**DR. BRUCE RICHARDSON** has removed to his new residence, No. 1 Roxborough street, corner of York and St. George, phone North Two Hundred. Downtown office, 132 Bay Street. Telephone Main One.

**A PRINCIPAL GIFT**  
**Ten Thousand Acres for Pailades Park and \$1,000,000 for Up Keep.**  
NEWBURGH, N.Y., Oct. 30.—In accordance with the plan outlined by her husband, the late E. H. Harriman, Mrs. Mary W. Harriman presented to the State of New York today 10,000 acres of land, a part of the Arden estate, to be incorporated in the Interstate Pailades Park. At the same time a gift of \$1,000,000 was made by Mrs. Harriman for the development of the park, and the preserve was further increased by the transfer to the park commission of 700 acres, which had been intended for the new state prison on Bear Mountain, but which by act of the last legislature was ceded to the park.

**MICHIE'S**  
Finest blend Java and Mocha Coffee at 45c lb. is in a class by itself. It is a breakfast necessity.  
**Michie & Co., Ltd.**  
7 King St. West  
**WILLIAM CHATTERLEY'S DEATH.**  
William Chatterley of Thornhill, who was struck and killed by a Metropolitan radial car Friday afternoon, was over 83 years of age, not 75 years, as published in error.  
The funeral will take place at 2.30 p.m. Monday, to the Methodist Cemetery.

**21c. Per 22 Meal**  
This is all the gas required for cooking each meal in the average Toronto home, Toronto Gas, at 75 cents per thousand cubic feet, is the lowest priced artificial gas in Canada, if not in America.  
Toronto Gas used on one of our modern ranges will prove a most economical, money-saving venture.  
75¢ worth of gas every day will do the "cooking" for the average family. Just think of it—24¢ a meal—besides, think of the time, the worry, and the work saved—a match, a valve, a knob, a gas burner, a fire. No coal, dirt, ashes—just a clean kitchen which always indicates the presence of a good housekeeper.

**SOME SPECIAL FEATURES**  
That Go With Each Gas Range Sold  
Free Quarterly Inspection.  
Free Connections—if the piping is near stove.  
Free Instructions on Gas Management and Economy.  
Time Payments at Same Prices.

**THANKSGIVING DAY.**  
Paradoxical yet true it is that the more and greater blessings the individual or a nation enjoys, the less acute is the sense and the less fervent the acknowledgment of their beneficence. To the pioneers and early settlers on this continent, living as they did, in the midst of perils known and unknown and earning their bread by daily conflict with stubborn and inhospitable nature, Thanksgiving Day appeared in very different fashion from what it does to their modern successors. Their religion, too, was at once more immediately personal and more given to vocal expression than suits the temper of the average twentieth century citizen. Yet none would wish to see an end to the appointment of national thanksgivings for the abundant privileges open to the dwellers of this highly favored land.

Never before in her history has Canada bulged so largely in the world's eye. Her wealth of resources and opportunities is known of all countries. Scarcely a day passes without its tribute; old and mighty nations seek her markets and invite her trade. In the flood of material prosperity, in the assurance of future greatness, the call to remember the Great Giver of All is apt to be but a small, smothered voice heard only by the attuned ear. Heavy is the task laid on the churches, the institutions, the individuals that are engaged in preserving and quickening the spirit of genuine Christianity among the people and keeping steadily before them noble ideals of faith and duty. But if the burden is great so will be the reward of their invaluable service. If our national Thanksgivings do not altogether fail of their purpose it is because of their influence exerted as it is for the building of the Canadian people into a nation-indeed with the finest qualities of manhood and womanhood.

**AWAIT ANNEXATION VOTE.**  
Any attempt to stampede the people of North Toronto into sewerage or electric light obligations for the present must be frustrated. Residents of North Toronto want modern conveniences similar to the city, of which the town is now practically a part, but these conveniences should come in the cheapest and most direct way, and that can only be obtained by incorporation into the city.

Various means are being adopted to try and balk the strong movement towards annexation, and the latest of these is the effort to present to the ratepayers bylaws for sewerage and electric light concurrent with the vote on annexation to be taken in January. The town council cannot afford to have the annexation vote tangled with other matters which are merely minor details. If the northern suburb wants sewerage and electric light, affiliation with the city is the readiest and cheapest way in which to get them.

No system of sewerage should be adopted by the town which does not conform to the city system, as this would prove an expensive barrier to annexation, which must under any circumstances occur at no very distant date. Any sewerage scheme passed by the engineer employed by the town which has not received the endorsement of the city, is a purely local affair. North Toronto can be accommodated with a permanent system by connecting with the city's trunk by way of the ravine in which the Belt Line Railway is located, and the same main sewer would serve for the districts of North-Rosedale and Deer Park, which will soon be a part of the city.

