the United States at the mercy of Canada in the matter of wood supply. Canada with 2,600,000 square miles had the richest areas in the world and of this area half was pulp wood. At the rate of a million cords a year of exportation to the United States it would take 414 years to exhaust the supply in Canada.
 Dr. Belland of Beauce, opposed the resolution. He declared that the poorest areas of Canada would, if properly treated, last for centuries. The preservation of our forests could only be accomplished by the various provincial governments. They would be the controllers of the forests. It would not be fair to shut off the limit holders of Canada from the great American market to their products. Herit and Tobin, two Quebec members, opposed the resolution.

MEDICAL EXAMINER DISMISSED.

OTTAWA, Wednesday. — For irregularities in passing immigrants arriving for Canada at the port of Halifax, Dr. H. L. Dickey, medical examiner, has been dismissed. Dr. Murdoch Chisholm has been appointed in his place. The Immigration Department heads decline to give any details.
 "And so Bummel, the student, was almost drowned when he was in swimming yesterday? How did it happen?"
 "The ballist went by and the poor fellow was forced to remain under water so long."—Transatlantic Tales.

MAY WIP IT OFF THE EARTH.
 When an eminent authority announced in the Soranton (Pa.) Times that he had found a new way to treat that dread American disease, Rheumatism, with just common, every-day drugs found in any drug store, the physicians were slow indeed to attach much importance to his claims. This was only a few months ago. To-day nearly every newspaper in the country, even the metropolitan dailies, is announcing it and the splendid results achieved. It is so simple that any one can prepare it at home at small cost. It is made up as follows: Get from any good prescription pharmacy Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking in a bottle and take in teaspoonful doses after each meal and at bedtime. These are all simple ingredients, making an absolutely harmless home remedy at little cost.
 Rheumatism, as every one knows, is a symptom of deranged kidneys. It is a condition produced by the failure of the kidneys to properly filter or strain from the blood the uric acid and other matter which, if not eradicated, either in the urine or through the skin pores, remains in the blood and decomposes and forms about the joints and muscles, causing the untold suffering and deformity of rheumatism.
 This prescription is said to be a splendid healing, cleansing and invigorating tonic to the kidneys, and gives almost immediate relief in all forms of bladder and urinary troubles and backache. He also warns people in a leading New York paper against the discriminate use of many patent medicines.

PROOF OF THE SAYING
 "Ignorance is bliss," remarked the man with the quotation habit.
 "Then why are men who think they know it all usually so self-satisfied?" queried the skeptic.
 "Because of their ignorance," answered the party of the first part.
 Rivers was writing a caustic of the political field.
 "Brooks," he said, "give me a new name for these chaps that go around the country presaging all sorts of financial disasters."
 "Calamity's presagers," suggested Brooks.
 "What's all this noise about?" inquired the paper cutter.
 "The ink says that it does all the writing, while I claim that I do," answered the pen.

BETTER DAYS FOR RAILWAY.
 LONDON, Wednesday. — At today's meeting of the Temiscouate railway bondholders committee the chairman said the railway was now in a fair way to do better. It is proposed to open a small feeder to the pulp forests; also to transfer the head office to London. The latter proposal was criticized.
HAD WRONG MAN ARRESTED.
 After Five Years Search For Husband is Still Without a Clue.
 DETROIT, Mich., Tuesday.—Eight years ago Thomas Edward Walpole married in Toronto, and three years ago deserted his wife, taking with him their baby boy. Mrs. Walpole traced him over a large part of Ontario, and then suspecting that he was in Detroit, came here two weeks ago. She learned, by accident, of an Edward Walpole on the west side of the city and without attempting to see him or verify her suspicions went to the Police court and secured a warrant, charging Walpole with non-support. He was taken into court, and still without having been seen by the Toronto woman, his trial was set for next Monday. Without waiting the outcome of this warrant Mrs. Walpole tried to secure another warrant charging bigamy. The justice refused on the slight evidence that she presented until the police had investigated the case. Yesterday officers accompanied by Mrs. Walpole visited the Detroit Walpole's home. Here the evidence was indisputable that the Toronto woman had been following the wrong man. The Detroit Walpole has lived here for twenty-five years and is considerably older than the Toronto Walpole. The Detroit man will be honorably discharged by the court on Monday. The Toronto Mrs. Walpole is still here.

