

APPENDIX 2

DRAFT CRITERIA FOR UNDERUTILIZED- NON-TRADITIONAL SPECIES.

The criteria used to determine the potential and current development are based on: current total allowable catch, existing harvesting capacity, potential product and market development, identified need and interest in the marketplace and consultations with federal and provincial government officials, industry associations and fishing industry members and sectors of allied industries.

PACIFIC SPECIES

<u>SPECIE</u>	<u>POTENTIAL</u>	<u>CONSTRAINTS</u>
Clams- Razor - Manila	High High	Environmental Environmental
Squid- Opal -Nail -Red -Loligo	Medium to High	Marketing and Technological
Octopus	Medium	Technological Marketing
Crab- Box - Munid	Medium Low	Technological Marketing
Scallops- Pink -Swimming -Weathervane	Medium Medium Low	Technological Technological Technological
Shrimp -Sidestripe -Humpback	Medium Medium	Technological Marketing
Sea Cucumber(skins)	High	Marketing
Sea Urchin	High	Technological
Pacific- Hake -Cod (Grey)	High High	Marketing Marketing
Walleye Pollock	High	Marketing
Sole- Rex -Dover	Medium Medium	Technological Technological
