A basket social under the auspices of the ladies of the Waterloo Street Baptist church was held last evening in the school room to raise money for the benefit of the church. A large number of people attended and an enjoyable time was spent. Mrs. W. H. Parlee and Mrs. Robert Short, assisted by Miss Anna Hoyt, Mrs. Herbert Hoyt, Mrs. Harrison Hoyt and Miss Mary Parlee and other ladies in the church were in charge. A large number of fancy baskets were sold and brought good prices, and also home made candy and ice cream were on sale.

**CARS CRASHED**  
Two passenger automobiles crashed together in Rothersay avenue, opposite the Brookville school house last night about eleven o'clock. Both were of the touring car type; one was from Rexton, Kent county, to St. John, and the other was an Overland outward bound from the city. The dense fog subdued the lights and muffled the sound of the cars as they came together on the crest of a hill where the road curves. The force of the collision was such that both wheels on one side of the Overland were sheared off and both cars came to a sudden stop as each blocked the other. The passengers in the automobiles were not injured and the Kent county car was able to proceed under its own power; the other was left on the roadside until this morning when it was towed to the city for repairs. The damaged car was a new one which had been in the possession of its owner for only a few days. Both drivers said the collision was purely accidental and neither blamed the other.

### BIT OF FLOOD IN THE BOARD OF TRADE BUILDING

An accident occurred in the board of trade building, Prince William street, last evening about six o'clock. The water tank in the lavatory on the top floor of the building, broke away from wall and fell to the floor; at the same time the supply pipe started to flood the upstairs part of the building and the water started to leak through into the rooms of the board of trade on the middle floor. Miss Magee, of the board of trade staff, notified the janitor who turned the water off. Had the accident occurred a few minutes later when the building was unoccupied, serious damage might have resulted.

### PAY FOR DAMAGE TO SILVER POLICEMAN

An unusual accident occurred on Thursday afternoon, July 10, at the corner of Union and Dock streets, where a team driven by James Oakes backed into and damaged one of the city's silver policemen. As a result of this Mr. Oakes appeared before Magistrate Ritchie in the police court this morning, charged with the offence, and pleaded not guilty. James Marshall gave evidence that the defendant was guilty. The magistrate was advised that the damage done amounted to \$6, so he told the defendant that he would dismiss the case providing he went to the city hall and paid the city for the damage done, which the defendant agreed to do. Policeman McNamee reported the incident.

### TOMORROW'S PEACE CELEBRATION HERE

Tomorrow will be memorable in the annals of the city, because of the importance of the event celebrated—the peace treaty that ended the great war—rather than because of the nature of the celebration, but in this respect the celebration will be a very interesting one. In Montreal efforts to arrange for a parade proved futile and the same experience was encountered in Toronto. The celebration committee, and in both places the day will be observed publicly, much along the lines of the celebration in St. John. One reason why the demonstration tomorrow will not be on a more elaborate scale is the fact that the citizens are looking forward to two big days in less than another month—the gathering of the returned soldiers on over the province and the welcome to the Prince of Wales.

The chief feature of tomorrow will be the speech by Lieutenant Governor Fugatey, Chief Justice Sir Douglas Hazen and Chief Justice McKeown in King square at 2:30 o'clock. They will be preceded and followed by band concerts and there will be another band concert in the evening, followed by a display of special fireworks.

The city and other public buildings and houses and many residences are being decorated today and already the streets in the central parts of the city are beginning to present a gala appearance.

In the suburbs plans are being made by various sporting associations for a big day of sports and outdoor entertainments.

A royal salute will be fired tomorrow at noon at the exhibition grounds under instructions from His Majesty the King, to celebrate the signing of the peace treaty. A telegram received at local military headquarters this morning, read as follows: "His Majesty has commanded a salute of twenty-one guns to be fired at twelve noon, Saturday, July 19. Please comply."

The holiday for the celebration of the signing of the peace treaty will be observed by all branches in local military headquarters.

One of the citizens who was serving on the committee which had in hand the arrangements for the peace celebration tomorrow, speaking of a critical letter which appeared in the Telegraph, said that he appreciated the point which the writer had brought out, but said in explanation that so many people were out of town during the summer and more particularly on holidays, it was difficult to arouse sufficient enthusiasm amongst the citizens to make a big celebration possible. He said that the boy scouts and kindergartens were nearly all going on picnics and a great many of the automobile association members would be away, too. The committee had made many plans which they were forced to reject on account of the difficulty in getting citizens to co-operate.

### NINE DEATHS THIS WEEK

Nine burial permits were issued by the board of health during the week. Deaths were due to the following causes: Tuberculosis, three; and pneumonia, influenza, bronchitis, premature birth, cancer of uterus and cerebral hemorrhage, one each. Speaking of the death rate in St. John this morning, T. M. Burns, secretary of the board of health, said that the number of burial permits issued since the influenza epidemic has been so low, is a very encouraging sign. It was forecasted by Dr. Melvin during the epidemic that this state of affairs was likely to follow and that his prediction is working out correctly.

### TRADE COMMISSIONER HERE

W. J. Egan, Canadian Trade Commissioner in South Africa, is in the city and this morning called on the secretary of the board of trade. He later started a round of visits to the manufacturing exporters in the city in line to follow and has his previous work in the city until Monday.
