How to Peel Off a Weatherbeaten Face

ADVERTISEMENT.

It's really a simple matter to renovate a face soiled by dirt, wind or cold. Ordinary mercolized wax, used like cold cream, will transform the worst old complexion into one of snowy whiteness and velvety softness. It literally peels off the outer veil of surface skin, but so gently, gradually, there's no discomfort. The wornout skin comes off, not in patches, but evenly, in tiny particles, leaving no evidence of the treatment. The younger, healthier under-skin forming the new complexion is one of captivating loveliness. One ounce of mercolized wax, to be had at any drug store, is enough to remove any coarse, chapped, pimpled, freckled, faded or sallow skin. Apply before retiring, washing it off mornings.

Many skins, wrinkle easily with every wind, that blows. An excellent wrinkle remover, Because it tightens the skin and strengthens relaxed muscles, is a wash lotion made as follows: Powdered saxolite, 1 oz, dissolved in witch hazel, one-half pint. This gives immediate results.
