vn wheat in the 150 principal markets of land and Wales amounted to 32,750 quarters quarters, against 98,150. Since harvest thesates in the 150 principal markets have amounted to 1,880,024 quarters, against 1,985, 371 quarters; and it is computed that in the whole kingdom they have been 7,520,100 quarters, against 7,861,500 quarters in the corresponding period of last season. Without reckoning the supplies furnished ex-granary is estimated that the following quantities of wheat and flour have been placed upon the British markets since harvest:—

ENGLISH GRAIN TRADE LAST WEEK. day as follows:—"Five or six days of good weather have altered the tone of the wheat trade. With reduced transactions, prices rather favour buyers, although few markets up to yesterday make a quotable variation. The harvest does not progress rapidly in many districts. The condition of deliveries is complained of. Here and in neighbouring districts business has been dull since Tuesday. White wheats, old, generally, however, have been steadily held; but new red Americans were freely offered, and declined a penny. Maise was a shade easier to sell in quantity. Notwithstanding the heavy rain last night and to-day, consignees have taken wheat very slowly this morning; good old parcels were unchanged; new American red was reduced a penny; for flour there is little inquiry; prices are unaltered. Corn is in moderate request and rather lower.

### WEEKLY REVIEW OF TORONTO WHOLE-SALE MARKETS

PRODUCE. The past week has been a very dull period, princi cally from the fact that offerings have been very small. There has been nothing at all doing in shipments, nor can there be anything done until receipts of the new crop have begun to come forward. Prices have been week and unsettled all over, one cause of which seems to lie in uncertainty as to the quality of the new grain. There can be little doubt that both wheat and barley have been seriously damaged by late rains and storms, and the question of the use to which such grain can be turned is beginning use to which such grain can be turned is beginning to be raised. Stocks here are now very low, and stood on Monday as follows:—Flour, 3,850 bbls; fall wheat, 10,260 bushels; spring wheat, 13,842 bushels; oats, 14,910 bushels; barley, 63,617 bushels; peas, ntl. Outside markets have generally been quiet through the week. English cable advices report the weather as rainy and unsettled, but there is nothing of much consequence stated in reference. as. The total supply of wheat and flour in the we 373,125 quarters, vs. 403,000 to 411,000 quarter weekly consumption, indicating a deficiency in sur The supply of maize for the week was equal t ly consumption in 1876 of 1,320,000 bushels, against 771,078 bushels in 1875. The amount of wheat and flour on passage for the United Kingdom August 22, 1878, was equal to 1,059,000 quarters of whea against 868,000 on the 8th inst., and 587,000 on the corresponding date last year. The quantity of wheat due at ports of call during the four weeks from August 8 to Sept. 4, is 231,000 qarters, comfrom August 8 to Sept. 4, is 231,000 qarters, com-prising 44,000 qrs from Azov and Black Seas and Danube, 62,000 qrs from Am. Further cable advices to the 20th inst. state that considerable rain had fallon. that onsiderable rain had fallen, and harvest operations were advancing but slowly; samples were nearly all of poor quality, but the harvest was regarded not only as not a failure, but as being better than any of the three next preceding crops. Wheat is said to be up to an average; the yield likely to reach 11,500,000 quarters, and the imports needed are estimated at 13,000,000 quarters. Reports of the French wheat crop by mail are decidedly unfavourable; in some quarters the yield is not expected to reach that of last year in point of quantity, although the quality in some districts is superior to last year's; consequently very large imports will be necessary during the ensuing season. The total of last year's crop in France was officially estimated at 34,500,000 quarters. French imports during the season have amounted to between 8,000,000 and 3,500,000 quarters, and as the stocks in the country are recognized to be in a state of exhaustion, except at Marseilles, it can safely be assumed that all the above that considerable rain had fallen, and harves

There was some demand for wheat for future delivery for Spain and Algeria. The stock in the docks increased to 222,000,qrs., or 175,000 qra more than was held at the corresponding date last year. WHEAT—There has been scarcely any business doing because there has been scarcely any grain offered. Fall has been almost nominal, but No. 2 sold last Thursday at \$1.04 f.o.c., and No. 3 brought \$1.04 f.o.c., on Texaday. Spring has been wask and declining; No. 1 could probably have been got at \$1.07 to-day, but no demand was heard; a single car of old No. 2 sold at \$1.03 f.o.c. On the street falledld at 90c to \$1.03.

