AFTER GERMAN PATENTS. Three Applications Already Received at Ottawa. Ottawa, Oct. 14.—Three applications for the suspension of patents held in Canada by Germans have already been made under the War Measures Act, under which regulations were recently issued by the government providing for action in such cases. These regulations, which are published this week, provide for the suspension or voidance of patents or licenses when the persons benefitting are subjects of a state at war with His Majesty, when the person applying for such voidance or suspension intends to manufacture the patented article, or cause the patented process to be carried on in Canada, and it is in the general interest that such manufacture should take place.

MORE WORK FOR CITY EMPLOYEES. Vote of \$30,000 For Labor During Winter. BONDS OVER-SUBSCRIBED. Apportionment Left to the Mayor.—City's Prospects Justly Optimistic—Machinery Hall For Remounts. Arrangements for the apportionment of the city bonds according to the subscriptions and the decision to agree with the principle of keeping the men of the city departments as fully occupied as possible this winter were the chief features of the common council meeting yesterday. On motion of Commissioner Potts a special war fund of \$80,000 was set aside to keep men of his department at work. There were present Mayor Potts, Commissioners McLellan, Russell, Wigmore and Potts and clerk. The mayor at once brought up the matter of the proposed bonds to which he said the response had been especially good. The total amount authorized was \$230,000 but this had been oversubscribed. There had been 46 applicants for the 20 year bonds, 25 for the 10 year bonds and fourteen for the five year issue. Some of the applications were at a premium, one of a quarter per cent on an issue of \$600 and another of one-eighth of one per cent on \$1,700. This the mayor said would only amount to a few dollars and the premium could be ignored. There would have to be an apportionment according to the amounts subscribed and he thought that the smaller subscribers should be given preference over the larger ones and he hoped that would meet the views of the council. Com. Potts moved that the apportionment be left to the mayor and this was agreed to. Com. McLellan then reported that he recommended that the machinery hall of the exhibition be given for the use of the military authorities for the remount work. It would entail some amount of inconvenience on the part of the work departments and the fire department but in the present time one ought not to make difficulties. He had taken into account the added risk of fire and had had the promise of the board of fire underwriters that the premium would not be increased if proper precautions were used in the time of the exhibition. Otherwise it would amount to \$1,000. Com. Russell seconded the motion that the hall be granted and it was carried. He then reported that the bills from the Trades and Labor Council amounted to \$655 and that there was no bank to the amount that the council had promised to give in aid he moved that the amount be paid. This was agreed to. Com. Russell was given permission to purchase a new fire reel for the west side sheds. Com. Russell also recommended that renewal lease issue to George M. Ross as follows: Let No. 318, Brock ward, for seven years from May 1, 1918, at \$20.85 per annum rent, being 10 per cent advance; let No. 1076, Brock ward, for seven years from May 1, 1914, at \$11.10 per annum, being 20 per cent advance. This was carried. A letter from the St. John Conservative Club as to premises was referred to Com. McLellan, as was also a letter asking that the license to A. Chapman as a fireman be cancelled. An application from James Edward Arthur, to be appointed a constable, was referred to the mayor and the council rose.
