

One Pair of Hands is enough.

If you give your Cook a Gas Cooker she can always cook her best and need never keep you waiting because she has nothing else to do but cook.

She has no troublesome coal fire to look after, but can get the exact heat she wants for every dish by merely turning a tap and she can cook several dishes (each requiring a different degree of heat) at the same time.

The Gas Cooker needs no preparation, makes no cleaning work, and is turned out as soon as it is finished with and therefore burns no unnecessary fuel.

By using a Gas Water-Heater in addition to the Gas Cooker hot water is supplied for all household purposes with the greatest promptitude, and the use of coal in the kitchen can be done away with altogether.

Where Gas Appliances are used in the kitchen the cook will always find that "one pair of hands is enough."

428th Day of the War

TO-DAY'S Messages.

10.45 A.M.

FRENCH TROOPS LAND AT SALONIKA.

ATHENS, To-day. (Delayed in transmission.) French troops, landing from five transports at Salonika, Greece, consist of seventy thousand men. They will proceed along the Guevgheli Uskup railroad and guard the line.

GREEK PROTEST.

PARIS, To-day. France has notified Greece of the arrival of the first detachment of French troops at Salonika. They were going to help Serbia. Premier Venizelos replied, protesting against the passage of foreign troops through Greek territory ground, as it violated Greek neutrality. The allied governments made preparations and gave necessary orders for the landing of troops several days ago. Previously they had entered into negotiations with the Greek government, which being still neutral, made a formal protest, as it was obliged to do. At the same time the French officers were given every freedom to prepare for the landing.

"AN ACT OF TREASON."

LONDON, To-day. The Crown Council of Bulgaria, according to a Geneva despatch to the Exchange Telegraph Company, has spent several hours in discussing the Russian ultimatum without arriving at a decision. The same authority declares General Savoff, former Minister of War and former Commander-in-Chief of the Bulgarian army, concluding a thrilling speech, said: "Every Bulgarian who breaks away from Russia commits an act of treason towards his country."

LORD DERBY IN CHARGE OF RECRUITING.

LONDON, To-day. Earl Derby, at the request of Lord Kitchener, Secretary of War, has undertaken the direction of recruiting for the army. "I feel somewhat in the position of a receiver who has been put in to wind up a bankrupt concern," said Lord Derby, referring to his new post, at a Lanchester recruiting meeting last night. "But I hope to be able to do it so satisfactorily as to enable the creditors to receive twenty shillings to the pound." Lord Derby explained he had accepted the position of director of all recruiting throughout the Kingdom, because of his personal loyalty and friendship to Lord Kitchener, who had asked him to take the post. While an advocate of national service, he would do, as he had done, his level best to make the voluntary system a success. But if it should be demonstrated that all the men needed could not be obtained he would resign office, unless other methods were employed to make up the deficiency to keep England safe.

FROM BERLIN.

BERLIN, To-day. The German steamer Swenka was

shelled in the Baltic Sea by a British submarine without warning, the Overseas News Agency declares to-day. The submarine, adds the News Agency, first flew a German flag, then a British.

SUCCESSFUL RUSSIAN OPERATIONS.

PETROGRAD, To-day. Official: There has been several engagements at the Riga front, north of Dirschallen. Our troops occupied a portion of the German trenches, and fighting continues South of Pripiet. After engagements on the Middle Stry district on the Kovel-Sarny railway our troops occupied the villages of Vouik, Optove, Vitchitsk and Modvieshka. In some places the enemy retired in disorder.

VOTE OF CONFIDENCE IN VENIZELLOS.

ATHENS, To-day. After Premier Venizelos explained to the Chamber of Deputies the circumstances connected with the landing of the allied troops at Salonika, the Chamber passed a vote of confidence in the Government. The vote was 142 to 102, with thirteen members not voting. The opposition leaders attacked the Premier bitterly. They accused him of unnecessary leading the country into war on the side of the Allies. The Chamber was in session all night, adjourning at 4.30 this morning.

1.15 P. M.

GREEK CHAMBER ADJOURNS.

PARIS, To-day. In consequence of the resignation of the Premier and other members of the cabinet the sessions of the Greek Chamber have been adjourned, says a despatch from Athens.

WILL NOT ASK FOR ARMISTICE.

ROME, To-day. An official denial was made that the Pope intends to ask the belligerent nations to declare an armistice for November 2nd to memorialize the soldiers who have perished since the war began.

NEW APPOINTMENT.

LONDON, To-day. Major-General Sir Archibald James Murray, has been appointed Chief of the Imperial General Staff at the army headquarters in London.