OATS—There has been very little selling, and prices seem to have been declining. New Canadian has sold in care but at 32 and 30c on the track, the latter price being paid on Tuesday. Choice American brought 33c on the track on Monday, but cars to arrive were offered to-day at 30c without bids. Street prices 34 to 35c.

Street prices 34 to 35c.

Barley -Old having been, to a great extent, sold out, offerings have fallen off, and in the absence of transactions prices have been unsettled. Old No. 1 sold in car lots at \$1.60.c. on Thursday; at \$1.04 on Saturday and Monday, and at \$1.02 on Tuesday. Old No. 2 has been quiet, but some cars changed hands at \$5c. to.c. on Saturday, and No. 3 went off at 65c f. o. c on Thursday. The market to-day was inactive. No. 1 was offered at the Call Bord at \$1.05 and No. 2 at 88c, but the market closed easier with sellers of No. 1 at yesterday's price and of No. 2 at \$5c f.o.c., but no buyers. There has been no movement in new. On the street to-day prices ranged from 62 to 79c.

Prass—There have been no cars offered, but on the street one load of old sold at 60c and another of new at 64c.

Hay—The market has been fairly well supplied all week but with all offering wanted. Prices have ranged from \$8 to \$14 but the general run has been from \$11 to \$13. STRAW—Receipts have increased and have been sufficient. Rye-straw in sheaves has sold at \$11 to \$13; out-straw in sheaves at \$10 to \$14, and loose at \$7 to \$8.

\$13; oat-straw in sheaves at \$10 to \$14, and loose at \$7 to \$8.

POTATOES—The supply has increased and has been enough for the wants of the market. Prices have declined and have usually stood about 70 to 75c per bag or \$1.25 per barrel for good qualities.

APPLES—Have been abundant and declining. Inferior have gone se low as \$1, but the general run has been \$1.25 to \$1.50, while choice have brought \$1.75 per barrel,

POULTRY—Chickens have been plentiful but selling readily at 35 to 45c per pair. Ducks have also been offering freely and easy at 50 to 55c. Very few turkeys have yet appeared nor is it safe to rely on more than 75c to \$1 for them.

PROVISIONS. LADE-Has generally been rather quiet since ou

GROCERIES. TRADE-Has shown a slight improvement since

CATTLE.

TRADS—Has generally been very quiet.

Beeves—Receipts have been of fair amount, but nearly all of poor quality. There has been some enquiry for export, and rather coarser cattle than previously have been taken for it. First-class may be regarded as purely nominal, from the fact of there having been none offered; but were they to be had from \$4.50.to \$4.75 would have been paid for them. Second-class have constituted the great bulk of the supply, and have gone off readily and steadily at \$3.75 to \$4.00, though some few have gone up to \$4.25. Third-class have been abundant, and have found a sale only by making concessions and selling at very low prices; the range being from \$2.50 to \$3,00. There have been sales of steers and heifers averaging 1,400 lbs. at \$45.00; a car of mixed averaging 1,250 lbs. at \$56.00; a car of mixed averaging 1,250 lbs. at \$56.00; a car of mixed averaging 1,250 lbs. at \$56.00; a car of mixed averaging 1,050 lbs. at \$40.00, and a car of mixed averaging 1,050 lbs. at \$40.00, and a car of mixed averaging 1,050 lbs. at \$35.00.

SIEEE—The supply has fallen off and been very small, but probably sufficient from the fact that the demand for export has suddenly fallen off. Sales have been very small and prices rather weak. First-class averaging from 125 lbs. upwards have been easy at \$4.75 to \$6 each, or \$3.75 to \$4 per cental. Second-class have been quiet at from \$3.50 to \$4.25 cach.

