

CREAM FOR CATARRH OPENS UP NOSTRILS

Tells How To Get Quick Relief from Head-Colds. It's Splendid!

In one minute your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly.

It's just fine. Don't stay stuffed-up with a cold or nasty catarrh—Relief comes so quickly—Advt.

TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or are hard of hearing or have head noises, go to your druggist and get 1 ounce of Parmit (double strength), and add to it 1/2 pint of hot water, and a little granulated sugar. Take one tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrhal Deafness or head noises should give this prescription a trial.—Advt.

OUCH! BACKACHE! RUB LUMBAGO OR STIFFNESS AWAY

Rub Pain From Back With Small Trial Bottle of Old "St. Jacob's Oil."

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacob's Oil" at any drug store, pour a little in your hand and rub it right on your aching back, and by the time you count fifty, the soreness and lameness is gone.

Don't stay crippled! This soothing, penetrating oil needs to be used only once. It takes the pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica, backache or rheumatism so promptly. It never disappoints.

Miller's WORM POWDERS

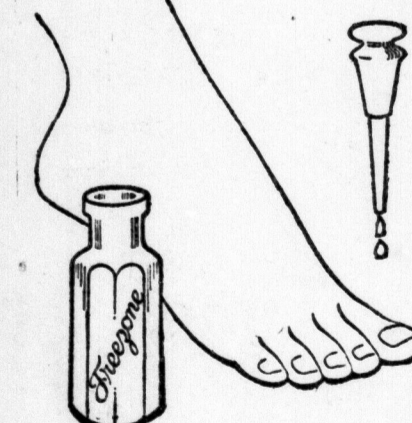

Contain No Narcotics

When your child is restless, peevish, sleepless, or when convulsions threaten, it indicates the ravages of worms and that the little one's strength is being sapped and undermined. Miller's Worm Powders get promptly at the root of the trouble and restore the digestive organs to a healthy condition. Price 30 cents. At your dealer or mailed direct on receipt of price.

Northrop & Lyman Co., Ltd.
Dept. L.A., Toronto

"FREEZONE"

Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

HEARTBURN or heaviness after meals are most annoying manifestations of acid-dyspepsia.

KI-MOIDS pleasant to take, neutralize acidity and help restore normal digestion.

LOSS IN SUGAR WOULD HIT ALL, REFINERS CLAIM

Will Contend That Nation's Whole Commercial Fabric in Danger.

CABINET HEARING TODAY

Expect That Order Already Suspended Will Be Rescinded.

[Special to The Advertiser.]

OTTAWA, Oct. 19.—The most interesting hearing, from the public standpoint, which has been held at the capital for many a day, will be held tomorrow in the office of Premier Meighen, when the sugar refiners will represent the consumers and the representatives of the refiners will represent the refiners.

The hearing in the present case is a hearing of the kind which has been held in the past in connection with the upholding of the board of commerce order. On the other hand, the Consumers' League, the Wholesale Grocers of Canada, the Dairy Council of the Dominion and other interests will be here to speak against the upholding of the order.

There is a difference between the present appeal and that in connection with the railway rates. In the latter case, an appeal was taken from the board's order by outside interests, representing the people. In the case of the sugar inquiry, the Government has initiated the hearing with a view to connection with the situation brought out in public. In the meantime, the board's order has been suspended, but has not been revoked. It is stated that certain of the banks are interested in the hearing and the result thereof. The banks finance purchases of raw sugar to the extent of 75 per cent of their value, and as collateral the refiners have been in the habit of pledging securities of companies of which the heads of the refineries have been directors.

Paid Out of Profits.

Obligations have been paid in the natural course of events through profits made on the refined sugar. Obviously, however, if the price of refined sugar drops below the price at which it was purchased, the margin of safety disappears, and doubtless obligations must be met if the banks cannot be paid, the refiners must be carried or their securities must be sold. It is claimed that the amount to be met approximates \$21,000,000, and that the capitalization of the refineries amounts to only \$15,000,000. If these contentions are true, then it may be anticipated that banks interested will be represented.

CANDY INDUSTRIES BETWEEN TWO FIRES

OTTAWA, Oct. 19.—(By Canadian Press).—The sugar situation, which, according to reports reaching Ottawa, is the chief topic of interest in Canada today, is to be thoroughly threshed out at tomorrow's hearing of the refiners and other interested parties before the cabinet.

