PARSONS CALLS ON HAY. Asks the United States Government to Assist in Holding Out Against Foreign Influences.

IN PROCURING THE CONCESSIONS. To Build a Railroad From Canton to Hankow in China—McKintley to Look Into It.

Washington, July 14.—Secretary Hay received a call this morning from W. Barton Parsons, the engineer representing the American railway concessionaires controlling the projected railroad from Canton to Hankow, China. Mr. Parsons explained at some length to the Secretary the details of the concessions which have been granted by the Chinese Government in its concessionary treaty for the construction of the railway, and he pointed out that the Government is not only unwilling to assist in holding out against foreign influences, but is actually assisting them.

Secretary Hay promised to lay the matter before the President. The first step to be taken is to secure a statement from the Chinese Government as to the exact nature of the concessions. Mr. Parsons stated that the Chinese Government has already been doing this, and that the present condition of the railway is such as to justify the United States in its refusal to grant the concession.
