

BARKING UP THE WRONG TREE,

OR, ELECTION MATTERS IN CAPE BRETON COUNTY.

OBSERVE the canines. They are barking at the man in the tree. "Bill" is the Conservative Candidate for the Local House, and "Arty" wants to get Bill elected so that he himself can go to Ottawa bye-and-by. The man in the tree is Fielding, the Grit Premier, and the canines would, of course, like to tear him limb from limb. This brings us to the limbs of the tree. It is the great Coal Syndicate Tree which Fielding helped to plant, and as the Tree is very popular, and the canines are really tied to it for family and prudential reasons, it will be seen that they are in a very nasty fix.

class work in all departments.

APPLETON'S POPULAR SCIENCE MONTHLY

Edited by WM. JAY YOUMANS

The Popular Science Monthly is
without a competitor.

It is not a technical magazine.

It stands alone as an educator, and
is the best periodical for people who
think.

All its articles are by writers of long
practical acquaintance with their sub-
jects, and are written in such a manner
as to be readily understood.

It deals particularly with those gen-
eral and practical subjects which are of
the greatest interest and importance to
the people at large.

Besides this, it keeps its readers fully
informed of all that is being done in the
broad field of science.

A reference to the contents of any of
the late numbers will more than con-
firm the foregoing statement.

\$5.00 per annum ; specimen copy, 25c.
