T. EATON CO.

THE TORONTO WORLD. ONE CENT MORNING PAPER. No. 83 YONGE-STREET, Toronto.

TELEPHONES: Hamilton Office, 70 King-street east (next estoffice). Telephone 964. H. E. Sayers,

Agent. London, England Office, F. W. Large,

A WELL-MERITED HONOR. Chancellor Boyd is well entitled to the honor which Her Majesty has just conferred on him. Canada's new knight is an ideal judge. His decisions are uniformly sound and are rarely questioned. No Ontario judge ever enjoyed in a greater degree that Sir John Boyd the confidence of his associates on the bench and of the public. With men like Chancellor Boyd at Osgoode Hall, the Canadian judiciars will never degenerate or fail to command the respect and confidence of the people. On behalf of the public, The World congratulates Sir John on the occasion of his

receiving the honor of knighthood and wishes he may be long spared to adorn the position he occupies as Chancellor of Ontario.

THE TRANSPORTATION PROBLEM.
Although Canada may not have the required tonnage to handle the whole of the grain traffic from the Northwest, the Board of Trade is quite right in insisting that the request that United States vessels be allowed to participate in it to a larger extent than they do at present should not be granted. The demand which has been made on the Government is that United States vessels may be allowed temporarily, at least, to carry grain intended for export from Fort William to Canadian lake and river ports. Instead of temporizing

In the County of Middlesex.

The Minister of Justice that the Conference endorses the indeterminate sentence and parole system, and requests that they be applied to the whole of the binding. The Home Finding System, "Improvement of Family Life Among the Poor," "The Day Nursery," "Public Play (Grounds," "Orphanages and Reformatories" and other topics. A strong plea was made for the establishment of a Home of Incurables in Toronto for children.

Work in the Northwest.

Dr. Blakeney of Winfifpeg gave instances of the successful working of the Children's Aid Society in that city. He advised that trunts be handed over to such a society rather than to the police. The doctor is a strong advocate of foster homes. There are always many families wishful to adopt reglected children. This system gives the children are always many families wishful to adopt reglected children. This system gives the children are always many families wishful to adopt reglected children. This system gives the children are always many families wishful to adopt reglected children. This system gives the children are always many families wishful to adopt reglected children. This system gives the children are always many families wishful to adopt reglected children. This system gives the children are always many family the charge of the Ministron. Interesting addresses were give and 18 inch at and river ports. Instead of temporizing with the question in any such fashion, the and 18 inch at \$3.25.

Grass Hooks, Canadian hake and river ports. Instead of temporizing with the question in any such fashion, the Government should adopt a policy looking to the concentration of the whole Canadian rallways. The greatest handleap to the enlargement of our fleet of inland vessels is the lack of return cargoes. The securing of profitable return cargoes. The securing of profitable return cargoes is possible if the Government will force the traffic along the route where freight is to be had. No transportation scheme will fill the bill unless it recognizes this city as a centre for receiving and distributing freight and for furnishing business to the vessels engaged on the route. Toronto is the shipping centre of Middlesex.

Sheriff Cameron described the child-saving work in London. Homes had been found for 50 children, and there is a demand for children, and there is a demand for children, whom the sheriff thought should be detained in extension of the whole Canadian reliways. The greatest handleap to the enlargement of our fleet of inland vessels is the lack of return cargoes. The securing of profitable return cargoes. The securing of profitable taken charge of by the Children's Aid Society. The sheriff declared himself as to tally opposed to child-imprisonment. Where parental control falls the task should be detained to the society whose operations were being discussed. The child is not only temporarily provided for, but its future is carefully considered. From the experience of ive years he was convinced that the way to put down vagrancy was to fittingly educate the children.

Manual Training. business to the vessels engaged on the route. Toronto is the shipping centre of Ontario. If we had a fleet of vessels suitable for the enlarged canais a large business would be done by them between Toronto and the east, including the Maritime Provinces—both eastward and westward. A big trade is possible in the interchange of the agricultural products of Ontario for the coal, fish and other products of the Maritime Provinces. Nova Scotia coal is used almost exclusively in Montreal. The vessels which bring the coal to Montreal might

plated top, charcal plated enlarged St. Lawrence system. The memorandum puts it as follows:

It is desirable to create more British bottoms upon the lakes. How best can this be accomplished? As has been pointed out, the Canadian vessels presently engaged in the grain traftic get but little return cargo, having the disadvantage as compared with their rivals of touching at no large shipping centres. The only opportunity which can be afforded for whatever return cargo there may be is to create a line of grain vessels to participate in this traffic between the cities of Montreal and Toronto, there being a very considerable volume of traffic westward to Toronto. Vessels and barges of large capacity will be able to operate without transshipment as soon as the St. Lawrence canals are completed. A line of rallway owned and controlled by the Government, built across the portage to Georgian Bay, which is the natural receptacie of the grain of the United States as well as Western Canada, the ports of which are able to accommodate the largest vessels which traverse the upper lakes, but which cannot get into Lake Ontarlo, thus making a short and speedy route to Chicago, Duluth and Fort William, with opportunities for return cargo, especially of manufactured products for the Canadian Northwest is proposed. By this project, centres of population, including points as far east as the Maritime Provinces, Quebec, Montreal and Toronto, become interested in the common aim to build up our lake marine and create an interprovincial marine trade.