There will be practically a full attendance of members of the Government and several other interests besides the refiners are expected to present their case.

One of these which, it is stated, will present its case is that of the candy manufacturing industries in Canada, who, according to one man in the candy business, are between two fires. The candy manufacturers, it is stated, would like to see cheaper sugar in order that they might hold their trade without danger of the American manufacturers underselling them, but at the same time they face a loss if the reduction in sugar prices should be too drastic. Most of the firms in question are stated to be already manufacturing goods to fill their Christmas orders, and the sugar used in these orders has all been purchased at the higher prices.

However, if there is a reduction of Canadian sugar prices to anything like the American level the Canadian merchants and people will demand a pro rata reduction in the price of candies, and the manufacturers fear they may be compelled to sell the Christmas goods, which they are now making at a loss because of the demands for rebates from merchants.

The impression here tonight is that the government will not make any new and striking facts are brought out in tomorrow's hearing, will rescind the order of the board of commerce altogether and let the law of supply and demand rule in sugar prices.

BROKERS ADMIT BUSINESS IS DEAD

TORONTO, Oct. 19.—Disposition by the federal cabinet of the appeal against the sugar order of the board of commerce, slated for tomorrow at Ottawa, is keenly awaited in local circles touching the sugar market. Since the Meighen Government suspended the order fixing the retail price of sugar at 2 cents, classes of buyers have let the sugar market severely alone. Brokers admit business in sugar is practically at a standstill, even importations from United States having stopped since suspension of the order, importers anticipating a drop in the Canadian refiners' quotations.

BATTLE IN WINDSOR OVER ABOLITION OF STALLS IN CAFES

WINDSOR, Oct. 19.—Organized opposition to the campaign of Mayor Winter for the elimination of all booths in Windsor cafes and eating houses, became apparent today when the Retail Merchants' Association, through its secretary, H. E. Bastien, opened fire on the mayor's proposal with a hot criticism.

The association in taking its action, is taking up the battle on behalf of the Chinese proprietors of the restaurants affected, all cafe owners here being members of the merchants' bureau. Secretary Bastien characterized the mayor's plan as "foolish" and "chivalrous." He said it would make Windsor the laughing stock of the province.

CHAMBERLAIN'S RELIEVES ANXIETY

In cases of whooping cough. The spasms coughing are less frequent and less violent when Chamberlain's Cough Remedy is used, and the danger is greatly lessened. Chamberlain's is known to thousands of mothers as a safe and reliable remedy for children.

COUGH REMEDY

LARSEN SWEARS HIS STATEMENT WAS INCORRECT

Witness Says Fatal Shooting Not Result of Angry Words.

BRAMPTON, Oct. 19.—In the trial

of Frank Larsen of Cookville, Ont., at the assizes here today on a charge of murdering his brother-in-law, James Davidson, of Cookville, on March 3 last, Joseph Larsen, a brother of the accused, was called as a witness for the crown. He had signed a statement in the presence of Provincial Inspector John Miller last spring to the effect that his brother Frank was angry at his brother-in-law, Frank Davidson, as the outcome of an argument between the two men, and Frank had taken a shotgun from a bedroom. The sun was pointed at Davidson and exploded with fatal results.

Signed When "Rattled."

Today, on the witness stand, Joseph Larsen said he had signed the statement when "rattled," and there were some mistakes in it.

There was no anger between the two men, Joseph Larsen swore today, and the killing of Davidson was accidental. He said the gun was not pointed at Davidson. It turned in Frank Larsen's hands, the witness added.

Had Taken Whiskey.

Joseph Larsen stated that he had taken whiskey to the home of his father, Nelson Larsen, on the day of the shooting. He himself, his father, his brother Frank, and James Davidson each had two drinks of whiskey "neat," and the argument followed after the second round of drinks. The father of the witness had gone to the barn in the meantime and the two brothers and the brother-in-law were alone in the house. Frank and Davidson talked of going hunting; the witness said, and both were laughing just before the gun came into the case.

