

BRISCOE,

"The Car with the Half-Million Dollar Motor."

WITH FULL EQUIPMENT AND ALL CONVENIENCES.
Two-unit electric starting and lighting, long stroke 3 1/2 x 5 1/2 motor; magneto; four full elliptic springs with soft-type seat springs; Briscoe line body, with special Briscoe lustertone finish; 105 inch wheelbase; complete equipment including one man top, Bair top holders, tilted eye saver, windshield, speedometer, electric horn, electric dash lamp, electric headlights with dimmer, oil gauge, gasoline gauge, ammeter, demountable rims and one extra rim, tires 30 x 3 1/2 all around.

EX S. S. "ADOLPH" JANUARY 10TH.
One Briscoe Touring Car and one four-passenger Sports Roadster. See them at THE GARAGE. Your own eyes will tell you that it is unlike any other car in its size, power and weight class. In appearance and finish we believe you will see in it a welcome departure from the sameness of design and dress which has heretofore marked the ordinary popular-priced cars. Mechanically the car is tried and proven. You can shift the gears of the Briscoe with your finger tips so easy are they to mesh. The clutch takes hold without "grabbing" and engages so effectively that you can move the car forward or backward an eighth of an inch at a time if you desire. It is not necessary that you throw your full weight on the brake pedal, just a slight pressure and the brake takes hold.

The weight is evenly distributed so that the car is perfectly balanced and stays on the road no matter what the speed. The Bailey Gearless Differential eliminates side sway, skidding and slipping. Naturally it requires no effort to steer the car. Full line of Spare Parts by "Adolph". Prompt service is assured.

Catalogue and specifications on request.
