We Challenge the World

To show an Electric Belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant by simply reducing the number of cells. Ordinary belts are not so.

Beware of Imitations and Cheap Belts.

We desire to warn the public against purchasing worthless imitations of the Genuine Owen Electric Belt that has stood the test of years and has a continental reputation. The portrait of Dr. A. Owen is embossed in gold upon every Belt and Appliance manufactured by us. None genuine without it.

Geo. C. Pitzer, M.D.

Professor of the Theory and Practice of Medicine in the American Medical College, St. Louis, author of "Electricity in Medicine and Surgery," says:—

"St. Louis, Mo., June 10, 1886.

"I take pleasure in stating that I have examined and tested Dr. Owen's Electro-Galvanic Belt and Appliance, and do not hesitate to say that it is the most practical and efficient of all the galvanic belts I have used in my practice."

"Geo. C. Pitzer, M.D., 1110 Chambers St."

Dr. Pitzer is considered the best authority we have in the world on electricity.