NEW BRIDGE FOR RESTIGOUCHE

FREDERICTON, Wednesday. —The tenders for the substructure of the Eel River bar bridge, parish of Dalhousie, Restigouche County, were opened today by Chief Commissioner LaBilloy. Four tenders were received and the contract was awarded to Messrs. McLean and McPherson, of River Charles. Their tender is in the neighborhood of seven thousand dollars. The substructure will be of concrete. The contract for the steel superstructure which was awarded to Messrs. Duncan & McLennan of Campbellton, some days ago, was signed today by the chief commissioner. The bridge, the largest of the kind in the province, will be about 1,200 feet long, and will cost about \$100,000.

PUBLIC WILL BE HELD OP.
 Hotel Accommodation In Quebec Will be a Premium.
PRINCE COMING.
 Great Crowds Expected At The Tercentenary Celebrations

According to present indications, the most serious difficulty that is going to be experienced in connection with the forthcoming tercentenary celebrations at Quebec is the matter of providing accommodation for the many thousands of people who it is certain will visit the Ancient Capital at this great epoch in its history.
 The Prince of Wales, during his visit to the city, will stay at the Chateau Frontenac, and it is announced this morning that cables have been received from England engaging no fewer than 45 rooms in the hotel for him and his suite. It is understood that His Royal Highness intends to entertain at the hotel and that the receptions, etc., will be on the most lavish scale.
 For some time past people have been sending in applications to the manager of the Frontenac for accommodation during the tercentenary proceedings. Now that the definite announcement has been made that the Prince of Wales is coming, these applications have trebled in number and the indications are that thousands will have to be refused. The names of the applicants are being filed as they are sent in, but no accommodation will be actually booked until after the Royal requirements are fully provided for.
 It is a matter of regret that the extensions which are being made to the Chateau Frontenac will not be finished in time to allow of the extra rooms being used for the forthcoming festival. At the present time the hotel provides accommodation for between 400 and 500 people, and the business, even at this time of the year, is so brisk that another 100 rooms could easily be filled. The extensions now under way provide for an additional 150 rooms, giving accommodation for some 200 or 300 extra people, but these extensions will not be completed until a year from now.
 Accommodation in other hotels in Quebec is already being snapped up by people who realize what the tercentenary celebration is going to mean, while private householders are already laying their plans for reaping a golden harvest by letting apartments in their homes for the visitors. It is quite certain that every decent room in the city will find a ready occupant, and probably the same thing will happen as has happened in other places—that is, many rooms will be engaged by speculators, and re-let at famine prices.

H. R. EMMERSON TO MANAGE I C R
 OTTAWA, Wednesday. — It is probable that before long an important change will be made in the management of the Intercolonial. The government is considering a proposal to put its management into the hands of a commission of one wise the commissioner to be removable only by order of both houses of parliament. There is a considerable probability that this position will be given to the Hon. H. R. Emerson, lately minister of railways and canals.
VANCOUVER WANTS YANKEE FLEET
 OTTAWA, Wednesday. — Mr. McPherson, M. P. for Vancouver, received a telegram today from Mayor Bethune of Vancouver, asking him to invite the American fleet to visit Vancouver. Mr. MacPherson will lay the order before the government at once.
 Militia orders issued today announce the appointment of Major-General Lake to be Inspector-General from April 1 next in succession to the late Brigadier-General Vidal. On the same date Brigadier-General Officer will take General Lake's present position as chief of the general staff.
