Attractions for THE HALF-HOLIDAY

Baseball, Horse Racing and Patriotic Fairs Among the Features of the Afternoon

The many attractions for this afternoon promise to make the half holiday an enjoyable one for all as the line of amusements is varied. Horse racing, baseball and other events combine in making up the programme of sports.

At Moosepath a series of races will be held and, as many of the fastest local horses are entered, the meet should be an interesting one.

On the East End league grounds three five inning games will be played. The first will commence at two o'clock sharp and the second immediately after it.

minutes. All the teams will have their strongest line-ups and good games are anticipated.

People desiring to spend the day in the country will be given an opportunity to do so by attending the patriotic Garden Party, which is to be held at Renforth in aid of the Soldiers' Comforts.

The fair at East St. John, under the auspices of the Red Cross Society and the Soldiers' Comforts' Association will undoubtedly attract many people from the city, as everything possible has been done to satisfy the pleasure seekers and give them a good time. Many will take this opportunity of using the new East St. John street car line for the first time.

TEN DEATHS.
At the board of health offices this week ten deaths were recorded, the causes being two each from influenza and cholera, infantum, and one each from phthisis, senility, varicose infection, accidental and the second immediately after it.

The Man In The Street

Got your coal in the bin?
We did intend to open the col. today with something nice about the weather, but this will do for a change.

The Dacia seized by the French from a German-American company, has been re-named the "Yser." Sticking strictly to the English pronunciation, that's probably how the company feels also.

Sweden seems to be the latest of the tenants on the Brink.

Another Little Note?
In writing him about the "Arabian" Pres. Wilson will probably tell the Kaiser once again what "the U. S. flag won't stand for." Now that he has told him so frequently, he must have at his finger tips what the flag will stand for.

It's hardly likely that Roumania put a war loan of \$2,000,000 through merely for the sake of giving her ministers experience in financing.

Are the Scissors Sharp?
Boston Globe editorial paragraph, Aug. 19:—"The Germans are running the Russian steam roller on reverse gear now, but it will cost them a good deal to drive it clear to Petrograd."

St. John Standard editorial paragraph, Aug. 19:—"The Germans are running the Russian steam roller on reverse gear now, but it will prove a costly job before they get it as far as Petrograd."

From the German "Braunschweig" Speaking of streets with German names, the Standard suggests "then one or two whose changing would do no harm." But if we're going to follow the idea strictly to the root, won't we have to begin with the name of the province itself?

"Canada cannot grumble," says industrial man visiting here, but that doesn't mean that we haven't any grumblers.

Capt. Owen, British Royal Engineers, mentioned for distinguished conduct in France, is a son-in-law of Wm. Jennings Bryan. Undoubtedly, the young lady was pretty, so don't be too hard on the poor chap.

But Why Tell the Obvious?
After a profitable deal with a Northumberland farmer on a \$1,500 purchase for the Farm Settlement Board, A. J. H. Stewart told him "he wasn't working for his health." Of course the explanation at once removed from the mind of the farmer any suspicion that Mr. Stewart's constitution was not of the best.

In Our Mail Box
To the Man in the Street:
Dear Sir:—There is no denying that we suffer too much noise about the city because of shrieking car-track curves. I fully endorse all that "I Kent Sleep" said in your recent issue. There is, however, another matter in connection with the street car service here which I think, could be easily remedied as it is elsewhere.

Tourists arriving in the city smile when they see our street cars going in opposite directions with the same signs upon them. One car reads, "Prince Wm. Street," when it is going south, and "Prince Wm. Street," when it is returning north. Another shows "King and Britain" when returning along Prince William street to north and the same as when going to the south end. Aside from the humor which may be derived from the idea, it is most confusing to have permanent signs which tell the truth only half the time. A double-sided sign, reversible, would probably avoid the confusion.

Maine's game laws have been amended so that sportsmen cannot shoot moose for four years. But some will probably still be able to mistake a man for a deer.

Up to the hour of going to press, no dispatch had been received saying that the "cruiser Goeben had been torpedoed." It seems to have been good for a weekly story up to now.

Notice of Funeral, Etc.
Of course, in these modern and progressive times one is hardly surprised at anything, but the cub reporter received a shock this week which hastened him to the nearest soda fountain for a glass of "Cola-coca." A sober-faced man had just brought in the notice of a death. The day of funeral had not been definitely named. The man gave the "Cub" the particulars of the death.

"When is the funeral?" the aspiring "journalist" queried. "We cannot tell yet," replied the man, "you can just say it will be held hereafter."

The Chocolate Man
It was evident that the youngster in the Pullman which left St. John the other evening, was enjoying her first opportunity to study a colored man at close range. She had her wide-open eyes fixed on the porter until she could stand it no longer. "Mamma," she whispered, "is that a real man or is he chocolate?" Please may I bite him, just to make sure?

What is the Answer?
His friends have been congratulating a member of the local legislature upon his prospects for the appointment to a well paid office in the postal service upon the approaching superannuation of the present incumbent. Those who happen to know that there is no superannuation attached to this office, and that the gentleman who now holds it has no intention or prospects of giving it up, are wondering. Is the up-country politician the victim of a little joke, or is it a tragedy of misplaced hopes arising from insufficient information, or is his pull strong enough to enable him to arrange matters to suit himself?

