Dr. Pitcher ought to be held in high esteem by every farmer in the land on account of his Backache Kidney Tablets, which are doing such a grand and noble work in banishing backache, kidney and urinary troubles, which are such universal complaints on the farm.

MEAVY WORK.

Mr. C. E. Lane, King Street East, Ingersoll, Ont.: "I have been subject to attacks of backache and kidney trouble for some years, owing to heavy work on the farm in my early days. Every attack of cold aggravated it. I have tried other remedies in the pass but with little effect, and decided to try a bottle of Dr. Pitcher's Backache Kidney Tablets. I got a bottle from A. E. Gayfer, druggist, using at first three and then two at a dose, as they proved a little too laxative. With the two tablet dose the pain and other trouble disappeared, and since then there has been no return, consequently I am sure they are a good medicine."

TROOPS AGAIN ORDERED OUT

Bad Outbreak of Foreign Strikers at Archibald, Pa.

wo Men Were Shot and the Deputy Sheriff Was Shot at-The Steam Piper of the Pennsylvania Coal Co's. Col liery at Old Forge Were Blown Up With Dynamite-President Gomper on the Chances.

Harrisburg, Pa., Sept. 23.—Thirteenth Regiment has been ordered out. The headquarters of the regiment is Scranton.

Two Men Shot.

Scranton, Pa., Sept. 23. - Sherif Schatt of Lackawanna County last night telegraphed Governor Stone to send troops to his assistance. The sheriff has just prepared a proclamation announcing that he would call troops if the lawlessness did not cease when he received a series of telephone calls to quell disturbances up the valley. He found on investigation that the situation was such that he could not come with it, and sent Schatt of Lackawanna County last

occurred at Archibald. The crowd of 200 strikers, mostly foreigners, ran-sacked the quarters occupied by the forty men employed at the Raymond Washery of the Ontario and Western Washery of the Ontario and western Company, while the men were at work and then meeting with the men as they were returning, drove them back to the refuge of the washery. The mob then returned to the colliery proper, drove out the engineers, firemen, pumpmen and guards and took possession of the breaker. The plant of the Crescent Electric Light

plant of the Crescent Electric Light Company, which is supplied with steam from the breaker, had to shut down, and the whole region around on the breaker, two men were shot, was left in darkness. In the attack one a striker and the other a workman. Their names or condition could not be learned.

Chief Deputy Sheriff Miles McAndrew, was attacked and shot at by a mob at Olyphant. The steam pipes of the Pennsylvania Coal Company's colliery at Old Forge were blown up with dynamite last night. Two colored cooks at the William A Colliery were rescued by Deputy Sheriffs from a crowd that was threatening to lynch them.

STRIKERS WILL NOT YIELD.

Because It Would Mean the Dismember ment of Their Union.

Washington, Sept. 23. — President Compers of the American Federation of Labor said yesterday that the striking miners in the Pennsylvania coal fields were prepared to hold out for months. He said the miners were disposed to make concessions, but the operators had refused *Il over-tures from them, and that the men

Winnipeg, Sept. 20. — Miss Ermie Therrien, who was shot by Alonzo Rowe near Brandon Thursday after-noon, died in Brandon Hospital a few minutes before 10 o'clock yester-

day morning.

The tragic affair was a most remarkable one. Thomas Law, of Alexander & Law Bros., millers, of Brandon, went to the Beresford district for a day's shooting, accompanied by Miss Therrien, to whom he panied by Miss Therrien, to whom he was engaged to be married. They drove on to the farm of Alonzo Rowe, well-known as 'Old Man Rowe,' and were about to commence shooting. Rowe, was in the field at the time, and as soon as he saw the party he started his horses for the house, where he procured a gun, and, returning, fired at the couple. Mr. Law had dismounted and was walking herids the hugger. couple. Mr. Law had dismounted and was walking beside the buggy and received several pellets of shot in the knee, and Miss Therrien received almost the entire charge in her hip and abdomen. She fell from the rig to the ground, where her companion also lay unable to rise. Rowe returned to the house, where he took poison, dying almost instantly For some time Rowe has been pest-ered by sportsmen, who have persist-ed in trespassing on his farm. It is supposed that, blinded with anger at the approach of Law and his companion, he seized his gun, and, without considering the consequences, fired point-blank. Then, realizing what he had done, he committed suicide. Rowe was 70 years of age.

From Death on Saturday.

Calgary, N. W. T., Sept. 22.—
While R. L. Borden and his party were returning Saturday from the Indian reservation to Calgary the rig in which Mr. Borden was seated had passed over a rough and sloping piece of ground, and as the one containing Mrs. Borden and others was passing over this spot, the driver of the rig was thrown from his place and the horses at once bolted with the rig and six helpless occupants. The runaway team ran astride the rig containing Mr. Borden and other ladies and gentlemen, and Mr. Borden was, by the pole of the pursuing rig, thrown in such a manner that his left knee was caught between the wheel and the brake of his rig, and a furious horse was all but pinning him beneath its feet, The runaway was stopped. stopped.

