confession atop of the winding-sheet. They assuredly declare that it is not a substitute but merely a representa-tive statement. Hence every time we read the re-statement, we must hold our noses to avoid contamination from the doors of the carcass beneath. Not all must do this, for, as the apostle suggests, all have not their senses exercised to discern. But all intelli-gent Presbyterians are being rapidly driven not only away from Calvinism. WASHINGTON, D.C., March 13 .-Pastor Russell of the Brooklyn Tabernacle, New York, preached here twice to-day to splendid audiences. One of his discourses was entitled, "The Overthrow of Satan's Empire." We report the other one from the text above quoted. Pastor Russell said: As Christians in the light of this driven not only away from Calvinism, but, alas, away from the Bible also, because of their erroneous supposition that the teaching of Calvin and the teachings of the Bible are one and the wonderful twentieth century we stand

wenderful twentieth century we stand at the parting of the ways and must decide for right or for wrong, for truth or for falsehood, in respect to our religious convictions. Without questioning the sincerity of our fore-fathers, we all object to their theology. at the parting of the ways and must decide for right or for wrong, for truth or for falsehood. In respect to our religious convictions. Without questioning the sincerity of our fore-fathers, we all object to their theology. It is in vain that ministers and Bible class teachers longer deny the facts of the case. Nor will intelligent and honest people agree that it is right ing people of Christendom. Their lives and general conversation they should ignore or absolutely deny the teach-ings of those creeds. Yet this is the position of practically all the think-ing people of Christendom. Their con-sciences will not stand for this much honest people. For altho the masler for the truth and taking their stand for them the disapproval and contempt of all honest people. For altho the masler are not yet aroused on the subject, they are rapidly getting awake.

Do you wish me to illustrate what I mean? Do you wish me to show in what respect all denominations are ed of their creeds and anxious to hide the fact that they ever pro-fessed them or were anxious to give them some new interpretation more consistent with the broader thought and more generous sentiment common

to civilized man in this twentieth century? I will do it.

Our Methodist friends are ashamed of that feature of their creed which

leclares that the Almighty is now do-

ing everything that divine wisdom and

ing everything that divine wisdom and power can accomplish on behalf of our poor race to bring all to a full knowledge of Christ and to opportun-ity of faith and obedience. They real-ize that there is a weakness in this argument. And when the protest

that God must work thru means, and

hence that the responsibility lies at the door of Christian believers to carry the gospel to the heathen, they realize

that this is an illogical argument, too. For why should our Great Creator

For why should our Great Creator send to eternal torment millions of His creatures, because of an insuf-ficiency of zeal on the part of some of their more enlightened fellow-creatures? Acknowledging the incon-ristency of such a theory our good Methodist brethren tell us that they

Let me now briefly summarize the errors of our creeds and briefly indicate the Bible remedy . Some of our creeds were too strict in defining the saintliness of the church class, invited to become the bride of Christ in His joint-heirs in His kingdom. On the contrary, in many respects they were too loos they were not nearly up to the stand, and of the Master's word, "If any man will be my disciple, let him take up his cross and follow me."
