Reciprocity Treaty.

In our issue of Wednesday we made a few comments on the fishery policy of the Government, which was announced that morning in the senior organ of the Government, the Daily News, and pointed out two valuable concessions were to be continued to Americans gratuitously, although the Hague Tribunal had definitely settled the question of Newfoundland's competency to carry out her statutory laws and thus become supreme in the matter of the West Coast herring fishery.

We observed that this policy had been foreshadowed in the outside news almost a fortnight ago by one who is in the confidence of the Government. But that is not the only Government policy that has been foreshadowed in the outside press. The Standard of Empire of the 23rd ult. contains a cable from its St. John's correspondent to the effect that the United States Government has opened up communications with Newfoundland "with a view to a reciprocal trade treaty," and that Mr. Pepper and Premier Morris have discussed the matter. The cable then goes on to say that it is anticipated that in return for concessions in the United States, the authorities at Washington will formulate proposals for the abrogation of the regulation in respect to the manufacture of wood pulp.

What does this mean? Does it mean that the regulation respecting the non-export of pulp wood is to be abrogated in the interest of the United States and of the members of the Newfoundland Government party and their political supporters, who have grabbed pretty well all the timber areas on the Labrador within our jurisdiction? As we asserted in December last, a movement was then on foot to abrogate the pulp wood regulation and allow the wood to be exported in its raw state. If this is done under an arrangement with the United States, then certain members of the Government party and their friends who hold possession of those timber areas will make a good thing out of the arrangement, but at the expense of the people of this country, whose interests will be sacrificed. We have had our eye on these Labrador timber grants for some time and we know more about them, the doings and the desires of those interested in them, than they probably give us credit for.

POLICE COURT NEWS.

To-day two drunks were released. A young man, a resident of Kelligrews, summoned his brother for beating him on the 4th inst. Complainant, it seems, put down some stakes on the railway near defendant's property, which he (complainant) claims is his ground. Defendant disputes this and holds that the other is encroaching on his property, and as a result assaulted and beat complainant near the railway station, in which he had to take refuge until Const. Greens appeared and relieved him. For the assault deft. was fined \$10 or 30 days, and was also required to give his own security in \$50 to keep the peace. Mr. Cahill for complainant, Mr. Gibbs for defendant.

His First Visit to Town

William Coates, a fisherman, 67 years of age, came to town by the express to-day from Adey's Cove in the Straits. It is his first visit to town and his first ride on a train. He was surprised and deeply interested at seeing the street cars running. Constable Nugent kindly met him and conducted him to the house that he wished to find on Carter's Hill, where he sought an acquaintance who lived there several years ago.

Here and There.

FROM GRAND FALLS.—There are now about 50 cases of typhoid fever in Grand Falls in the hospital, also 20 that are being nursed in private houses. Two cases of typhus fever also have been found.

LOST TRAWLS AND GEAR.—In the big gale of Thursday week all the Salmonier boats were out on the fishing ground and their crews had a perilous time of it making the shore. Mostly all of them lost their trawls and anchors and some of the boats narrowly escaped being lost. All have now given up the fishery.

UNSEENLY CONDUCT.—Two blue-jackets who were at the Nickel Theatre last night acted in a very unseemly manner. They repeatedly started to sing and often took several draughts from a black bottle. They then began to smoke their pipes when Const. Ryan interfered and unceremoniously ejected them.

MAY BE EXPELLED.—Monday night there will be a meeting of the Laborers' Union when drastic steps will be taken against two members for what is considered to be a violation of the rules. The charge against them is that they knowingly worked with two non-union men. The belief is that they will be expelled.

The Sydney Fire.

North Sydney, Oct. 5.—The second bad fire in North Sydney this year occurred early this morning, when the buildings on the eastern side of Commercial Street, at the foot of Archibald Avenue, owned respectively by F. H. Rudderham and W. J. Christie, were completely destroyed, together with practically all their contents, involving a loss estimated at \$30,000. The Vendome Hotel, adjoining the Rudderham building, was also considerably damaged by the fire and the water, but the excellent work of the firemen saved the hotel from destruction.

Where Fire Originated.
The fire is believed to have originated in the back of the western end of the Rudderham block which was occupied by McKenzie and Hickey as a tailoring and gent's furnishing store, and had made a good headway before being discovered by a policeman shortly before three o'clock. The firemen reached the scene quickly, but the fire had made such progress that all they could do was to confine it to the Rudderham and Christie blocks, the latter by this time having caught. Weather conditions favoured the fire fighters. The light wind that had been blowing about the time the fire started having died out.

Family's Narrow Escape.
Mr. Rudderham and his family, who occupied the two upper stories of the building as a dwelling, narrowly escaped with their lives, as they were sleeping peacefully until just before the firemen arrived. Their infant child's cries aroused them at that time, and when they awoke their room was filled with smoke. Mr. and Mrs. Rudderham had barely time to seize their three children and escape from the building, in their night clothes when the whole structure became a seething mass of flame. Up to the time of Mr. Rudderham's escape the fire had been confined to the rear of the building but as soon as the doors were opened the flames spread to the front with great rapidity. The smoke was so dense and the heat so great that it was impossible to save anything, and all his personal effects, household furniture and stock in the drug store on the ground floor were consumed. The entire stock of cloths, clothing, gent's furnishing, etc., in the western end of the building, occupied by McKenzie & Hickey, were also destroyed.

