ROCHE CURIOUS LANDRY RETICENT

No Light Thrown on Senator's Correspondence With Postmaster-General.

WERE CHARGES MADE?

OTTAWA, April 3 .- (Can. Press.)-Senator Roche asked in the senate today if Senator Landry had addressed exchanged between Postmaster-General Pelletier and himself, and if the said letters contained charges and accusations against Mr. Pelletier. He also asked the "nature of the charges and accusations," and if Speaker Landry had "suggested the propriety Landry had "suggested the propriety of making changes in the representation of Quebec in the cabinet," and asked Speaker Landry if he would consent to produce the correspondence. In reply Speaker Landry said he would give the same answer he gave to the house of commons in March, that there had been no correspondence. that there had been no correspondence etween himself and the prime minister in 1912 relative to public works in Quebec. The correspondence con-sisted simply of copies of communications between himself and the post-

master-general which the postmaster-general had marked "private." In view of this Speaker Landry said he could not make them public. He also could not question another member of the senate unless the question related at his late residence, 169 Delaware avepointed to a rule that one member to a measure before the senate. Senator Choquette urged that if the whole correspondence could not be

brought down the letters of Speaker Landry could be brought down, as they could not be marked confidential. After some discussion on the point of order the matter was dropped. Limiting Appeals.
On Senator David's motion for the appointment of a committee to consider the advisability of limiting the right of appeal to the supreme court and to the privy council in certain classes of cases, Senator Choquette said that the matter had been so

thoroly discussed he had little to add. He agreed with Senator Belcourt that in the case of the privy council the in the case of the privy council the matter was settled and there could be appeal only by royal permission and that was asked for today. As to limiting appeals to the supreme court, such a thing could only be done by cooperation of the provinces.

If the committee was appointed

would have to arrange for a confer-ence of provincial attorneys-general. Senator Choquette said he had experience on the bench, and had found tha title more opportunity for appeal the more appeals there would be. Litigants became so persistent that they would carry appeals to the throne of grace if there was opportunity.
Senator Dandurand adjourned the
debate and the senate adjourned until