Mayor Brown is taking the right course in refusing to accept a sewerage plan without the endorsement of Engineer Rust, and any member of the town council taking an opposite view must be regarded as a direct enemy of annexation.

Let the people of the town first decide whether they want annexation before presenting any temporary sewerage proposition. If in January North Toronto ratepayers vote against annexation, it will then be time for them to say whether they want to instal an individual system, much more costly than it would be as part of the plan of the big city to the south.

**AT POPULAR PRICES.**  
So much success has attended the popular performances of the Toronto Symphony Orchestra in Association Hall, the second of which was given on Saturday evening, that it is expected to hold a further series in Massey Hall. If this plan be carried out, and the patronage so far accorded fully warrants it, the management should consider having an admission fee at really popular prices, say ten cents for part of the house, at least. Such music as the Symphony Orchestra provides is not available at present for

**A LONDON OPINION**

**On Toronto's Regulations for School Medical Inspection.**

"The Medical Officer," a journal of medical men in the government and municipal service, published in London, Eng., in its issue of Saturday, Oct. 22, commenting on the statement presented to the board of education by Dr. Helen MacMurchy as to the medical inspection system for Toronto schools, says:  
"It is difficult to conceive how such instructions could have been drawn up by any person having the most elementary knowledge of the manner in which medical inspections should be carried out, and we can only presume that they were assented to by the board without reflection and without any knowledge of the necessities of the case. Dr. MacMurchy is to be commended for the courageous attitude she has taken up in demonstrating to the board that they are utterly unworkable. We have every confidence that now the board has a fuller knowledge of the circumstances, it will follow the example of the education authorities in this country and leave the details of organizing the medical inspection of the children under its care entirely in the hands of the medical practitioners to whom has been entrusted the task of carrying out the inspections. In this way only will there be any measure of success, and we strongly advise the medical practitioners of Toronto to have nothing to do with any other arrangement. If they do they will be supporting a system which is doomed to failure and they will be told that that failure is due to themselves and the whole responsibility will be placed upon their shoulders."

**Of Interest to Y.M.C.A. Delegates.**  
In order to give the visiting Y. M. C. A. delegates and their friends an opportunity of visiting Niagara Falls, the Grand Trunk Railway System will sell round trip tickets at the low rate of \$2.00. Good going 9 a.m. express Tuesday, Nov. 1, valid retuning all trains Nov. 1 and 2. Be sure that your tickets read via Grand Trunk Railway System, as this is the direct and only "double-trip" route.  
Call at city ticket office, northwest corner King and Yonge-street for full particulars and tickets. Phone Main 4208.

**A REPROACH REMOVED.**  
PARIS, Oct. 30.—During the first half of the year 1910 it is officially announced that the births in France exceeded the deaths by 21,359. During the year 1899 the deaths exceeded the births by 23,265.

**Duke of Veragua Dead.**  
MADRID, Oct. 30.—The Duke of Veragua, a descendant of Christopher Columbus and former minister of marine, died to-day. He was born in 1837. He visited America in 1892 on the occasion of the Columbus celebration, and was received with high honors as the representative of the family.

**IS THIS YOUR BOY**

**Who at Tender Age Must Face the Hard, Cold World Without Preparation or Protection?**

No. You could not think of such a thing. And yet, would you neglect your health as you do if you waited to think of your family and how they would get along without you?  
You have not the old-time vigor and energy. You go home tired and worn out, feel cross and irritable, lack the old-time smile and good cheer which brought sunshine into your home at your arrival.

You don't sleep well, the brain is not so clear and active, little things annoy and worry you. In short, the nervous system is exhausted. You know this, but you do not want to consult a doctor, and scarcely know what to do. Use Dr. Chase's Nerve Food. It cannot fail to do you good, for it is made up of the elements of which your run-down system is most in need. Through the medium of the blood it sends new energy and vigor to every organ of the human body.

You can feel yourself getting stronger every day. You can prove it by noting your increase in weight. You will sleep better, appetite and digestion will improve, and you will feel again the courage and energy which can only exist side by side with good health and steady nerves. You can put a stop to the wasting process to-day by beginning this treatment. You need not let delay bring you a day nearer to nervous collapse. This treatment is not a stimulant to whip up tired nerves and brain. It cures in nature's way by filling the system with rich, red blood. It will not cure in a day, but its benefits are natural and lasting. With persistence on your part it will work wonders. Dr. A. W. Chase's Nerve Food, 50 cents a box, 6 boxes for \$2.50, at all dealers, or Edmondson, Bates & Co., Toronto. Portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on every box.

