Wednesday, May 31st—Return to Quebec.

OUR PICTURES.

There is no name better known in the Diocese of Quebec, or even beyond our limits, than that of our late friend and benefactor, Mr. Robert Hamilton. Many Churches are to-day richer centres of worship, that, without his aid, would never have been built. Nearly all the Parishes in the Diocese of Quebec, and some beyond our boundaries, have endowments, which were first founded by Mr. Hamilton's munificent generosity. Many a bright and successful man in the towns and cities of the Dominion of Canada owes the high character and value of his education, and consequently his position in life, to a large extent, to the grand gifts made by our late friend to Bishop's College and Bishop's College School. For Mr. Robert Hamilton did not limit himself to the work of extending the English Church; his was a far wider outlook: he felt, in fact, that in this young country it is above all things necessary to pro-

vide the very best facilities for the attainment of sound learning and religious education.

It is natural, therefore, that for such a man there should be a General Memorial; and it is appropriate, moreover, that the form of that Memorial should be something connected with the Institution for which our good friend did so much and so well, viz., Bishop's College, Lennoxville, and Bishop's College School.

Now it happens that Bishop's College School has, at the present moment, so many boys in attendance that there is great need of a new dining hall entirely separate from the dining hall used by the College students; and, at the same time, the students have quite outgrown the accommodation afforded by the Arts Building, which was erected gradually and bit by bit, and which consequently needs to be dealt with in such a way that it shall stand up amidst its unique and beautiful surroundings as a great and harmonious whole.

To this end, then, some very clever plans and elevations have been made by Messrs. Cox & Amos, Architects, of Montreal, giving to the Arts Building:

(1) A spacious and suitable principal Entrance.

(2) An improved and enlarged Library.

(3) A better Principal's Lodge.

(4) More and larger Lecture Rooms.

(5) Separate, large and handsome Dining Halls for the Students of the College and Boys of the School.

(6) Rooms for thirteen more students, with improved Baths and Offices.

(7) Harmonious and appropriate Elevations both in front and rear.

All this, which must, in the nature of the case, cost from \$15,000 to \$20,000, is to form the General Memorial of Mr. Robert Hamilton, whose name and benefactions will be set forth on a Memorial Brass to be erected opposite the central entrance, immediately over the new door leading into the College Library.

Our illustrations this month represent the College Building (1) as it now is, and (2) as it will be when the proposed extension is complete—a marvellous transformation for the better; and yet, all this is of course