The Christie Block.
The Christie block, the ground floor of which was occupied by the Canadian Express Co. and by Allen & De Wolfe as a wholesale fruit store, and the upper storey by Michael McKinnon and Charles Hillier as a tenement, burned heavily and quickly, but most of the contents were saved. Mrs. Hillier and family saved practically all their household effects, but Mr. McKinnon saved nothing but a few pieces of furniture. Mr. Christie saved all his papers and express parcels, but a good deal of Mr. Allan's stock of fruit and confections was ruined.

Loss Estimated at \$30,000.
The loss of both buildings and stock is estimated at about \$30,000 with insurance of about \$20,000. The Rudderham building was insured for \$7,500, the drug store stock for \$4,000, and Mr. Rudderham's household furniture for \$1,000. McKenzie's stock was valued at \$1,000, and carried \$3,000. Mr. Christie had \$3,000 insurance on his building, while Mr. De Wolfe had \$1,000 on his stock. John Moore, who occupied a small stable at the rear of the Rudderham block, lost a quantity of hay and harnessed value at \$500.

Firemen's Splendid Work.

The splendid work of the firemen alone saved the Vendome Hotel, which caught repeatedly, but despite their efforts the building was damaged to the extent of \$1,500. The fire interrupted the car service for a time, as the C. B. Electric Co.'s wires were burned, and telephones out of commission, but the work of making repairs is now going on.

Telephone Cables Burned.
The burning of the Eastern Telephone Co.'s cable put eighty-five telephones out of commission, but the work of making repairs is now going on. Mr. Rudderham had been confined to his bed since Saturday last through illness.—Sydney Post.

Visited by Earl Grey.

The Trinity schooner Annie Patience, Skipper J. Ash, and crew of 6 men, had the distinguished honor of a visit from Earl Grey, Governor-General of Canada, at Quirpon in September. While the Earl's steam yacht was lying there at anchor the little shing schooner Annie Patience was seen beating in the harbor, coming from Labrador. The Governor-General admired her so much that he went on board in his launch and spent an hour with the skipper and crew. He visited every part of the schooner and asked a hundred questions regarding the prosecution of the sherry. He was greatly pleased with the cleanliness of the cabin and the general surroundings.

No Indigestion or Sick Stomach.

Gas, Heartburn, Dyspepsia and all misery in Stomach vanishes.

Take your sour, out-of-order stomach—or maybe you call it Indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapiesin and let you eat one 22-grain Triumule and see it within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; here Digestive organs become weak; here is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is feeble and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin.

SERIES OF SERMONS.—Rev. J. K. Curtis will begin to preach a series of sermons to the congregation at Wesley Church to-morrow. A special invitation is extended to outport friends.

GOOD FISHING STILL.—An Portage Cove yesterday again there was exceptionally good fishing, and boats manned by three took on an average 4 qts. on squid bait, which is still plentiful. Since trap time the Messrs. Harding on hook and line secured 183 qts. of cod, yielding 550 gallons of liver, and others have succeeded with the hook in the same ratio.

He's Sure of Home Rule

T. P. O'CONNOR IS.
"My view is that Home Rule is assured in any event."

Buffalo and the "largest convention of the United Irish League held in a quarter of a century," a convention which made a new record for Irish League subscriptions by piling up a total of \$150,000.

"What is the present situation in Great Britain in regard to Home Rule?" Mr. O'Connor was asked.
"It is peculiar," said T. P. "There is a great pause during which everybody is almost compelled to be silent. That pause came in the very agony of a fierce party battle over the House of Lords, and was due mainly to the death of the late King.

Compelled A Truce.
"The state of feeling in the country everywhere after the death of King Edward absolutely compelled a truce. There was, too, an equally profound desire to spare the new sovereign the terrible responsibility involved in that struggle at the beginning of his reign. As a result there was a conference of

four representatives of each of the two great parties.

"That conference has held several sittings and will meet again somewhere in the second week in October, and the pause will continue until they have come to an agreement or a rupture. I do not by any means consider an agreement impossible. I think that there will be an announcement one way or another by the time the House meets on Nov. 15th.

"I cannot imagine any agreement that would not enable the Liberal Ministry to be in a majority to carry Home Rule, with or without the consent of the House of Lords, or to carry any other great measure of reform.

"I think the patriotic and statesmanlike view of Mr. Balfour to take would be, if Home Rule were inevitable, to make it a national, instead of a party settlement, and, after an agreement on the House of Lords question, to see if an agreement on the Home Rule question were not possible.

"I believe that a settlement on national lines would be acceptable to not only Liberals and Nationalists but to Conservatives generally, excepting the irreconcilables in the north-east corner of Ireland. If there is a rupture there will be an early election—in January or February, and I think the present Government will get a majority in the country."

"What of the Land Bill?" asked The Telegram.

"Working well," was the answer. "Three hundred thousand out of five hundred thousand farmers own their lands and the rest will in the course of ten or fifteen years. The land struggle in Ireland is over."

Mr. O'Connor goes from Toronto to Ottawa, Montreal, Quebec and Halifax.—Toronto Telegram.