CANADA'S NATURAL MARKET. We are still a long way behind our capa-city for producing butter for the English market, but we are making fairly good headway in this direction. During the year ending April 30 last we shipped 366,-638 packages of butter to Great Britain, as against 265,114 packages for the year previous, showing an increase of 101,524 packages, or over 38 per cent. This year we have started still better, as our exports from May 1 have increased more than 100 per cent. over those of a year ago. The possibilities of our export butter

imports annually \$80,000,000 worth of butter, of which Canada contributes only about one-twentieth. During the past year the little Kingdom of Denmark supplied tain. The resources of this country for the production of butter are unsurpassed 3.90 by any other country in the world, not even by Denmark. What a boom it would be for Canada if it occupied the position held by Denmark in the butter industry! There is no reason in the world why our exports should not increase steadily right along until we capture the bigger half of the whole trade. What reason have we for seeking the unattainable reciprocity with the United States, when such possibilities are open to us in the markets of Great

About 150 students of the Normal School went up to Guelph yesterday morning, to visit the Agricultural College, by a special C.P.R. train, which left the depot at 8.35 o'clock.

Busy Day With Social Reformers in the Normal School Yesterday.

THE CHARITIES CONFERENCE ENDED.

forms Recommended-Offi-

The Canadian Conference of Charities concluded its sessions last night and 2dplace. Hon. Charles Drury of Barrie was elected president. Representation will be made to the Minister of Justice that the receiving the honor of knighthood and Conference endorses the indeterminate sen

bright, happy cheerfulness of disposition which only complete health can insure.

A woman with a bright eye, clear complexion, mantling color in the cheeks and buoyant elastic s'ep and manner has a natural attractiveness that no artificial natural attractiveness that no artificial

natural attractiveness that no artificial agency can counterfeit.

A woman who is afflicted with the mortifying misfortune of a dull, sallow, pimply complexion or that listless movement and attitude which provokes only disgust and revulsion in the opposite sex, ought to avail herself of the purifying, invigorating power of Dr. Pierce's Golden Medical Discovery, which makes a strong healthy stomach which makes a strong, healthy stomach and digestive organism; purifies the blood and imparts a natural stimulus to the exand digestive organism; purines the blood and imparts a natural stimulus to the excretory functions; insures healthy weight, clear skin, bright eyes and the animated manner and bearing of perfect health.

A lady living in West Virginia, Miss Anna Callow, of Kyger, Roane Co. writes: "It is with pleasure I write you after using a few bottles of Dr. Pierce's 'Favorite Prescription' and 'Golden Medical Discovery,' and I think them valuable medicines for female troubles and weaknesses. I could hardly go about my work I had such inward weakness and constant misery in the womb. It worried me so that I would give out in walking a short distance. I had a bad cough and my lungs hurt me all the time. I got very thin, my complexion was bad, and my eyes would get so heavy in the evening they seemed stiff in the lids. I could hardly move them. Many persons were alarmed about me. I looked so bad and had such a cough; they were afraid I would go into consumption. I felt so badly every day that I had no life about me. I used only five bottles in all. I shall ever speak in praise of your grand medicines. They are blessings to suffering females."

Another good thing to have in the house is a vial of Dr. Pierce's Pleasant Pellet. They cure biliousness and constipation and never gripe.

hope that these and other ladies of Toronto would set to work and have other creches opened in other parts of the city.

Wholesale Imposition.

Mr. Robertson expressed his indignation at the way in which hospitals and public institutions are imposed on by those who are able to pay for the benefits received. At the Sick Children's Hospital the board had been compelled to adopt special certificates before supplying medicines. This was necessary, for the Hospital looks after 6000 a year. From personal investigation the speaker thought the imposition was nearly ten per cent. Some drastic measure should be adopted to put a stop to this wholesale imposition on public institutions. Concluding an admirable address, Mr. Robertson spoke highly of the work of the Children's Ald Society.

ladies of the Nursing at-Home Mission reveal a very pressing need for some place of shelter and care for the unfortunate and helpless little ones. At present there is absolutely no place open to them. It is impossible for the Hospital for Sick Children to keep them after they have definitely been pronounced incurable, although they are often kept on month after month in the hope of some suitable home being found for them. Many of them have no homes and others go to places not worthy of the name.

Influential Committee.