DEATH OF THEIR CHILD.
The death of Margaret W. Friars, aged eighteen months, infant daughter of Mr. and Mrs. George Friars, occurred last evening. The funeral will be held on Sunday afternoon at 2:30 o'clock from her parents' residence, 109 Hillyard street.

DELONG-SAUNDERSON.
At the home of Mr. and Mrs. McLean, 60 Draper street, Dorchester, Mass., on Thursday evening, Aug. 12th, Harry J. DeLong and Miss Margaret F. Sanderson, both of St. John, N. B., were united in marriage. Rev. A. A. Riddell performed the ceremony. Mr. and Mrs. DeLong will make their future home in Dorchester, Mass.

Here's A Chance To Cut Down The Cost Of Living

A Little Bit of Information Which is Worth Real Money to Every Picture Postal Patron

Do you know that you still may mail a postcard for a copper?
If you do you are one of the minority, but you are right, just the same.

When the war tax stamp was introduced most persons jumped to the conclusion that picture postcards were included in the class of mail which requires the extra stamp. This idea was accepted so widely, almost universally, in fact, that the business of publishing and selling the cards in this country has been practically revived.

The matter assumed such serious proportions from a business standpoint as to call for comment from many quarters regarding the shortsighted policy of the government. It was urged that a tax which killed the business upon which it was placed was too much like killing the goose which laid the golden egg.

This was all quite true in theory but in fact it was quite wrong. No one had attempted to place a tax on picture postcards.

Just let that sink in.
The postal provisions do not call for an extra war tax stamp on a picture postal—not unless it bears more than five words of writing in addition to the address.

The reason is simple. A picture postcard does not class as first class matter as so printed matter and is chargeable only as such.
There is another class of postcards which do class as first class matter and includes those bearing printed announcements. The rule allowing five words of writing permits enough latitude to make a printed form card, with the necessary data filled in by hand, a very convenient and economical method of communication.

This can be taken advantage of for notices of meetings, traveller's announcements of when they will call and so on. There is another exception of the same nature which has been overlooked even by some large establishments with a reputation for keeping a careful watch on expenses. Printed circulars are printed matter and not first class mail and therefore do not need a war stamp.

Every war stamp which has been placed on picture postcard or circular should be charged up to taxes but to charity; it was just a free gift to the government.

NO GERMANS WITH THE BIG MOOSE CARNIVAL

Show Appearing in Many Other Canadian Cities—No Reason For Any Opposition

In connection with the announcement contained in yesterday's Times relative to a proposed street fair and carnival which it is intended to conduct here early next month under the auspices of the Loyal Order of Moose it was said yesterday at City Hall that there must be inquiry made before permission would be given for the show to come to the city. The reason given was that it was said there were Germans connected with the show.

Investigation has shown that the proprietor, Henry Meyerhoff, is a Russian Jew, and in his company are no Germans at all. The majority are French and Irish-Americans. The show has been booked in Ottawa, Valfield, Montreal, Quebec and other Canadian cities, and since there is no reason why the show could not come here the license will probably be granted today. The same show will play the Fredericton, Chatham and Halifax fairs this year.

WHAT THE CANADIAN LAW LIST SHOWS

Seven Lawyers From St. John on Active Service—Compares Well With Other Places—Changes Recorded

In the supplement to the Canadian law list, recently issued, the names of seven St. John lawyers on active service are given. Whether the lawyers of this city are more versatile than in other parts of Canada or whether the law list is more complete, the comparison with other cities is interesting. The number of lawyers on active service from some other Canadian cities are given in the list as follows: Halifax 8, Montreal 14, Toronto 1, Winnipeg 10, Vancouver 15.

Those from St. John are: H. H. McLean, K. C., B. B. Armstrong, C. F. Innes, C. H. McLean, W. H. Harrison, H. J. Smith, E. C. Weyman.

Other changes given in St. John include the appointment of J. R. Armstrong, K. C., as judge of the county court of St. John, the announcement that Weldon & McLean have associated with them O. Ring and that W. M. Ryan is now practicing here.

The New Brunswick section of the list also announces that: M. B. Innes of St. John has a branch office in Hampton; M. H. Parlee, late of Sussex, is practicing in Hampton; A. A. Dyball, late of Moncton, is practicing in Buctouche; M. A. Kelly and J. L. Ryan are practicing in Campbellton; J. J. Doane in St. Stephen; R. P. Hartley in Woodstock; and W. Linerick, late of Gibson, is practicing in Fredericton.

W. B. Farris, well known in St. John, has left the partnership of O'Shea & Farris in Nelson, B. C., and is now a member of the firm of McCaffrey & Farris in Revelstoke, B. C.

In Winnipeg, Bonnar & Co. have admitted into partnership J. W. Robinson and the firm will be known as Bonnar, Trueman, Holman & Robinson.

Opposite the names of several who appear in the list from various parts of Canada, is the brief but expressive note, "Killed in action."

When Buying a Bed Spring the Best is None Too Good

The Hercules is absolutely guaranteed never to sag, and the basket edge, which cannot be obtained on any other spring, keeps the edge of the mattress square and prevents spreading over the edge.

This adds wonderfully to the durability and comfort of the mattress, and this feature alone would make it worth while to insist upon having the "Hercules."

And the prices are moderate, \$5.85 for all-steel frame, and \$4.50 for wooden frame.