A sufferer From Backache

Mr. W. Gilroy, general merchant, Blenheim, Ont., states:—"I am rather enthusiastic in the praise of Dr. Chase's Kidney-Liver Pills, and believe I have good reason to be. For several years I was a great sufferer from kidney disease, and had pains in my back almost constantly. I tried a great many remedies, but did not succeed in obtaining more than slight temporary relief.

temporary relief.

"A friend of mine advised me to try Dr. Chase's Kidney-Liver Pills, and I did so, with great satisfaction. I had not taken half a box before I began to feel better, and now realize that I have entirely recovered. I often wonder now why people go after new-fangled remedies when this tried and proven medicine is so easily obtained, and so certain to cure." Dr. Chase's Kidney-Liver Pills TEST DRINKING WATER.

Two Methods by Which You May De-termine Its Quality.

The supply of drinking water for the family should be tested at least once a year. Water that at one time is a year. Water that at one time is pure and wholesome may become too impure for use, yet it may be without color, and have no odor or taste to show its dangerous qualities.

A simple test of drinking water is the Meisch sewage test. Fill a clean pint bottle three-quarters full of the water to be tested, and dissolve in it half a tensponful of granulated suggestion.

half a teaspoonful of granulated sug-ar. Cork it and set it in a warm place for two days. If during this time it becomes cloudy or milky it is unfit for domestic use. If it remains perfectly clear it is probably safe. Be careful that the bottle is absolutely as clean as you can make it and the sugar

pure.

The second test is also a simple one. Obtain from a trustworthy druggist 5 cents' worth of saturated solution of permanganate of potassium. Add about five drops of this to a pint bottle of water. This will turn the water a beautiful rose purple. If there is any considerable amount of organic matter the color will give place in the course of a few hours to a more or less dirty reddish brown. If the color of the water in the bottle remains for twelve hours unchanged from the rose purple it assumed when the perman-ganate of potassium was first added, it may be considered free from organic contamination.

The Hawaiian as a Diver. ne working crews of the Hawaiian

Islands were quartered in suitable camps near their field of labor. They were natives, good fellows, willing workers, admirably adapted to the duty required of them, which was largely in boats and in the water. I well remember one who excelled in diving. On a certain occasion, when the placing of a deep water mooring had just been accomplished, it became necessary to detach under water the end of a hawser, which had been made fast to the submerged part of a spar buoy about forty or fifty feet below the surface of the sea. The man was told to take his sheath knife down with him and cut the hawser as near its end as he could, so as to lose as little as possible of the valuable cable. Taking his knife in his teeth, he disappeared beneath the water and re-mained out of sight so long that he was almost given up for lost, when he suddenly reappeared, and on being asked if he had cut the hawser as he had been told to reported that he had unbent it without cutting off any part of it whatever .- James D. Arm In Arm With a Tigress

It is related of Sir Edward Bradford that he once walked arm in arm, so to speak, with a tigress. He was out shooting and always a fearless sports. ooting and, always a fearless sports man, had come to close quarters with his quarry. He fired, and either the ball failed to take effect or but slightly wounded the animal. She sprang at him and seized his left arm above the elbow. The pain must have been terrible, but Sir Edward kept cool, and, realizing that it would be death to drag his mangled arm away and allow her to spring afresh at him, he de-liberately walked a few agonizing paces until his comrade was able to take aim and kill the brute. Thus his courage saved his life, though the am-putation of his arm at the shoulder

Wild Brook Trout. Hawthorne describes an ideal break-fast as consisting of hot cakes, brook trout, roast potatoes, fresh boiled eggs and coffee. The piece de resistance of this breakfast is the brook trout. In spite of all the efforts of fish culturists, the wild brook trout remains the finest morsel the epleure can seek.

Gultivated trout taste too perceptibly
of liver to be a food greatly desired.

The wild trout that springs in his native mountain stream is far superior to plest manner, dipping it in oil, salt and pepper and broiling it over hot coals. Serve it simply with butter and slices

Benefits of Traveling Proper recreation prolongs life. This fact is now better appreciated by busy people than ever before. Of all the forms of recreation the best perhaps is traveling. The benefits to be derived from it cannot be exaggerated. A journey, whether brief or long, is sure to relieve the mind of business or domestic cares by directing it into pleasanter channels. Thousands can testify that traveling has improved their health, lengthened their lives, brightened their mental faculties more than anything else.

The Other One. Two brothers in Paris were remarkably alike. A gentleman meeting one of them on the boulevard stops him, saying, "Pardon me, but is it to you or

to your brother that I have the honor of speaking?" "Sir," was the reply, "you are speak-ing to my brother."
