

**SPECIAL NOTICE.**

**AGENTS WANTED TO SELL OUR PATENT IVORY AND LIGNUM VITÆE EYE CUPS.**  
Spectacles rendered useless, Chronic Sore Eyes cured, and all diseases of the eye successfully treated (and guaranteed) by the greatest invention of the age.

**DR. J. BALL & CO'S PATENT EYE CUPS.**  
The value of the celebrated well-known Patent Eye Cups, for the restoration of sight, breaks out in blazes in the evidence of over 6,000 testimonials of cures, and recommended by more than 1,000 of our best Physicians in their practice.

The Patent Eye Cups are a scientific and philosophical discovery, and as Mayor Ellis, of Dayton, Ohio, writes, they are the greatest invention of the age. Certificates of cures performed by the application of Dr. J. Ball & Co's Patent Ivory and Lignum Vitæe Eye Cups—

CLAYSVILLE, Washington County, Pa., Sept. 29th, 1871.

Dr. J. Ball & Co.—Gentlemen—I have now thoroughly tested and proved the Patent Eye Cups to be the *ne plus ultra* of all treatments of impaired vision, from advanced life or other causes, and are an invariable cure of Myopia and Near Sight. I have in the last few days entirely cured several cases both of acute and what is called chronic inflammation. These had tried every known and available species of treatment without the slightest benefit, but on the contrary detrimental, and great expense.

My mother, an old lady of sixty-four years, is an enthusiastic advocate of the Cups. Three months since she could not read a letter, or letters as large as her thumb, as she sometime expresses herself. Certain it is, that her eyes were unusually old, and worn beyond her age to such an extent that she could not read the heading of the *New York Tribune*, without her glasses. You may judge, therefore, the effect of the Cups, when I inform you that she can now read every portion of the *Tribune*, even the small diamond type, without her glasses. She now habitually reads her Testament, ordinary print, without her glasses. You can imagine her pleasure. The business is beginning to assume something like form and shape. I have inquiries from all directions, and often great distances, in regard to the nature of the Cups. Wherever I go with them, they create intense excitement. But a few words are necessary to enlist an attentive audience anywhere the people can be found. I was at our fair last Tuesday, 27th inst., and I can safely say that I myself, or rather the Eye Cups, were no mean portion of the attractions of the occasion. I sold and effected the sale of many pairs. They will make money, and make it fast, too. No small catch-penny affair, but a superb, No. 1, tip-top business, that promises, so far as I can see, to be life-long.

I am, very truly yours,  
HORACE B. DURANT, M.D.

FENTON, MICH., July 17, 1871.

Dr. J. Ball & Co.—Gentlemen—It is with pleasure that I am able to inform you of my success with the Patent Eye Cups. I have been slow in my operations, but work on a sure plan. People are afraid of being humbugged, but I have convinced them of reality. The Patent Eye Cups are a perfect success. They have restored my son's Eye Sight who was blind in his right eye since he was a lad, the optic nerve was injured; after applying your Patent a few times he can read with that eye unassisted. He can shoot as many birds from the cherry tree, with his right eye that was blind, as any other person.

I have applied the Patent Eye Cups with Myopic attachments, to two persons eyes who are Near Sighted; their sight is improving at an astonishing rate.

My old eyes of 14 years standing are perfectly restored. Many blessings on the inventors of the Patent Eye Cups, for the great good they have done to suffering humanity.

I remain, most respectfully,  
REV. ISAAC MORTON.

BLOOMING VALLEY, PA., Sept. 4, 1871.

Dr. J. Ball & Co., Oculists.—Gentlemen—I received your Patent Eye Cups by the hand of Mr. Rondelish; after testing the efficacy of the Cups for two weeks, I am satisfied they are what they are purported to be.

After wearing glasses for 19 years, for reading and writing, I can now see to read any print in your pamphlet without my spectacles. I can, therefore, recommend the Patent Eye Cups.

Very respectfully yours,  
REV. J. SPOONER,  
Blooming Valley, Crawford County, Pa.

CHESTER, Sussex Co., England, Dec. 15, 1871.

Dr. J. Ball & Co.—Gentlemen—On the reception of the Patent Ivory Eye Cups, on the first application, I found benefit, and now, I am happy to say unhesitatingly, from my own practical experience, that in my opinion the result produced through using your Patent Ivory Eye Cups is one of the greatest boons that ever God bestowed or man received (Spiritual Eye Sight excepted).

Over 12 years I have worn spectacles, and to my own torment, I can read Newspaper print, and I am writing this letter without my spectacles.

I cease to wonder at once why people are so anxious for them, now I have tried them myself, and proved them with an ocular demonstration. They are simple in construction, and could not possibly, think, be more suitably adapted for the Eyes, besides being Harmless, Painless and Pleasant. I speak with all due deference of the Faculty, but at the same time, I cannot divest myself of the fact that the present treatment, in the cases of Myopia, or Near Sightedness, Dimness of Vision, Cataract, Partial or Total Blindness, is a failure in nineteen cases out of every twenty when they resort to the knife, and am sorry to say I know cases that have ended in total blindness, which cannot possibly occur in using the Patent Ivory Eye Cups.

And now in conclusion, I beg to return you my sincere thanks for the inexpressible benefit received by using your Patent Ivory Eye Cups.

Yours faithfully,  
REV. J. FLETCHER.

CANBORO, C. W., June 13th, 1871.

Dr. J. Ball & Co.—Gentlemen—It has been a long time since I wrote to you. I have waited to see what effect the Patent Eye Cups that you sent me last January would have upon my eyes. I can truly say the effect produced upon my eyes is truly astonishing. Before using the Eye Cups, a printed sheet was like a blank paper to my naked eyes, but now I can see to read without glasses any print with apparent ease. The glasses I was compelled to use before I applied the Eye Cups were of the greatest magnifying power to enable me to read or write, but now I have laid them aside and can read diamond print, and write without them. My sight is restored as in youth.

A young lady, the daughter of my tenant, which I have on my place, was affected very badly with near-sightedness, brought on by inflammation. She came to me to have the Eye Cups applied to her eyes, and, strange to say, after a few applications, (for reading) the book was removed from six inches focus to nine inches focus, and she can see objects at a distance distinctly, a thing she could not do before.

The Patent Eye Cups are the greatest invention of the age. May heaven bless and preserve you for many

years, for the benefit you may confer on suffering humanity.

Yours most truly,  
ISAAC BOWMAN,

Dr. J. Ball & Co.  
Gentlemen: This is to certify that, having been afflicted with sore eyes for several years, to such an extent that my sight was almost gone—could not see to walk about—having tried almost everything known in the Materia Medica I was constrained to try Dr. Ball's celebrated Eye Cups, with happy results. My eyes are entirely cured, and my sight is fully restored. After such results, one of my neighbors, who had been entirely blind for three years, commenced using the Eye Cups, and now he can see to do any kind of work, and is restored to his full eye-sight. To those suffering from such afflictions, try Dr. J. Ball & Co's Eye Cups, and you will never regret the cost. Yours respectfully,  
E. G. HOLBROOK.

J. R. THOMPSON,  
Justice of Peace.  
DEMORESTVILLE, C.W., Feb. 2, 1872.

Dr. J. Ball & Co.  
Gentlemen: I obtained your Patent Eye Cups from you I was suffering very much from inflammation, dimness of vision, and weak eyes; I have been so bad for several weeks that my sight became so affected that I could not distinguish a man from a woman eight rods off. I applied your Patent Eye Cups a few times, as per your special directions, and to my great delight, they have perfectly and permanently restored my sight, cured all inflammation and weakness of my eyes. I am now able to see a bird, where I could not see a man at the same distance.

I will also state my friend's case, who applied your Patent Eye Cups. I returned this morning from visiting an old lady that was almost totally blind in one eye, and could see no person standing before her with the other eye. After I made an application with the Patent Ivory Eye Cups of two and one-half minutes, she could see her hand and fingers with her eye that was totally blind, and the other was greatly improved. Your Eye Cups are simple, can do no harm to any eye, and far surpass any invention of the present age. I remain,  
Very respectfully yours,  
REV. JOHN HILL.

LEEDS, C. E., March 13, 1872.

Dr. J. Ball & Co.  
Gentlemen: I sold a pair to a man that was so blind he had to be led about by the hand; now he can see to go where he pleases. I sold another pair to a boy that had sore eyes, and had spent \$100 trying to get his eyes cured; the Eye Cups have cured him.

ALF. LABARRAQUE AND Co

**QUINUM LABARRAQUE**  
Approved by the Imperial Academy of Medicine

The Quinum Labarraque is an eminently tonic and febrifuge Wine, destined to replace all the other preparations of Peruvian Bark

The Bark Wines usually employed in medicine are prepared from Barks which vary considerably in the degree to which they possess the desired properties. Besides, owing to the manner in which they are prepared, these Wines contain scarcely more than the traces of active principles, and these always in variable proportions.

The Quinum Labarraque, approved by the Academy of Medicine, constitutes, on the contrary, a medicine of determined composition, rich in active principles, and on which Physicians and Patients can always rely.

The Quinum Labarraque is prescribed with great success for persons of weak constitution, or for those debilitated by various exhausting causes or past sickness; for youths fatigued by too rapid growth; for young girls whose development takes place with difficulty; for women in childbirth; and for aged persons enfeebled by years or illness. It is the best preservative against Fevers.

In cases of Chlorosis, Anemia, or Greenishness, this Wine is a powerful auxiliary of the ferruginous preparations. In conjunction, for example, with VALLET'S PILLS, the rapidity of its action is really marvellous.
