Sent for Trial.

ST. CATHARINES, Sept. 2.—(Special.)—Conductor Phillips of the Niagara Central Railway was held for trial in two hundred dollars ball by Magistrate Campbell, this afternoon on a charge of assaulting James Groggen. Evidence supported complainant's claim that he was thrown off the car while it was in motion, as a result of which two ribs were fractured. Chicago Gossip.

J. P. Bickell & Co. say at the close:
Wheat—Strong on large flour sales by spring wheat millers, together with large clearances and strong cash markets. On the extreme bulge liberal profit-taking was indulged in, which resulted in a decline from top figures. The situation, however, remains unchanged. Stocks of wheat are abnormally low the world over, and, as we have been telling you from day to day, foreigners must come to this market for their requirements, and when they come they will find the American surplus only a moderate one. As we have been warning you, be careful about buying on the quick bulges, such as we had to-day, as there will be plenty of weak spots to be taken advantage of until the public take more interest than they do at the moment, but put us on record this year—we are staunch bulls, but only recommend the purchases of wheat on good declines.

Corn—September shorts were given another twist to-day, resulting in another new high record for this option. This had more or less of a firm effect on the futures, but there was heavy realizing on the bulge, and as the short interest has been practically eliminated, the market eased off sharply from top figures. The weather will probably turn favorable again, and longs will desire to secure profits; then is the time to buy corn* Trade in the May, as it is the best proposition for a long pull.

Oats—Firm; but the market appears very much overbought. Shorts were are very much overbought.

Marshall, Spader & Co. wired J. G. Beaty, 14 West King-street, the following:

Meat—Strength in the September delivery continues, the advance to-day carrying the later deliveries with it. Momentarily sentiment is bullish, local traders taking advantage of the pit run for the turn. With so much manipulation it is difficult to draw conclusions which may not be entirely upset to-morrow.
