

COMMERCIALISM IS THE CURSE OF UNITED STATES

And Has Debauched Country, Says W. J. Bryan, Who Appeals for Ideals of Jefferson.

Kansas City, April 21.—William J. Bryan, speaking this morning to the toast "Democracy" at a banquet given by the Democratic Jackson County Club, and the newspaper men of Missouri, complimentary to William J. Stone, at which the addresses did not begin until long after midnight, bitterly arraigned Grover Cleveland and his supporters, who are making the plea for harmony among Democrats.

Hot Words for Cleveland.
"We have had enough of Clevelandism in the Democratic party," he said. "We had four years of Cleveland, and after his administration was over, we found ourselves weaker than we had ever been before, because we had been betrayed." Cleveland had the best opportunity to redeem the Democratic party ever offered to any man since the time of Andrew Jackson, but instead of being true to his party he disgraced himself.

Commercialism is the curse of the country today, and it has debauched the country. The foreigner has come to regard the American simply as a money-maker, and we give cause for the belief that we put nothing beyond wealth, and that money is ruling the country with an iron hand. The manhood and womanhood of the United States are more important than money. Jefferson set a higher ideal for us than that of the worship of money, and nothing but the ideals of Jefferson will ever lift us out of the slough of despair.

Revolution Not a Remedy.
"Three remedies for existing evils have been suggested to me. First, an appeal to the conscience of the people; second, by legislation, and third, by revolution; but, revolution is not to be thought of. Revolution is not a remedy in a country where people can vote. People can vote themselves free of this country, and if they could not do that they could not fight themselves free."

ANGELIC WOMAN'S AUXILIARY.

The Bishop of Niagara officiated at the holy communion which preceded the opening of the Anglican Women's Auxiliary annual meeting at St. James' Schoolhouse, and afterwards addressed the 800 communicants that were present.

Mrs. Forsythe Grant gave greeting to the delegates. Mrs. Grant, who had been elected secretary of the auxiliary, replied in terms suitable to the occasion. The reports of the corresponding secretary-treasurer were very encouraging, as were the reports of the Literary, Dorcas, Extra Cent and various other committees.

Nominations for the office of president, left open by the death of Mrs. Williamson, were called for, and Miss Tilley, let vice-president, received a majority of votes over Mrs. Willoughby Cummings, who asked that it might be considered unanimous.

The session will be continued this morning.

BONILLA HAD WALK-OUT.

New Orleans, La., April 21.—General Bonilla is now President of Honduras; he is in power in Tegucigalpa, and this, with the news that quiet now prevails in the Central American Republic, is the information received from Honduras. Bonilla saved the entire Republic, and finally captured the public, is the information received from Honduras. Bonilla saved the entire Republic, and finally captured the public, is the information received from Honduras.

More Fighting in Macedonia.

Salonica, European Turkey, April 21.—A band of about 500 insurgents, partly in Bulgarian uniform, was defeated by a Turkish force, near Radovitz, April 19. Thirty insurgents and nine Turks were killed. The Komitchev Minor, division of Redits, numbering 16 battalions, has been called out for active service in Macedonia and Albania. The new judges, appointed under the reform scheme of the powers, are being terrorized by the Albanians. Two of the judges were shot with revolvers by the streets of Scutari. One was killed.

ALONG THE WATER FRONT.

Plugs on all the shipping in the harbor at half-mast, a tribute to the memory of Ontario's Grand Old Man. Repairs to the ferry wharf at Yonge street have been completed as far as the dock is concerned. The laborers have been transferred to Golden's Wharf further out. There is expected to be a great increase of traffic on this wharf this summer and it is being prepared after a fashion for the additional business it will have to bear.

Concrete the Material.

Concrete makes the ideal material for a wharf, but the expense is said to be too great for a city which is not so rich as some of the cities of the world. There are one or two docks along the whole waterfront that are carried out on piles, and these are in permanent positions. For the last part of the winter, from thousands of feet of concrete in the work has been built as the ideal material for a wharf. It would, it is thought, be a more favorable position, and it is thought, for the cost of the concrete is not so great as the cost of the wharf.

Inadequate Safeguards.

Now that the summer passenger traffic along the wharves is again commencing, the question of protection from drowning again crops up. It is true that at various points along the waterfront there are life preservers, ropes and life-lines. There is no doubt, however, from the Don to the Harbor, where business is done, that where there are life preservers, ropes and life-lines, there are also people who are not so careful as they should be. There is no doubt, however, from the Don to the Harbor, where business is done, that where there are life preservers, ropes and life-lines, there are also people who are not so careful as they should be.

Record-Breaking Repair Job.

After one of the quickest jobs of ship-repairing ever done in the harbor, the steamer Chesapeake left dock Tuesday and went to work for Buffalo.

ALWAYS THE SAME

GOOD, WHOLESOME, WELL MADE, RELIABLE

LORD TERRY'S CIGAR

STEADILY INCREASES IN DEMAND.

Made and Guaranteed by

S. DAVIS & SONS.

The Chesapeake was badly wrecked by a collision with the tugboat "Huron" two weeks ago, and it was thought repairs would consume six weeks.

The first of the "student strike-breakers" to return to Chicago reached the university campus Thursday morning. S. H. Wigham, variety half-back, shot-putter and quarter-mile runner, was the athlete who came home, but he was unable to give any information as to the whereabouts of the other university men who enlisted as strikers on the White Star grain boats.

"I tell you it's no club for a man with experience in the work to strike on a steamer in six-hour shifts," said W. H. Hiron in recounting his experiences. "My hands were tough and I got no sleep, but I was able to do the work. I was always glad of the chance when I was of watch to crawl into bunk and rest my back and shoulder muscles."

