QUESTION.

A declaration of importance upon the question of transportation has been extracted from Sir Wilfrid Laurier by the ceaseless and untiring efforts of the the ceaseless and untiring efforts of the opposition to get some indication of the government's policy in regard to it. Sir Wilfrid Laurier divided the issue under three heads, water transportation, the railway requirements of the Northwest, and the present ministry.

The Liberal party has acted precise-ly upon the lines the Conservative party has a right to know which, the Conservative party has a right to know which, the Conservative party will act upon if it is wise, and we believe on the lines upon which the Conservative party will act, with or without the consent of the present ministry. railway requirements of the Northwest, out the consent of the present ministry. and the necessity for railway communication between the prairie section and candidate can be pledged to support the seaboard. > The political crisis has been followed by a political dilemma. The gentleman who is in the dilemma is the Honorable Richard McBride, and the dilemma is occasioned by the fact that the country desires a dissolution and a general election upon party lines. At the Revel desires a dissolution and a general elec-tion upon party lines. At the Revel-stoke convention Colonel Prior, John Houston and Richard McBride took ex-actly the same position. They took the position that as members and leaders they were under obligations to fellow members, collectives and very party. they were under obligations to fellow members, colleagues, and voters, and that until these obligations expired when parliament dissolved, their relations with the Conservative party were complicated by the fact of their existence. They all were explicit in their adherence to the proposition that when parliament was dissolved they would not appear before the country in any capacity save as candidates endorsed by the Conservative party. Colonel Prior's position all the way through was entirely consistent the way through was entirely consistent with his pledge. As soon as a dissolution took place he was, if he wished to remain a man of honor, in the hands of the Conservative party. In no way whatever did he conceal his position. So well was it understood that his col-lengue, W. W. B. McInnes resigned in order to facilitate an election upon party lines. But that is not at all the apparent position of the Hon. Richard McBride. Has he taken office to facilitate a general election upon party lines? He has taken office in the expectation of going their knowledge and consent. number of Mr. McBride's lieutenants are perfectly positive that he will form a Conservative cabinet, and that an appeal to the country will be taken upon party lines. But here is fairly good evidence that he will only resort to this as an expedient by which to keep himself in power, and only if it is necessary for that purpose. At the caucus held last night it may be taken for certain that Messrs. E. C. Smith, Oliver, Neill, Gifford, Curtis, Munro, Semlin, Kidd, Paterson and Wells would vote for a government containing Liberals as well as Conservatives. The Conservative end of the fight would be taken up by Messrs, Garden, Fulton, Tatlow, Green, McBride, A. E. McPhillips and T. Taylor, Of these seven, four will not hear of anything else, and will leave the party if anything else, and will leave the party lines. If a composite government is formed at this time of day that will be an indication that its leader and members do not intend to appeal to the country upon party lines.

THE DISMISSAIL.

We present the leaven in which Sir Henri Joly dismissed Colonel Prior. It reads as follows:

Government House, Victoria, B.C., 1st June, 1903.

Lieut.-Colonel the Honorable E. G. Prior, Prime Mimister, Victoria.

Dear Colonel Prior: I have read with care and attention the report of the charges preferred against you, in connection with the Chimney Creek tender. The views which you expressed, in explantation and justification of your action, in your answers to the committee, especially those found on pages 36 and 37 of the official type-written report, are simple to the country upon party lines.

THE LABOR COMMISSION.

The Labor Commission.

The proceedings before the labor commission at Cumberland, of which we publish a full account this morning, verge upon the extraordinary, in fact they do more than verge upon the extraordinary, they cross the verge, they show amazing duplicity upon the part of men to whom he appealed in the name of unionism. We have been told ad nauseam, that Mr. Baker, like the apostic Paul, came over to British Columbia in response to the appeal, "Come over and help up." Well, he came over, that they do not the appeal attion of Ladysmith to practical extinction. We have nothing to say to that at present. It is when he turned his at the trees of the tree at the trees of the tree of the tree of the trees of the tree of the tree of the tree of the tree of the trees of the tree o that he approved of a sympathetic strike at Cumberland. Our policy in this country towards the Mongolian races is a policy of exclusion and limitation. The Western Federation of Miners evidently did not know what it was a survey. But the deception as to the sympathetic nature of the Cumberland strike, and the extraordinary injunction to organize Mongolians, show that the real object of Mongolians, show that the real object of more from working, and to elevate neither white nor Chinese labor.
