ASIATICS-TO BE BARRED LABOR CONGRESS ASSURED

Hon Mackenzie King's Address at Opening of Convention - Will Crooks' Warning to Workmen.

QUEBEC, Sept. 20.—(Special.)—The 25th annual convention of the Dominion Trades Congress opened this morning with many notables present, including with many notables present, including Hon. Lomer Gouin, premier of Quebec; Hon. W. L. M. King, minister of laber; Will Crooks, M.P., Woolwich, England, representing the British Trade Union Congress; Sir George Garneau, mayor of Quebec; George Jones, Atlanta, Ga. fraternal delegate from the American Federation of La-Charles L. Baine, Boston, Boot Shoe Workers' International Brotherhood; Alphonse Verville, M.P.,
Montreal, and Allan Studholme, M.L.A.,
Hamilton. There are about 125 delegates here, including 40 from Mont-

real and 16 from Toronto. In address of welcome Premier Gouin declared that the Quebec Government was constructing a high commercial school in Montreal that would be secto none on the continent. The Quebec Legislature was well disposed towards the working classes, and prepared at times to consider matters that might be placed before them by the

Hon. W. L. Mackenzie King, minister of labor, said he was delighted to meet on the platform such men as Will Crooks, M.P. He outlined the policy of the labor department, and paid a tribute to the late D. J. O'Donoghue, who was fair wage officer in his de-

The prevention of strikes and lockouts was dear to his heart. He was eved in peace. He asked workingmen o bring about a regime of peace, which would set an exampleto all the other nations of the world.

Condemns Asiatic Labor.

He hoped the workingmen would feel that with the establishment of a de-partment of labor the Asiatic partment of labor the Asiatic question would be carefully studied by those in authority. The government had not received any report from any individual to bring in Asiatic labor to help to construct the Grand Trunk Pacific Railway. If such a request was granted it would be refused by the

The Asiatic standard was beneath the Canadian standard, and for reason and others a head tax had been placed on the Chinese. He thought that some means less obnoxious to China should be brought about to enable Canada to get Chinese markets, and yet be effective in preventing an the Material. nflux of Chinese to such an extent to

Dr. Dunlep, Yonge Street Dentist and Harry Gmalin, Woman's Husband, Also Arrested.

An effort is being made by the local of Mrs. Annie Authers' child, with the murder of which Mrs. Maud Gmalin, alias Miller, alias Turner, is held here. The police here believe that this will prove very material evidence in the trial of the woman who was remanded for a week on her appearance in police court yesterday morning.

Two other arrests have been made.

Dr. Dunlop, who was spoken of by the woman as Dr. Miller, was arrested early yesterday morning. He is a Yonge-street dentist, and is held on a vagrancy charge, tho it is unlikely that he has much connection with the case. Harry Gmalin, alias Turner, was ar-Harry Gmalin, alias Turner, was arrested in Niagara Falls, N.Y., where he lives. He is the woman's husband. He is employed by the Oneida Company as a silver plater. He was questioned by the police there. They lath released him as having nothing to do

with the case.

The woman, whose right name is Gmalin, has lived in Toronto for more than two years. About two years ago she was employed as housekeeper by A. E. Bucher, then living at 273 Mac-pherson-avenue. Her husband was then living with her and was employed by the Toronto Silver Plate Co. From there she went to Rochester for three weeks, when her husband lost his

ADVANTAGES IN HIS DISADVANTAGES.

There was a charm of color and glitter, but no one seemed quite happy as the sun sank under the southern ice, for it was not to rise again for

118 days.
The Eskimos took this as the signal to enter a trance of sadness, in which the bereavement of each family and the discomfort of the year are enacted in dramatic chants or dances.

But to us the sunset of 1907 was inspiration for the final work in di-recting the shaping of the outfit with which to begin the conquest of the pole at the sunrise of 1908.

Most expeditions have had the advantage of the liberal hand of a government or of an ample private fund. We were denied both favors. But we were not encumbered with a cargo of missits devised by home dreamers, nor was the project handscarped by the was the project handicapped by the usual army of novices, for white men at besit must be regarded as amateurs the Eskimo in his own environment.

Our food supply contained only the prime factors of primitive nourishment. Special foods and laboratory concoctions did not fill an important space in our larder.

Nor had we balloons, auto motor sleds or other freak devices. We did, however, have an abundance of the best hickory, suitable metal and all the raw material for the sled and its accessories which was homeforth to be accessories which was henceforth to be SELECTING BOAT

REQUIRES CARE. A boat is an important adjunct to every sled expedition which hopes to venture far from its base of opera-tion. It is a matter of necessity, even when following the new coast line, as is shown by mishap of Mylius Erick-sen; for if he had had a boat he would himself have returned to tell the story

of the Danish expedition to East

Need for a boat comes with the changed conditions of the advancing season. Things must be carried for several months for a chance use in the last stages of the return. But since food supplies are necessarily limited delay is fatal. Therefore, when open water prevents progress, a boat becomes in the nature of a life preserver. Foolish, indeed, is the explorer who gnores this detail of the problem. Transport of a boat, however, offer-many serious objections. Nansen introduced the kayak and most explo since have adopted the same device. The Eskimo cance rerves the purpose very well, but to carry it for three months without hopeless destruction, requires an amount of energy which

WHAT A POLAR

SLED SHOULD BE. The sled was evolved as the result of careful study of local environment Who Was Arrested in Toronto on a Charge of Murder of Infant She Had Adopted.

Of careful study of local environment and of the anticipated ice surface northward. We did not copy the McClintock sled, with its wide runners, but which has been used by most explorers for fifty years. Nor did we plorer for for for years. Nor did we abandon the old fashioned iron shoes are the was again employed for German silver strips.

avenue, where she was again employed as housekeeper.

In police court yesterday morning for German silver strips.

The conditions which a polar sled rust meet are too complex to outline there. In a broat sense, it seemed that the best qualities of the best wood by the best qualities of the best qualities of the best wood friend, to whom she said she gave the child in Niasgara Falls. She said this woman was a Mrs. Wagner, who lived a last of lived in Brooklyn, and had visited a lived in Brooklyn, and had visited the feet in this city, where she had called on her. Sie could not, however, give an exact addresses at any of these places, and this despite the fact that she claimed to keep up a continual correspondence with her.
