**Dock Hands****Get Increase.**

As stated in the Telegram yesterday, the employees of the Reid Nid Co.'s machine shops and dry dock went on strike. The workers demanded an increase of 25 per cent. on their present rate of wages. Yesterday afternoon the men, numbering about 300, held a meeting in the L.S.P.U. Hall and after discussing the matter for some time accepted the offer of the company for a 15 per cent. increase effective from June 1st. Mr. Ladley, Supt. of the Dry Dock, acted on behalf of the R. N. Co., and explained the position of the Company, stating that the work in the Company's hands was mostly by contract and time jobs. Mr. Ladley was thanked by the workers for the offer and was assured that every man would do his best in the interest of the Company. This morning all the men turned up for work.

**The Gas Range!**

The Gas Range means comfort for the housewife; shorter kitchen hours for her, and a cleaner kitchen. It is a great mistake to think that cooking with gas is expensive. Whenever a woman becomes used to gas for cooking, thoughts of a coal or wood stove fill her with gloom. A Gas range is so much easier to operate, so efficient for all kinds of cooking, and so much cleaner, that the idea of going back to the old style methods is decidedly unpleasant. Yet in winter many housewives think they must use a coal or wood stove, because there is no other way of heating the kitchen. THERE IS ANOTHER WAY AND IT IS FAR BETTER THAN THE OLD. THE CLOW GAS STEAM RADIATOR WAY. may 23/17
