WINNIPEG, Aug. 28-The members the press met at the city hall at 9 a.m., when the mayor had all the cabs and carriages in the city in waiting to take the great company, 150 or over, for a drive. We made a tour of the city, all the buildings, both public and private of any interest, were pointed out. After doing the city we drove to Silver Heights a distance of six miles There is a very nice hotel there with pleasure grounds. Another feast was prepared for the party by the mayor. We took the cars at three o'cleck and rode till we came to Portage La Prairie. On reaching that place we were met by busses and conveyed to the hotel where another repast was tendered us. We took a drive around the place and was very favorably impressed, but will tell you more of it on our retnrn trip as we are going to stop for a day and be on the C. P. The silver and glass dishes and table napkins were of the best kind. After breakfast we had two hours on the prairies. We walked over to see the tents of the mounted police that are located here. Saw some of the guardians of the peace. There are about a dozen of stores here. All hold in tents and one can buy all All hold in tents and one can buy at the necessaries. Canned fruits, blankets, ready made shirts, tins and dishes were the most noticeable. We saw a good many of the Cree Indians, and some of the gentlemen started an arching club and would place 25 cents on little sticks and get the Indians to shoot at it. They enjoyed it and were always ready to take the 25 cents. One that has ready to take the 25 cents. One that has never been here cannot realize how pure and fresh the air is, and how boyant it makes you feel. Time being up, we started and made our next halt at Fort Qu'apelle when a number of the mounted police rode up and had an interview with some of the gentlemen on board. Mr. Bain enquired of the chairman o the building committee why the Church street school was not ready at the opening of the schools.

Mr. Somers said that the carpentering and plastering was finished and they were waiting on the painting. Walter S. Lee said that the chairman of the committee shou'd take the matter in hand and push on the contractors to complete the job and not have it look like a deserted village. Mr. Roden said that if the contractor

were negligent in their duties they ought to be bound to pay their forfeit or guarantee. The board then went into a committee on the whole to consider the report of the committee on school management, Mr. Somers in the chair. The resignations of the guests of the city. Mr. Lee's motion was carried.

Dr. Wright in regard to appointments and promotions, said it would be well to consider whether teachers should be appointed to a position according to length of standing or ability. At present a teacher, though he be first class, has to commence at the lowest rung of the ladder and work up, while one of inferior talent is far above him on the ladder. Mr. Crombie moved that the names of the applicants for appointment to the position of teachers, as recommended by the committee, should be struck out, unless they obtained a higher certificate. This would, he said, greatly raise the standard of the teachers. His motion was lost.