**ENORMOUS GATES FOR THE PANAMA CANAL**

Each of the Ninety-two as High as a Six-storey Building and Sixty-five Feet Wide.

PITTSBURG, Pa., Oct. 30.—Enormous gates are being made in Pittsburgh for the Panama Canal. They will be the largest in the world. Any one of the 92 of them, for there are to be 46 pairs, will, when set up, be about as high as a six-storey building, as wide (65 feet) as many city buildings are and seven feet deep or thick. The structural steel that will go to make them will weigh 60,000 tons, or over eight times as much as was used to build the Eiffel Tower in Paris. The cost will be \$5,500,000. The builders are the McClintock Marshall Steel Construction Company, a half of whose independent plant has been given over entirely to the gate contract. The thousands of individual pieces going to make up the gates, numbered and fitted to go together, will be shipped by steamer via Baltimore, and with them will go over 400 skilled structural steel builders from Pittsburgh to set them up. The advance guard of experts came here in December, and the first work will probably begin early in 1911. It will take three years to complete the job. The location of the gates is on the Pacific side, twelve at Pedro Miguel, and fourteen at Miraflores, near the Atlantic entrance. The gates are designed to hold back a 74 feet deep, in a channel 110 feet wide, which means a pressure of 1,000,000 pounds. Each lock will be ample for a ship 100 feet long, 30 feet wide, and 30 feet deep, and it has been estimated that as many as a hundred ocean ships may be passed thru in a single day.

**SOCIALIST DOCTRINES**

**Worker Must Own the Machinery He Labors With.**

There were no words minced yesterday afternoon in the address on Socialism given at the Labor Temple by O. B. Koehn of Chicago, under the auspices of the Socialist party of Toronto. The meaning of the address was to be held by the Socialist party in the campaign to be put up by them in the next municipal elections. That the fifty million Socialists of today were not content with the fact that the laborer should get the full value of his labor.

The 13th annual U.S. labor report stated that it took only one man to make 12 pairs of shoes, the laborer assisted by machinery, and that these, selling as they did at \$5.50 a pair, amounted to \$42. The report went on to show that the actual cost of the product, including the wages of the working man, the raw material and the machinery, was only eighty-seven and a half cents a pair, or in all \$10.36. Accordingly, \$31.64 went straight into the manufacturer's pocket, who did nothing toward earning it.

"This money is what we want and demand," said Mr. Koehn. "One of the aYnderbills made 80 millions of dollars after he was 75 years of age, but he had over 7000 hands, and out of each of these hands he made over \$14 a day. But we have only two hands and what the Socialist party wants is that every man should keep his own hands."

Socialism demands that the tools and machinery of production shall and must be owned by those who use them. If they are owned by another, he will give you just enough to live on; but you own the machinery yourself you can use it at your own discretion and there will be no over-production."

At the close of the meeting a resolution was passed calling upon men and women everywhere to write personal letters immediately to the Hon. A. B. Aylesworth, minister of justice, at Ottawa, urging that he counsel the order of Chief Justice Matthews of Manitoba by stopping the extradition proceedings that threaten to place Frederkenko, the Russian political refugee in the "crucel, bloody, liberty-crushing hands of the Czar."

**Rally Day Next Sunday.**  
Next Sunday will be rally day at Massey Hall for the patrons of the People's Sunday Services, which for the past three seasons have been conducted with such marked success by J. M. Wilkinson. Usually these services commence "Free Sunday" in September, but Massey Hall this year is occupied by the Metropolitan Church during alterations. Mr. Wilkinson, however, has not been idle. He rented the People's theatre in Hamilton and conducted Sunday night services, which were largely attended. Massey Hall has been secured for twenty-five consecutive Sunday nights, which will include Christmas and New Year's.

Including the visit of the evangelists, Chapman and Alexander, during January. It is in intention of the director of the services to have live men occasionally address the meeting on live topics, things that make for righteousness. The pictorial text next Sunday will be "The Light of the World," a sequence to the great convention that closes to-night. The City Band will present a specially attractive program, with one of the songs will be Julia Ward Howe's "Battle Hymn of the Republic," adapted to present day problems.

**Englishman Suicided.**  
FERNIE, B.C., Oct. 29.—(Special.)—George H. Chambers, an Englishman, 35 years of age, committed suicide here last night by hanging himself. Chambers had been living with his father-in-law since coming to Fernie, a short time ago. He leaves a wife and family in England.

Winthrop Ames arrived in Toronto last evening an hour late, and he will be busy till 2 o'clock this afternoon catching that last hour. Of course it was not his fault, for he never misses anything. It was the train that dragged along with its tremendously heavy load of scenery and baggage for the New Theatre production at the Royal Alexandra this week.

The New Theatre is the historic dream of the last half century. It was hoped that England could be stirred up to embody it, and Sir Henry Irving gave his life in the attempt at its realization. But it has remained to the new world to organize the New Theatre, and the company appears in Toronto this week.

Mr. Ames is just the sort of gentleman one might expect to meet as director of the New Theatre company, courteous, informed, cultured, genial. He is the most modest mannered that the dramatic world has ever seen. He does not need to be otherwise. The size and the quality of his company render trumpeting unnecessary.

Mr. Ames has a sufficiently high estimate of the judicial character of a Toronto audience, and it is to be hoped that the result will bear out his anticipation, for it will be the fault of the audience and a stain upon Toronto if the patrons he not worthy of the great performances which the New Theatre company is to give.

This is its first appearance in Canada, and the greatest living and the greatest dead dramatist have been under contribution for these bills. Shakespeare's "Merry Wives of Windsor" is a downright farce and will be so played by such a cast as was never before assembled on any stage. The rollicking fun and broad humor will be interpreted by what is without doubt a combination of genius. And then, wonderful to say, on Friday night the same company will turn its talents to Pinero's latest play, "The Thunderbolt," and present twentieth century life in England.

Mr. Ames told "The World" of the care that had been taken in setting the plays, and the realistic character of the scenery; the choice of music and costumes; the enlargement of the regular stage staff, so that everything goes without a hitch; the special conductor for the orchestra, and the company of 70 or 80 people who make the performances complete.

The New Theatre plays a repertoire of ten pieces who on tour, but only the two will be given in Toronto on this occasion. Of course, this is by no means the limit of the resources of the company, and it is expected that in due time the New Theatre will become as famous and as authoritative for the English-speaking stage as the Theatre Francaise for the French.

The cast to-night of "The Merry Wives of Windsor" includes Miss Edith Wynne Mathison and Miss Rose Cochran, as Mistress Ford and Mistress Page; Miss Leah Bateman-Hunter, as Sweet Anne Page; Miss Helen Reimer, as Mrs. Quickly; Mr. Ben Johnson, as Shallow; Frank Gillmore, as Fenton; A. E. Anson and Lee Baker, as Ford and Page; Albert Brunsing, as Sir Hugh Evans; E. W. Morrison, as Dr. Caius; and John Sutherland, Pedro de Cordoba and Stewart Baird, as Bardolph, Pistol and Nym.

**THE CHRISTMAS GLOBE**  
Fourteenth Year in Present Form.  
The product of Canadian brains and brawn.  
What Lord Roberts said about last year's number:  
"It is a remarkable production, and am pleased to know that it is the work of Canadians."

**The Historical Pictures.**  
Since starting to publish these historical pictures in connection with The Christmas Globe there have been so many requests for one of Governor Simcoe, the first Governor of Upper Canada—the man who did things—that it was decided to produce it this year, although considerably out of the natural sequence of events. The artist has been most happy in the selection of the incident illustrated, and it tells a more graphic story of the time than could be described with the pen. Apart from its historical value, the picture will be appreciated as a work of art, and will be 22 x 16 inches in size, similar to those of Wolfe, Brock, Cartier and Champlain.

This is only one of three supplementary plates. There will be eight full pages in color, as well as fifty-two pages of pictures and stories.

On sale about December 1st. Price fifty cents each, from your dealer, or sixty cents if mailed direct from The Globe Office, Toronto.

Ask your newsdealer about it.

**CANADA'S NATIONAL ANNUAL**

**Master's Chambers.**  
Before Cartwright, K.C. Master. Constructing and Paving Co. v. Scott. E. W. Boyd for plaintiff. Motion by plaintiff for an order amending writ before service. Order made.

**Williams v. Galt.** Before Cartwright, K.C. Williams v. Galt. Motion by plaintiff for a final order of foreclosure. Order made.

**Clarkson v. Linden.** T. Hishop for defendant. W. A. Lamport for plaintiff. Motion by defendants for an order vacating certificate of its pending description. Reserved.

**Grummett v. Johnston.** Perrie for defendant. Fraser (Mills & Co.) for plaintiff. Motion by defendant to set aside notice of trial and to strike the end of the list of non-jury sittings at South St. Marie. Order made as asked. Costs to defendant in any event.