MACHINE GUN IMPORTANCE RECOGNIZED.

LONDON, To-day. The British military authorities have recognized the importance of the machine gun, by the formation of a special Machine Gun Corps with the King's sanction.

ITALIANS DO GOOD WORK.

ROME, To-day. An official statement issued yesterday by the headquarters of the Italian General Staff, follows: In the Tene zone during the night of the 30th one of our mountain detachments having scaled the rugged Terrene Peak at the head of Strine Valley, drove out several enemy detachments posted there and destroyed the partly constructed defences, then returned to our lines after avoiding the violent artillery fire directed upon it by the enemy.

GREECE WILL SUPPORT SERBIA.

ATHENS, To-day. Summarizing the Government's position.

sition, in closing the debate in Parliament, on foreign relations, Premier Venizelos declared, the Government would take no further action in regard to the landing of French troops at Salonika than the protest already made. He asserted that under the terms of her alliance with Serbia, Greece was clearly obliged to aid her ally if the latter was attacked by Bulgaria. After these statements he asked and received a vote of confidence. M. Venizelos' declaration has been accepted by the public as a definite statement of the intention on the part of Greece to support Serbia if attacked by Bulgaria.

SURPRISED AT KING CONSTANTINE.

PARIS, To-day. The reported breach between King Constantine of Greece and Premier Venizelos resulting in the resignation of the Premier was totally unexpected in Paris and has caused painful surprise. French editorial writers have hard things to say of the King whose German connections always have made him the object of some suspicion on the part of those who sought the aid of Greece for the Allied cause, while another line of policy was preferred it is argued by the French writers that there is no excuse for King Constantine's present attitude and that it only serves to justify those who urged the landing of Allied troops at Salonika last spring.

GERMANY FOOTS THE BILL.

MILAN, To-day. Germany paid the expenses of the Bulgarian mobilization, according to the Corrier della Sera, as military action by Bulgaria was considered indispensable in encouraging Turkey to continue resistance, it is also asserted Germany agreed to advance the Bulgarian Government, 100,000,000 a month to help the families of reservists hoping thereby to check the tide of anti German feeling.

FRENCH TRANSPORTS AT SALONIKA.

PARIS, To-day. French transports arrived at Salonika on Friday night. Troops began landing on Saturday, says Athens despatch. Perfect order was maintained in the city and the inhabitants gave the French soldiers a cordial reception.

FRENCH TROOPS BEING FORWARDED.

LONDON, To-day. The landing of additional French troops at Salonika is reported from Athens. Correspondent of Exchange Telegraph Company says a number of transports carrying French troops entered the port of Salonika this morning. He adds that the forwarding of French troops for Serbia is proceeding actively.

Hon. W. C. Job Will Move to New York

Hon. W. C. Job, who has been away for some months visiting England and the United States, is due home again this week end. But his stay will not be for long. Business matters have led him to decide on leaving Newfoundland to take up his residence in New York to look after the branch of the firm's business there, which does considerable trade in fish. His place in the firm here will be taken by Mr. R. B. Job, who will become head of the business here. The many friends of Mr. and Mrs. Job and their family will regret their coming departure from among us, for they have been known for many long years favourably and well in business, social and public life.

YOUR BOYS AND GIRLS

A conscientious mother is very apt to defeat her own ends by staying at home too constantly and watching over her baby so incessantly that she grows pale and nervous and begins to worry, a condition which often results in depletion of the milk and corresponding disturbance in the baby. Healthy babies are better off with a judicious amount of letting alone, and there is no reason why a mother should not be absent some part of every day, if there is a responsible person present to be left in charge.

Out of door life, pleasant recreation which is not exhausting, visiting and other diversions are essential to every nursing mother if she is to keep up an abundant supply of milk. The family, especially the husband, should realize how important it is to shield the nursing mother from unnecessary work and worry.

Evolution of the Army Boot.

Mr. Roland Gorbold, of Northampton, speaking at the Cordwainers' Hall, London, recently, said that at the outbreak of war the Army was served with a wholly hand-sewn boot.

To meet the great demands a design was fixed upon for a new kind of machine-made boot. A chrome tan was substituted for the vegetable tan, with the result that leather could be produced in a month, whereas formerly it took a year. To-day 60,000 pairs of boots are being produced every day—more in a day than could be produced in a week before the war.

Mr. Gorbold mentioned that a man came back from the trenches, having worn the new boot for eight months. The new boot resembles the American model with a "blocked" toe. A type of boot made for the trenches, so as to do away with the puttees, is water-tight up to the knees.
