Montreal. Que

Dear Sir,

Many thanks for your very satisfactory reply to my enquiry re Canadian Engineers. In explanation of my enquiry I may say that I am interested in the Warlike Sons of Canada movement, and it is our intention to make a protest regarding the employment of foreign engineers when there are suitable Canadians to fill any engagements. We also intend, that should any such future appointments be proposed, to make a strong protest to the government against them.

Yours sincerely

George C. McIntyre