Superintendent W. C. Barr of the Algoma Central Steamship Line, has completed the roster of officers for the ships of the fleet. Passenger steamer "Oswego" is captained by J. Cole; first mate, James Woolner; engineer, George Sylvester; purser, J. MacDonald. Passenger steamer "Munich" is captained by J. Cole; first mate, James Woolner; engineer, George Sylvester; purser, J. MacDonald.

Last week it is believed a sympathizer with the striking stevedores poured kerosene into the hold of the vessel. The vessel had half a dozen of Lake Erie was in trouble, but Detroit was reached safely. The repairs were made and it was believed the journey to Chicago would be finished without further trouble. Half way between Milwaukee and Chicago it was discovered that the engines were again running hard. The vessel's speed was decreased and it was constantly poured on the bearings, but on Saturday it was again running hard. The repairs were made and it was believed the journey to Chicago would be finished without further trouble.

LIEUT.-COL. JOHN I. DAVIDSON, President The Davidson & Hay, Limited, Director The Union Trust Company.

W. J. HAMBLY, ESQ., President The Canadian Savings Loan and Building Association.

JOHN ARBUTHNOT, ESQ., Mayor of the City of Winnipeg.

HON. MR. JUSTICE PRENDERGAST, Judge Supreme Court Northwest Territories.

D. McCREGG, ESQ., Manager The Canadian Bank of Commerce, Galt, Ont.

SECRETARY—JAMES TURNER SCOTT, Vice-President Canadian Savings Loan and Building Association.

EASTERN BANKERS—THE MERCHANTS' BANK OF CANADA.

WESTERN BANKERS—THE UNION BANK OF CANADA.

GENERAL SOLICITORS—MESSRS. SCOTT & SCOTT, Toronto.

WESTERN SOLICITOR—J. T. HUGGARD, ESQ., Winnipeg.

TRUSTEES—THE UNION TRUST COMPANY.

PROSPECTUS.

This Corporation has been formed for the purpose of dealing in lands in Manitoba and the Northwest Territories of Canada.

Up to a few months ago practically the whole profit from dealing in the lands in the great western portion of our country had been reaped by shrewd American investors, who realized the immense possibilities and the certain future of Western Canada, before we Canadians realized the immense heritage which lay within the boundaries of our own country. In the last few months of the year 1902, however, the promoters of this Corporation, having, through the different financial institutions with which they are connected, been obliged to make a careful study of the western situation, became so thoroughly satisfied of the certain future of the Great West, and of the practically assured profit from an investment in western lands, that they decided to form a company to deal in land in the Canadian West. With that end in view, a block of something over 125,000 acres was secured in the Big Quill Plains, in the District of Saskatchewan, and a company known as the Eastern and Western Land Corporation, Limited, was formed for the purpose of acquiring and handling this block. The stock of the Eastern and Western Land Corporation, Limited, was placed upon the market, and offered to the public for subscription in January of the present year, and so prompt was the response that within one month it was necessary to close the stock books, and then the applications in excess of the purchase price, that the placing of the shareholding's standpoint, the best part remains to be told. Before the sales of stock were stopped arrangements had been made with a large American land company for the sale of the whole of the Company's lands, at a price so largely in excess of the purchase price, that the placing of the shareholding's standpoint, the best part remains to be told. Before the sales of stock were stopped arrangements had been made with a large American land company for the sale of the whole of the Company's lands, at a price so largely in excess of the purchase price, that the placing of the shareholding's standpoint, the best part remains to be told.

At the time the Eastern and Western Land Corporation, Limited, were dealing with the Quill Plains lands, the Directors had in view several other available blocks of land, and were having the same carefully examined, but waited until the result of the one operation proved to the Canadian public the safety and profit of an investment of this kind. This has now been abundantly shown by the success of the Eastern and Western Land Corporation, Limited, and we have, therefore, no hesitation in placing before the public the stock of the Ontario and Saskatchewan Land Corporation, Limited.

It is only within the last year or two that Canadians have come to realize that Canada's future lies in a great measure in the West, a country immeasurably larger than the East, and capable of supporting in comfort millions of people. Few in Eastern Canada realize the great progress this Western country is now making, and that before many years the West will surpass the East in population, in commerce, in industry, and in all the things that make life worth living. The Canadian people are investing immense sums in land and holding for the rise which they know is sure to come. Lands in the West are increasing rapidly in value. Investments in them now are bound to realize handsome profits. The Canadian people are investing immense sums in land and holding for the rise which they know is sure to come. has restored health and strength to thousands of weak and debilitated men. If used as I direct it is a positive cure and cannot fail. It gives the vitalizing power of electricity, without burning or blistering, to every weak part, developing the full vigor of manhood. It removes all the effects of indigestion or excesses forever. I want every weak man who is not the man he should be to use one of my Belts, and when he is cured, to tell his friends of its wonderful effects. My Belt is also an absolute remedy for Nervous Debility, Backache, Rheumatism, Stomach, Liver, Kidney and Bladder troubles. It is arranged for women as well as men, and cures female weakness.

Dr. M. A. McLaughlin: Dear Sir: I believe your Belt is all you claim it to be. I am sure I derived a great deal of benefit from it. I have quit using it, for I have no more need of it. My back does not give me any trouble now. Before I used the Belt I was afraid of turning my back over to my wife, but now I have no fear of it. I am very well pleased with the Belt, and am sure I got the worth of my money. I would quickly recommend anyone suffering from a weak back to try one of your Belts. I am, Sir, very truly, Yours, J. A. McLaughlin.

I am willing to take all the chances of curing your case, and if I fail you will have the satisfaction of knowing that one of the best and strongest electric appliances in the world has failed. All you lose is your time. My confidence in my method enables me to offer any man or woman who will secure me the use of my Belt at my risk and