FRANK LARSEN BURSTS INTO TEARS TELLING OF SHOOTING

BRAMPTON, Ont., Oct. 19.—Frank Larsen, on trial at the assizes here on a charge of having murdered his brother-in-law, James Davidson, went into the witness box in his own behalf this afternoon. While telling the story of the tragedy he burst into tears. He is 21 years of age, but looks younger.

"My brother Joe said, 'My God, you've killed him,'" said the prisoner, and as he recalled the terrible affair he covered his face with his hands.

The prisoner stated that they had been talking about a dog belonging to Frank Larsen which hung about Davidson's place. At Davidson's request for a gun with which to shoot the animal, Frank Larsen handed him a gun and loose cartridges, which Davidson refused, saying to Frank, "Load her up."

Larsen thereupon thrust the cartridges into the breach, closed the gun and gave the barrel the final slap, which he claims exploded the weapon and caused the fatality.

The prisoner told of drinking heavily while alone in the house with the dead man, which accounted for his condition when arrested. Under cross-examination, he said he had removed the discharged and exploded cartridges from the gun, and had thrown them and the gun outdoors, where they were found later.

Counsel for defence was addressing the jury at the time adjournment was taken until tomorrow morning.

Cleveland Harris, whose evidence was taken earlier in the afternoon, testified under cross-examination that Larsen made a statement to him to the effect that "you never saw a Catholic and a Protestant get married and get along together."

Mrs. Hannah Davidson, widow of the victim of the tragedy, and several other witnesses testified to the friendly relations existing between her husband and the prisoner.

MEN LAID OFF FROM FACTORIES GOING ON FARMS

Essex Farmers Benefit by Closing Down of Auto Plants.

The following is a summary of the weekly reports made by the agricultural representatives to the Ontario Department of Agriculture.

Essex reports that a number of men from city factories which have been closed are offering for farm work. Other representatives declare that labor is as difficult to procure as it was during the war.

The newly-planted wheat has made good growth this fall. Even late sown fields are already showing a promising top.

Norfolk points out that a considerable portion of the cattle and hogs that are being disposed off are more or less underweight.

Midsex states that several carloads of cattle were shipped during the week to Buffalo from Strathroy, and that a farmer near Glencoe brought in a carload of young cattle from the West.

The Port Arthur representative says that a herd of five cows killed by a railway train were settled for at \$125 per animal.

The continued mild weather has kept pastures in good condition, and has helped to keep the milk supply.

Rapid Corn Cutting.

The past week has been ideal for corn cutting, and the field work has been generally rapid, but heavy clay land has been found to be rather hard for plowing.

Norfolk reports that about 75 per cent of the grain crop in that county will be handled by the Niagara Grape Growers' Association.

Above the Average.

Northern-grown potatoes are said to be above the city average in quality this season, barring a few reports of powdery scab. In the Port Arthur district the crop advanced during the week from \$1.75 to \$2 a bag.

Some representatives in older Ontario state that rot is making its appearance here and there, and that there is a tendency to market early.

Prescott and Russell report latest cheese sales at 24 1/2 cents a pound; Lanark slightly over 24 cents; Glenora, 24 1/2 cents.

Little pigs are bringing a good price in recent days. At a recent sale an average of \$10.65 each was paid for a litter.

Owing to the good prices offering, a number of farmers in Prescott and Russell are pressing a considerable quantity of hay for immediate delivery. Prices here the province vary from \$35 to \$38 a ton.

Norfolk says that tractors are being used more and more for silo filling, threshing and plowing.

YUKON RIVER CLOSED.

Dawson, Y. T., Oct. 20.—Ice closed the Yukon River at Dawson on Sunday, this being the earliest closing on record. The extremely low water, combined with a cold snap, caused the closing.

A Strong Community Support

LONDON'S NEW HOTEL has the sanction and active support of all London's leading citizens, the press and the official bodies.

Funds to the extent of \$400,000 have been subscribed by business and financial men of the city on the second mortgage.

In order that the city may be assured of the hotel, these men have accepted the only portion of the bond issue which might be regarded as speculative.

The \$600,000 first mortgage bonds which will be offered to the citizens will carry 7% interest and will be a first charge against the whole property, land and buildings, representing an investment of one million dollars.

