"The mills of the gods grind slowly but they grind exceeding small"—for Spain's record is written in blood. Not only has she stood forth as the very impediment of all that is tranquil in government, but cruel and treacherous in warfare, bigoted and fanatical in religion. It was see that grim Moloch upon whose altar thousands and thousands of our ancestors were burned to death as heretics, unbelievers and atheists.

Some Compensations.

"But, besides carrying out God's eternal law of retribution, which never falls, this dismai conflict that is being waged in the world to-day is not without its compensations for our co-religionists on the other side of the ine. The old He that the Jews are not patriots has been nailed on the head. In response to the call of President McKinley for volunteers, our brethren have enlisted in overwhelming numbers; in fact,

proving the utter untruth of the estimate usually formed of their character and of clearing themselves from the evil imputations of disloyaity and cowardice.

"In some states whole regiments composed entirely of Jews have been formed, and from Ohlo comes the report that the Jews there have contributed money for the purpose of purchasing a man-of-war to present to the Government.

"It must not, however, be understood that their zeal and enthusiasm in this question is inspired by a petty spirit of revenge, by a desire to pay off old scorestoge even with Spaln for the indignities she has heaped upon our ancestors. They meet Spain, not as Spain, but as an enemy to humanity, and violator of the higher law of morality, which is engraven upon the lablets of eternity."

But any one conversant with public opinion in Toronto'at least, must be aware that fully one-half of the people, if not actually in sympathy with Spain, condemn the course of the United States, and would rejoice to see her cowardly and piratical attack upon a much weaker power meet with a crushing defeat. No one conversant with the course of events in the United States for the last few years can regard their loud-mouthed professions of sympathy for the oppressed Cubans as anything but the sheerest hypocrisy and the shallow pretext for annexing a new field for exploitation by the greedy and rapacious millionaires, who pull the American plutocracy. Canadian sympathy With the U.S.

Editor World: I notice that at the session of the conference of the Methodist Episcopal Church at Baltimore, Rev. W. S. Griffin, a Canadian delegate, made the absurd and untrue statement that public sentiment in Canada was unanimously in Tavor of the United States, as against Spain. I quote the reverend gentleman's own words: "The universal feeling of sympathy for the United States in Canada is remarkable. Even the country press and the people of the small towns are expressing the same feeling. It is unanimous and hearty." It is only charitable to suppose that Mr. Griffin spoke from a limited local experience in some neighborhood where the real influences, that have brought about this wholly unjustifiable and aggressive war are professional training address on leprosy.

Its reclining chair cars are literally palaces on wheels, splendidly upholstered and decorated with the costliest woods. The chairs, which are free to passengers, can, by the touch of a spring be placed in any position desired, from a comfortable parlor chair through the various degrees of lounging to a perfect coach. Many prefer these cars to sleeping cars for night journeys, and for day trips they are the most comfortable and convenient cars that can be devised.
