

## The Pick of the Bulb World

All our bulbs are grown for us especially and are personally selected by the James Carter & Co. experts.

Thorough tests, both before exportation, and at the Carter establishment at Raynes Park, London, England, healthy bulbs of the very highest quality. Our Tulips and Narcissus are exceptionally hardy and well suited to the Canadian climate.

# Carter's Bulbs

are unequalled for bowl or bed culture.

The Carter catalogue and handbook—"Bulbs"—illustrates and describes the choicest varieties of Tulips, Narcissus, Daffodils, Crocus, and many others. It lists all well-known favorites and many exclusive kinds not to be had elsewhere. Complimentary copy on request. Write for it to-day.

Mr. McMahon favored every packer being registered. It would help the inspectors in the performance of their duties and in looking after some of the packers.

Mr. Max Smith, Burlington, Ont., claimed that an honest packer does not need an inspector's certificate. Dishonest packers are the men who need certificates to help them make sales. Dealers in the west would require that all shipments should be accompanied by certificates. To start giving certificates would make it necessary to employ an army of inspectors.

Lorne Carey, of the Wentworth Fruit Growers' Association, told of a carload of apples that had been shipped west. The retailer wired back on its receipt that it was unsaleable. The fruit inspector was called in and reported that the fruit was first-class. In the course of the trouble the apples became frozen and had to be sold at a great loss. Had the shippers had an inspector's certificate in the first place, it would have been a great protection.

Senator E. D. Smith, of Winona, Ont., was strongly in favor of the granting of inspectors' certificates. If necessary a nominal charge per barrel might be imposed in connection with each inspection to deter an undue number of applications for inspection being made. The granting of certificates would tend to help young growers whose pack was unknown to the trade to gain a quicker acceptance for their fruit.

Rev. Mr. Dickson, Rectory Hill, Que., wanted to know if the first inspection would be final.

Mr. Lick replied that this would be impossible, as it would lead to many attempts at fraud. Fruit might deteriorate and require to be reinspected.

The matter was referred to the committee on resolutions, which later brought in a report which was adopted recommending the Government to issue the certificates if a satisfactory method of doing so could be devised.

I know of claims in Ontario that have been standing against railway companies for five years, and for amounts as great as \$1500. One of the powers that should be given to the Dominion Railway Commission is the right to adjudicate cases that have been standing for over three months.—Geo. E. McIntosh, Forest, Ont., Traffic Expert for the Ontario Fruit Growers' Association.

Mr. Charles H. Williams, B.S.A., who has for the past two years been resident horticulturist at Charlottetown, in connection with the Dominion Department of Agriculture, has been promoted to the position of Assistant Superintendent of the Dominion Experimental Farm at Nappan, N. S.

## BRUCE'S REGAL FLOWERING BULBS

We offer a complete assortment of Bulbs for Winter Flowering in the house and Spring Flowering in the garden—Planting time Oct. 1st to Nov. 15th.