A committee of twenty-eight ladies, with an advisory board of five gentlemen, has been formed to bring the subect before the public. The advisory board consists of Chancellor Boyd, C. S. Gzowski, W. D. Matthews, I. H. Cameron, M.D., and Judge Osler. The following are on the committee: Mrs, Gzowski, Mrs. H. Hough, Mrs. Richard Donald, Miss Maria Buchan, Miss Thompson and Mesdames Heron, Walter Cassels, W. S. Lee, W. D. Matthews, L. Baldwin, Russell Baldwin, Merritt, Williamson, J. I. Davidson, R. Kilgour, Snyder, Price, Allen, Nelson, F. J. Stewart.

Nelson, F. J. Stewart.

Nurses' Home.

Mr. John Ross Robertson, M.P., heartily endorsed the proposal, and incidentally added that there was great need for a nurses' home in connection with the Sick Children's Hospital. This it was intended to build, and thereby 20 more rooms would be available for the purpose of the Victoria Hospital.

tal.
The Conference, by hearty applause, endcreed both projects.

To the Minister of Justice. To the Minister of Justice.

Mr. Chamberlain, Inspector of Prisons moved the adoption of the following recommendation of the Executive Committee:

That in the opinion of this Conference the indeterminate sentence and parele system offer many advantages of an economic and humane character that the definite sentence does not afford, and is of great assistance to penologists in dealing intelligently with the delinquent class; therefore, we recommend to the Minister of Justice the adoption of the indeterminate sentence and parole sentence in Canadian prisons. sons. Rev. Mr. Mackintosh of Barrie seconded the motion, which was unanimously adopt

Blection of Officers.

Mr. John Keane of Ottawa rend the report of the Executive Committee, recommending that the following be the officers of the Conference for the ensuing year: President—Hon. Charles Drury, Barrie. Vice-Presidents—Dr. W. L. Herriman, Lindsay; Judge H. S. Macdonald, Brockville; J. J. Kelso, Toronto.

Treasurer—James Massie.

Secretary—Dr. A. M. Rosebrugh.

Assistant Secretary—John Keane, Ottawa.

Executive Committee—Sheriff Cameron, London; Rev. James Jedlard, Owen Sound; Dr. J. T. Gilmour, Toronto; J. J. Murphy, Toronto; Mrs. Tilley, London: Mrs. E. H. Bronson, Ottawa; Mrs. Willoughby Cummings, Toronto; Mrs. Forsyth Grant, Toronto; Mrs. J. M. Gibson, Hamilton.

Saving of Infant Life.

Saving of Infant Life.

Mrs. Boultbee gave an impressive address on the working of the Maternity bill and that for the protection of infant life. No thing but good was said of the operation of these Acts. In describing the need there was for this legislation, Mrs. Boultbee told a heartrending tale of the large amount of illegifimacy and the ease with which the babes were boarded out and to a large extent murdered. The provisions of these measures were explained. It was much easier to trace these illegitimate infantsince the passing of these Acts. Still the death rate in maternity homes was very excessive. It was to be regretted that only Toronto had adopted the Maternity Act seeing that so many of the unmarried mothers came from the country. Sympathy for the mother was greater than for the off spring of unmarried women, and this led to a great sacrifice of life, which Mrs. Bouit-

bee startled the audience by plainly, yet with emphasis, declaring to be "murder." The Church and Charity.

Rev. Morgan Wood gave an address under this heading. It really was a eulogy of what is known as the institutional or seven days' church. He justified the church institutions being rivals of the saloon. Better was it to play billiards in a church parlor than give the game over to the devil in the saloon. Until the Church of God does something to make the forces of evil tremble it is not a potential force. It was no good attacking evils unless the blows were dealt at the roots. The church was not doing her duty in respect to social problems, and those that the Conference had been discussing. He wished, the Conference success and longed that the Church might be a co-operator in these reforms.

Preachers' Endorsation.

Preachers' Endorsation. Rev. Dr. Thomas agreed that the church is very remiss, both pulpit and pew, in deal-ing with the questions which the Confer-

ence considers.

Rev. Dr. Withrow agreed that the clurches were not making the most of their opportunities. Why should they not seven days a week preach the gospel of unselfish-

days a week preach the gospel of the church had a great work before her to prevent the lapsed and fallen sinking lower. He trusted this Conference might be useful in its many-sided work.

Judge McDonald considered the Salvation Army was doing the largest and best work for the lapsed masses in England, and, probably, also in Canada. [Applause.]

Custodial Care of Epilepties. Custodial Care of Epilepties.

Dr. A. MacKinnon of Guelph gave an address on this topic. Neither private charity nor the State, he said, is doing anything for epileptics in Ontario. There is urgent need for reform in this respect, and the doctor argued that the State should care for the epileptic. There are probably 2000-epileptics in the province, one-third of whom have neither homes nor friends. He trusted the Conference would urge the matter before the Ontario Legislature.

The usual votes of thanks were passed.