LAMBS—Receipts have increased, and the market has been well supplied. The demand has been steady, but the abundant supply has made prices rather easier. First-class, consisting of picked dressing, from 45 lbs upwards, have been plentiful and weak at \$2.75 to \$3.25. Third-class have been very slow of sale, and not often bringing over \$2. There was a car dressing about 50 lbs sold at \$3.00, and a lot of 70 head dressing \$7 lbs at \$3.10.

Calves—Have remained inactive and generally unchanged. First-class dressing from 120 lbs would not bring over \$2.50 to \$3.50. Third-class have been bentiful and weak at \$2.75 CATTLE.

HIDES, SKINS, AND WOOL TRADE-Remains generally fairly good for the Season.

Hings—Green are unchanged in price, with all offering wanted. Cured have been in steady demand, and selling readily at 64c for No. 2; at 75c for No. 1, and at 75c for selected.

Calfestine—There has been nothing of consequence doing in either green or cured; prices remain unchanged.

Sherpestine—Receipts have been fair and all cen as before at 50c for the best given with the y selling slowly.

Woot.—Offerings of fleece have fallen off, and the smand seems to have slackened; some small lots ave sold at 23 and 24c. Super has been inactive, at offering at 24c, with 22c bid. Lambs-wool has seen quiet, but a lot of 1,700 lbs. sold at 21c.

Tallow—Offerings have been large and prices machanged at quotations, but with the feeling Quotations stand as follows:—No. 1 inspected, cics, \$7.00; No. 2 inspected, cut, and abby hides, \$6.00; No. 3 inspected, \$6.00; Calfabins, cured, 11½ to 12c; makins, dry, none; Lambskins and Pelts, 50c; ol, fieces, 23 to 25c; Wool, pulled, super, 20 to; Wool, pickings, 10 to 11c; Tallow, rough, rendered, 6c.

BOOTS AND SHOES.

The fall trade may now be considered as fully opened, but there is still a good deal of summer goods selling on sorting-up orders. Sales of fall goods have thus far been considerable; the travellers have been over the route on their first trip, and have sold well, but buyers still manifest caution and purchase carefully. Prices show little or no change, nor is there much alteration expected; at all events they can go no lower. Prospects are in favour of a good fall business. Quotations are as follows:—Men's Thick Boots, \$1.65 to \$2.85; Men's Kip Boots, \$1.65 to \$2.85; Men's Kip Boots, \$1.60 to \$3.15; Men's Calf Boots, \$3.00 to \$4.5 Men's Hand-sewed Con. THE MAIL never inserts advertisements known to be of an immoral or swindling character. It refuses thousands of dollars offered it for such advertisements every year, and throws out advertisements suspected of being of this nature from every issue. Nevertheless it cannot hold itself responsible for the good faith of its advertisers, nor undertake to relieve readers from the need of exercising common prudence on their own behalf. They must judge for themselves whether the goods advertised can in the nature of things be furnished for the prices asked. They will find it a good rule to be careful about extraordinary barquins, and they can always find safety in doubtful cases by paying for goods only upon their delivery.

BETTER SATISFACTION. A Druggist's Testimony.

Gentlemen—Having sold Sanford's Radical Curs for over a year, I can state it gives better satisfaction than any similar preparation I ever sold. A. H. ROBERTS. Mt. Pleasant, Is., March I, 1878. COMPLETE SATISFACTION A Bruggist's Testimony.

Gentlemen—We have been selling Sarrorn's Rapical Curs for the last year. On the start our sales were small; the people were incredulous, it being to most of them a new preparations and they could buy so many cheaper remedies for 25 cents and 50 cents. Now the price is no object. We sell more of the Radical Curs than all other Catarrh Remedies put together, and I have yet to hear of a case that it has not given the most complete satisfaction.

The Hall Champion Threshing Machine has been gradually and carefully improved each year as experience proved wise and desirable. No changes have been hastily made and called improvements. The greatest possible care has been exercised in the working parts of the machine so as to save the necessity of repair and prevent annoying delays which are caused by breakages. Nothing but the very best material has been used throughout the machine, and the workmanship is unsurpassed. Our machines
