Despite Support of Commission Houses, Prices Show Marked Decline.

CHICAGO, Mar. 3 .- Estimates that farm reserves go way beyond accepted figures, had a depressing influence today on wheat. The market closed heavy, 1-4 to 3-4 cents net lower. Corn sinished 1-4 to 3-8 cents down. oats off 1-4 fa 3-8 cents and provisions varying from 2-1-2 cents decline to an advance of 22 1-2 cents.

In the face of supporting orders from big houses, bear traders in the wheat pit sold right and left, and decisive break. Trade reached the largest volume in several weeks. Both foreign and domestic conditions were against the bulls. India sent were against the bulls. India sent word that a normal yield was expected, world shipments were larger than had been looked for, and the outlook thruout the U.S. winter crop belt put the bears an their mettle. Re serves of wheat on farms were calculated to be nearly fifty million bushels more than last year. Thus about one-half of the additional production as compared with 1911 would be shown as still in first 1911 would be shown as still in first

Corn Also Lower.

Corn eased off on account of wheat weakness and because of favorable weather. The bear side received aid weather. The bear side received and also from a gain in the visible supply total from the record breaking estimated farm reserve. Oats likewise dragged lower in consequence of an fragged lower in consequences asserted record reserve.

Profit taking by longs took some of the edge from a sharp advance in provisions. The upturn was due to scarcity of hogs and to a bullish report as

to packing house stocks on hand. Receipts of wheat at northwest points, with usual comparisons, follow:
