

TRADE ADVICE BY CAPT. ROBT. DOLLAR

Help Westerners to Seek Out
Markets in the Far
East.

DIRECT RESOURCES

Dr. McCallum Says Canada
Needs Organization for
This Purpose.

Calgary, Aug. 14.—Capt. Robert Dollar, head of the Dollar Steamship Lines and original of the "Cappy" series, was one of the speakers at the Alberta industrial congress held this morning. He advised western Canada to seek trade opportunities in the Far East. "More trade was necessary," he said, explaining, "the increased taxes and the results of the war have intensified the situation. The war tax must be paid, and how can it be paid? Certainly not by us trading amongst ourselves—to use a common expression by swapping back and forth—by selling our products to other countries and receiving from them money, or by exchange of commodities, which is as good, especially if it is raw material from which we can manufacture and export the finished product and anything we can do to make all classes of the community understand this vital question will be time and money well spent."

Alberta's Coal Supply.
Dr. A. B. McCallum, chairman of the council of scientific and industrial research, said that Alberta's coal supply would only last five thousand years with the present population and two thousand years with a population of twenty millions. Canada needed an organized institution that would direct the development of her natural resources.

Eugene Coste said Alberta had the largest oil fields in the world, 1,600 miles by 300 miles wide.

D. E. Coleman, vice-president of the C.P.R., dealt with reconstruction problems.

SUCCESSFUL FLIGHT TORONTO-MONTREAL

Three Aviators Made the
Journey—No Attempt at
Speed Record.

Montreal, Aug. 14.—Three aviators landed quietly and safely last evening on the grounds of the Country Club, St. Lambert, having made the trip from Toronto. The aviators were Lieut. A. Raymond, of this city, Lieut. Wilshire and Pilot Maxwell. Following their landing the aviators were guests of the Country Club members at dinner. The three aviators started from Toronto yesterday morning about 10 o'clock. The trip was merely a pleasure cruise, with no intention of making speed records, and the aviators made three stops enroute. Their first landing was made at Cobourg. From there they flew to Morrisburg, where they stopped for a while. From that point they headed for Montreal, and, arriving over Vandœuvre, landed at Raymond's Farm, where they got a new supply of gasoline and rose into the air again for the last lap of the flight to the city. The landing was made without difficulty. The fliers made the trip in two Currier biplanes and stated that they found weather conditions excellent for the trip, although they encountered a slight mist part of the way.

GIAMAZZO REPRIEVE NOT YET FORTHCOMING

Special to The Toronto World.
Guelph, Aug. 14.—No word has yet been heard from Ottawa with reference to the petition asking for a reprieve for Jimmy Giamazzo, the man condemned to die next week. There was a rumor around the streets this morning that some interesting developments in connection with this case might be forthcoming in a day or two, but these apparently do not in any way give any ground for expecting Giamazzo's reprieve.

CHARGE DOLSHIEVSKI WITH THE BAYONET

Enemy Subjected to Heavy Shell
Fire and Then Attacked
by British.

Archangel, Aug. 14.—The successful offensive of British and Russian troops along the Dvina southeast of Tulgason, August 10, resulted in the capture of 1,600 prisoners, according to reports reaching here. It is believed that no soviet troops remain north of Katlas. The allied casualties in the fighting, it is indicated, were light.

The attack was undertaken in order to stiffen the morale of the young Russian troops as agitators recently had been busy among them. Elaborate plans were worked out and the Bolsheviks were unaware of the impending attack.

The allied troops, after marching thru the forests on both banks of the river and capturing enemy patrols, took up positions in the rear of the enemy and his flanks. A hurricane of shell fire from Russian and British batteries was the first the enemy knew of the presence of the Anglo-Russian troops. Gunboats and motor launches armed with machine guns co-operated effectively.

After the enemy had been surrounded, the British troops charged with the bayonet and many of the Bolsheviks were killed or captured and were dispersed.

NO UNFAIR PROFITS, SAY THE RETAILERS

Manitoba Merchants Assert
Commissioner McFall is
Confusing the Public.

Brandon, August 14.—At today's session of the Manitoba Retail Merchants' Association a resolution was passed in which it was declared that federal government and other investigations had shown conclusively that retail merchants as a class have not made unfair profits, but that, to the contrary, it had been revealed that enormous profits had been made by many other classes "much nearer the source of supply."

"It therefore, appears, the resolution continues, that High Cost of Living Commissioner Dr. R. G. McFall in making his charges, is diverting and confusing in the minds of the consuming public the real causes."

ROBERTSON BELIEVES O. B. U. IS DOOMED

Calgary, Alta., Aug. 14.—Greater optimism prevails among mining circles than for some time. Senator Giddens D. Robertson, minister of labor, who gathered with the mine operators here for a conference, and the international representatives all are confident that the O. B. U. will die out as conditions return to the old state soon. Senator Robertson says the O. B. U. is bound to die as it died in the Winnipeg strike.

Christophers, the head of the O. B. U., who was ousted from Wayne camp Sunday, denies he repudiated the O. B. U. He says when it is declared illegal he will quit it and not till then.

NEED OF FARMERS IS NEW VIEWPOINT

Dr. Creelman Gives Opinion
in Speech to Lincoln County
Agriculturists.

St. Catharines, Ont., Aug. 14.—Two thousand Lincoln County farmers, picnicking at a "Y" camp and experimental farm yesterday, heard Dr. Creelman, president of the Ontario Agricultural College, point out several things that the rural problem is not.

"It is not deterioration of country life nor rural degeneration, nor lack of information, nor lack of education, nor lack of production, nor is it rural depopulation," Dr. Creelman stated that only 15 per cent of urban increase in population came directly from the country, 85 per cent being accounted for by emigration and 30 per cent, by natural increase.

To Attract Enthusiastic.
From Dr. Creelman's point of view the rural problem is "the securing of a new viewpoint and new ideas that will attract the enthusiastic. Farmers have not learned to trade enough. The need of natural leaders in rural communities is urged. Any twenty men in any community by co-operation can do anything for the good of the community if what they wish to do is right and for the good of the community."

Dr. Creelman looked forward to the time when there would be township boards of trustees to run all schools in the township.

Ottawa, Aug. 14.—Hon. C. C. Ballantyne, minister of marine and fisheries, is indisposed and is at present undergoing treatment in the Royal Victoria Hospital at Montreal. The minister's illness is not regarded as serious, but it will probably cause a brief postponement of his plan to visit the Pacific coast for the purpose of dealing with the problem of deep water terminals at Vancouver. Mr. Ballantyne expected to arrive at Vancouver about September 1, but the count of his illness he may not reach the coast until about the end of the first week in September.

GENERALS RESPONSIBLE FOR ITALIAN DISASTER

Rome, Aug. 14.—General Cadorna, the Italian commander-in-chief, in October, 1917, and Generals Porro, Capello and Cavaciocchi were mainly responsible for the disaster to the Italian armies at Caporetto which resulted in the retreat to the Piave, according to the official report of the committee of inquiry published today. The defeat of the Italians when the Austro-Germans broke thru their line is attributed by the commission chiefly to military causes, including depression of morale and an entire lack of reserves.

The report of the commission admits that socialist and clerical propaganda played its part in lessening the morale of the Italian soldiers.

WEEVILS MADE LIVES OF CREW A NIGHTMARE

New York, Aug. 14.—Federal authorities were asked to take charge of the four-masted American schooner Augustus G. Hilton, which arrived here today from Buenos Aires with a cargo of grain and a pest of weevils. While the department of agriculture inspectors are riding the boat of the bugs, the crew will seek medical treatment to help them recover from the effects of the insects' attacks.

Captain Orlando C. Sawyer said the weevils made the two months' voyage a nightmare and gave his schooner a bad start on its maiden trip. A few of the bugs appeared when the Gulf stream was reached and they multiplied with amazing rapidity. While the members of the crew solemnly vowed that sometimes it was necessary to rig up a hose and blow a passageway thru them so the ship could be worked.

BANDITS TAKE \$2000 AT WINNIPEG BEACH

Winnipeg, Aug. 14.—Masked bandits, armed with revolvers, held up the cashier of Winnipeg Beach Attractions Wednesday night, taking a bag containing about \$2,000. Two suspects were arrested today by C. P. R. police. Most of the money was recovered.

While on his way to deposit the money for the night two men jumped from behind a building and demanded the bag from the cashier. Before he could answer them one of the men grabbed it. Both then disappeared into the darkness.

Members of the C. P. R. police early today found the bag at the rear of one of the stores in the village. It had been slashed open. The most remarkable part, however, was that a large part of the money still remained in it.