**Single Court.**  
Before Riddell, J.  
Smith v. Smith. Motion by plaintiff. F. W. Harcourt, K.C. for infants, contra. A motion by plaintiff under C.R. 98 for an order declaring that the devise of the southwest quarter of Lot 1, Con. 12, Lobo, under the will of the late Leonard Smith, was intended to be a devise of the southeasterly half of the northwesterly half of Lot 1, Con. 12, Lobo, otherwise known as the northwest quarter of said lot.

**Judgment:** In a former somewhat similar case I came to the conclusion that the law in Ontario is that if a testator had used language sufficient to pass the disputed land, if the words description were deleted, the devise was effective, and the Hishop description falsa demonstratio. Here the testator has used such words in the beginning of the will. Unless the presence of the residuary clause (or clauses) makes a difference, the devise is good. Whatever interpretation be put upon the last clause, I think that the devise is not an "incapable of taking effect," for reasons which are set out in re Clement, and I am unable upon principle to distinguish the case of a devise and one which is not.

I am, therefore, of opinion that the devise is good to pass the land actually owned by the testator. In all parties out of the land devised, they will be declared a charge thereon.

**Gratuitous.** Henderson v. P. Aylesworth for plaintiff. Motion by plaintiff for judgment in default of defence. Judgment for plaintiff, with costs, and granting a perpetual injunction restraining defendant from obstructing the highway in the pleadings mentioned, the plaintiff's abandoning claim for damages.

**Trials.**  
Before Britton, J.  
Stillwell v. Township of Houghton. C. Miller and J. Carruthers (Houghton) for plaintiff. Sinclair (Houghton) for defendant. An action for damages for injuries sustained by plaintiff by reason of the use of a highway which plaintiff was riding on 12th January, 1910, upon which, throwing him off, which, plaintiff alleges, was caused by the highway being improperly constructed, or in need of repair, and in a dangerous condition.

**Judgment:** Finding, as I do, that the accident happened on the traveled road, there is no evidence of any want of repair to cause the accident. It cannot be said that the breakwater or ridge was a dangerous obstruction in the highway, I deal with the case upon the finding I am obliged to make upon the evidence, and find that the plaintiff does not establish the case as one of liability on the part of the defendants.

I have considered the question of plaintiff's damages, and find that the plaintiff is entitled, he should recover \$200 in all. There is no evidence that plaintiff has sustained what might be termed permanent injury. A. am of opinion that the defendants are not liable, the action must be dismissed, and with costs. Thirty days' stay.

**Court of Appeal.**  
Before Moss, C.J.O., Garrow, J.A., MacLaren, J.A., Magee, J.A.  
Toms v. Toronto Railway Co.—D. L. McCarthy, K.C., for defendants. C. A. Masten, K.C., and M. C. Cameron for plaintiff. An appeal by defendants from judgment of Falcenberg, C.J., at trial on March 16, 1910, awarding plaintiff \$1500. This was an action by plaintiff, a common carrier, to recover damages for injuries to him while a passenger on defendants' car on Front street, Toronto, caused by a collision between the car and a street car of the C. T. Railway, alleged to be by the joint negligence of both defendants.

**Judgment:** Appeal dismissed, with costs. Before Moss, C.J.O., Garrow, J.A., MacLaren, J.A., Meredith, J.A., Magee, J.A. Strati v. Toronto Construction Co.—Grayson Smith for defendants. H. S. Grayson for plaintiff. An appeal by defendants from an order of a divisional court allowing an appeal of the plaintiff from an order of the trial judge, J. J. C. on terms of payment by plaintiff to defendants of certain costs within ten days.

**Judgment:** Appeal dismissed, with costs. Meredith, J.A., dissenting. The King v. Monteth Trapnell—M. J. O'Reilly, K.C., for defendant. J. R. Cassin, K.C., for the crown. A case reserved by His Honor Judge Monck, sitting as judge of the county judges' criminal court, on 6th September, 1910, under Sec. 104 of the Criminal Code. The defendant was convicted on a charge of assisting Mohr to escape from the Hamilton Asylum for the Insane.

**Judgment:** The court being of opinion that the offence charged and proved falls within the provisions of Section 102 of the Criminal Code, does not think fit to make answer to the questions submitted, otherwise than as follows, viz.: 1. That the Criminal Code makes provision for one punishment of the offence. 2. That the sixth question be answered in the affirmative. 3. That the conviction be affirmed.

**A Bunch of Long Sentences.**  
LETHBRIDGE, Alta., Oct. 29.—(Special.)—In supreme court this morning Chief Justice Harvey gave Edward Blair and Clarence Walter Wilson three and five years respectively for assault and robbery. Ben Stranglingwolf, a hood Indian, two years for horse stealing; and Fred Koshman, two years for assault, causing bodily harm.
