RODGERS IRON MANUFACTURING CO., Muskegon, Mich.

Gentlemen:—We delayed answering your recent letter until we had an opportunity of testing your Adjustable Log Siding Machine. We find it works satisfactory in this timber which is short leaf yellow pine, and is a good thing. When you ship to us the the Combination Gang Edger as ordered we wish you would send us another Log Siding Machine. Respectfully yours

HIGH GRADE RUBBER BELTING

"MONARCH" "RED STRIP" AND "LION" BRANDS.

These well known grades of Rubber Belting are used by the principal lumber and saw mills from the Atlantic to the Pacific. Unequalled for durability, tensile strength and power-transmitting qualities.

"REDSTONE" SHEET PACKING.

The most satisfactory Sheet Packing. Remains flexible under the highest pressures. Does not blow out or require any following up.

MILL AND FACTORY FIRE HOSE.

Are you efficiently supplied with Fire Hose, and if so, is it in good condition for immediate use? If not, let us send you a Post Graduate treatise on the subject. We are the largest manufacturers of Fire Hose in Canada.

The Gordon Hollow Blast Grate

Develops every ounce of power a boiler is capable of generating, regardless of the weather, or of the character or condition of your fuel.

The TOWER 2 and 3 Saw Edger. For mills cutting not to exceed 20,000 ft. in ten hours.

The TOWER EXTRA 3 Saw Edger. For mills cutting up to 30,000 ft. in ten hours.

Why pay twice as much for an Edger requiring double the power and floor space, and doing no better work?

The TOWER One-Man 2-Saw Trimmer. With this trimmer one man can easily trim the output of a mill cutting up to 30,000 ft. in ten hours.

I can make more than satisfy you in a trimmer. I do not notice that it takes any power. It runs easy and does first-class work.