These bonds will be first offered exclusively in London and the surrounding district and in view of the city's strong financial position and the tendency of investors to support home enterprises, it is certain that the issue will be taken up with the same strong display of civic spirit as was demonstrated in the Victory Loan drives and other local campaign issues.

BENSON-HINES LONDON HOTEL CO., LTD.

BRENT, NOXON & CO., Fiscal Agents

213 DOMINION SAVINGS BUILDING, LONDON, ONTARIO.

an additional supply of water for the use of the water works for a chain of small dams on the creek or one large enough to provide for a storage of double the quantity now held in reserve at the works. The cost of piping the water from Lake Erie does not appeal to the board as the most economic and satisfactory method of obtaining water for the city and share the expense of construction and maintenance.

MANY EMPTY HOUSES IN ELGIN COUNTY

ST. THOMAS, Oct. 19.—The census taken of the vacant houses in the rural districts, which was ordered by the county council at the June session, shows that there are many empty dwellings throughout the countryside with cheap convenience and regular transportation which might find many tenants from St. Thomas, and maybe owners who would escape from the high and increasing taxation of the city.

The vacant houses on the concession road are favored by a county official as homes for new comers from the old land, and in this connection a revival of the work of the Elgin Board of Trade will be suggested, and desirable immigrants sought in the British Isles.

The city lacks an immigration officer who would find homes and occupation for married immigrants coming this way. The county official would have these vacant houses secured with the addition of a small acreage of land and offered to intending new comers at a small rental or an easy term purchase price.

GUTHRIE EXPECTED TO SAIL FOR CANADA

OTTAWA, Oct. 19.—(By the Canadian Press).—Hon. Hugh Guthrie, minister of militia, expects to sail for Canada tomorrow on the Empress of France. He has been attending the financial conference called by the league of nations.

CONVICT STRIKE SUBSIDES, BUT DANGEROUS YET

KINGSTON, Oct. 19.—While the strike of from one hundred to two hundred convicts is subsiding in a measure, the men are sullen and the officials of Portsmouth Penitentiary are keeping a close watch. The strike was a lively one when at its height, according to interesting details published in today's Standard. In the tailor shop, where the trouble first started on Saturday, 80 convicts refused to work, one young Pole, said to have been sentenced at Toronto to a 25-year term, jumped upon one of the tailors and called out in a dramatic manner: "Murder! Blood! That is what we want."

This startling cry started a fresh ferment among the men in that shop, who thereupon promptly were marched back to their cells, as also were some of the tailors who were on duty when they persisted in their refusal to work. Once in their cells the men seemed to go fairly mad, shouting and hooting and pounding their prison bars until they could be heard for blocks around.

Then of a sudden, as though in obedience to some secret signal, they would quiet down. Later, perhaps in response to a signal, they would break out once more with their unusual disturbing din. How dangerous the whole situation is as a consequence of it all may best be realized by the following statements:

Guards May Not Go.

That practically all the officers and guards are now on 24-hours duty, and may not leave the institutions.

That the strikers insist they will not go to work, no matter what is done.

In the shop on Monday long files and a deadly pair of scissors were openly flourished by convicts and the most dire threats made against certain officials if they appeared.

That a number of extra ringleaders have been locked up in solitary confinement, thus sharing the fate of the "Wash" Kallis, Schmonski, Cole, Johnston and "Cigarette" Brown, who are on a bread and water diet, and that though this is only rumor, and the Standard cannot vouch for it—unless the strikers shortly come to time the hose may be played on them in an endeavor to bring them to their senses.

Officials Oppose.

It is not improbable also that in an effort to end the whole insurrection the "gang" will be broken up by some of the leaders being sent to other institutions.

The talk persists, says the Standard, that despite the disclosures, some of the inside officials are still supplying information, if nothing more, to the convicts, and instead of helping to clean up a dirty mess, are actually posing themselves to the cleaning-up process, and are encouraging the convicts in their revolt against the regular order of things. In regard to the investigation which Col. Bagley of Ottawa is conducting at the penitentiary it is stated that it has nothing whatever to do with the big delivery plot disclosed by the Standard.

PROTECTION for your Watch

The delicate mechanism of your watch needs the protection of a perfectly designed, accurately fitted case. Its efficiency depends largely on this.
