ADVERTISING PROFITABLE

ADVANTAGES OF CORPORATION PUBLICITY.

Columns have been printed of late about enterprising cities and towns whose public spirited men and business merchants have raised funds to extend their manufacturing industries and promote growth of population, but very little has been said as to the results. This is because the plan is a comparatively recent development, and in many cases has not had time for a fair trial.

An interesting report however, has lately been published by Winnipeg papers on the work of the Winnipeg Industrial Bureau. Eighteen months ago this organization, whose executive is comprised of representatives drawn from ten organized business bodies of the city, started a campaign to extend their manufacturing industries. In this space of time advertising has to date cost \$137,177 and the bank deposits increased in the past year over 20 per cent. The Winnipeg experiment is a marked success, and to a great extent demonstrates that if natural advantages exist within a municipality, judicious advertising, properly placed, is a good investment and thus, convinced the Industrial Bureau is looking to still greater results for the coming year have been struck as follows:

Printing	\$1,800
Postage	500
Legal	250
Entertainment & Transportation	400
Office maintenance and supplies	1,275
Salaries	1,200
Advertising	5,000
Newspapers	5,000
Magazines	5,000
Trade papers	1,800
Financial papers	3,000
Special advertising	1,225
Total estimates, year ending June 30, 1908	\$25,000

Though the idea of forming an Industrial Bureau in Winnipeg, when first mooted, was considered by many "in advertising" as a very far-fetched idea, it has now been realized that a public benefit such a plan was destined to prove.

VOICES OF THE PEOPLE

The editor does not hold himself responsible for the views expressed by correspondents under this heading.

WE APPRECIATE THIS.

To the Editor of The Chronicle:
Dear Sir—Will you kindly permit me to congratulate you on the column you have started in your paper entitled "Early Year Ago." The first month was completed by yesterday in advertising and yesterday's edition, I can assure you that such a column while it is a creditable amount of work, will prove in my opinion, a very popular feature in your paper, and I am sure your many readers will appreciate your efforts in this direction.

You will excuse me for trespassing upon your valuable paper, but I can assure you that I was so pleased with it myself that I could not help congratulating you on its appearance.

Yours truly,
J. C. Hegler,
August 6th, 1907.

LIKE A TREE IN THE NIGHT.

That's how pantheons. We sit near an open window, get stiff neck or sore back, perhaps feel off too quickly after evening refreshment, develop a cold, or you may, but money can't buy anything better than Tolson's Nerve. Its penetrating power enables it to reach deep tissues, and why it cures, for outward application we guarantee five times more strength than in any other treatment, hardly it's harmless and as sure as life hereafter to use at once. Don't accept a substitute for Tolson's Nerve, which is the one great household panacea of today.

WASHING WITHOUT WATER.

Is like trying to rid of Band-ruff without a razor.

Did you ever see anyone trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of dandruff to prevent baldness by feeding germs which cause it with candies, vaseline, glycerine, and other substances, which form the pipal ingredients of most so-called hair growers.

Newb's Hairdressing is successful because it attacks with the parasitic germ which is on the hair roots.

It is the only real and only genuine scalp goods manufactured.

Sold by leading druggists. TWO SIZES 50c and 25c 10c in stamps for Sample the Herpelde Co., Detroit, Mich.

MAYOR WILL ASK FOR \$10,000 GRANT

Report of Carnegie Library Committee Adopted by Council—Routine Business.

The question of a Carnegie library was before the council again at last night's regular meeting and His Worship the Mayor was authorized to make application to Andrew Carnegie for a grant of \$10,000. A recommendation to this effect was embodied in the report of the Carnegie Library committee which was adopted in committee of the whole without amendment, when a vote was taken on the report Reeve Buchanan and Ald. Sutherland were the only ones opposed to it.

Briefly discussing the matter Reeve Buchanan said there were matters of much more importance than the Carnegie library which should receive the attention of the council. The council, he said, was not elected for the purpose of securing a Carnegie library, and further, the people should be given an opportunity to express themselves on the matter. Personally, the mayor said, he was not in favor of securing the library, and he ventured the opinion that there were others who did not feel disposed to accept charity from Mr. Carnegie. Mr. Buchanan in conclusion, continued the council to adjourn.

The vote on the motion for the adoption of the report was as follows:
Yeas—Coleridge, Mills, Richardson, Patterson, Elliott, Skinner.
Nays—Buchanan, Sutherland.

COMMUNICATIONS.

From W. A. Sudworth, secretary of the board of education, stating that W. E. Kennedy had vacated his seat and requesting that the position be filled by the council.

From the R. C. separate school board, stating that they propose building a cement culvert to carry the water from the property and leaving a vacant space between the present culvert and the proposed one. They requested the council to build the present culvert across Bell street and carrying the culvert through the property and leaving a vacant space between the present culvert and the proposed one. They requested the council to build the present culvert across Bell street and carrying the culvert through the property and leaving a vacant space between the present culvert and the proposed one.

Paterson & Patterson, solicitors for the board of education, advised that the water at the corner of Francis and Albert streets is being allowed to flood her property there on account of some defect or stoppage in the tile or drains in that neighborhood. They mentioned that they had received instructions to take immediate proceedings to prevent further injury to her property unless the matter is remedied at once.

Residents on the west side of Wellington street, south of Canterbury street, petitioned for a composition stone walk four feet in width to the northerly limit of W. E. Butler's property.

Chief Wright reported collections for the month of July amounting to \$1,524 and deductions on electric light amount \$13.66.

The communication from Paterson & Patterson, solicitors for the board of education, was referred to the board of works to take such action as they may deem necessary.

THE REPORT.

The report of the Carnegie library committee was as follows:
To the Mayor and Members of the Council:
We, your Carnegie library committee, beg to report as follows:
(1)—We find that the sum of \$500 is now being expended out of the general rate for the purpose of maintaining the present library; and we also find that the library board is entitled, under the statute, to demand at any time, one-half mill on the town's assessment, which at the present time would give an amount of \$975 yearly for library purposes and this amount is considerably more than would be required if a grant of \$10,000 is received from Mr. Carnegie, after allowing for the amount received from government grant, fees etc.
(2)—We find that the revenue from all sources for the library at present is as follows: Government grant \$10,284; fees, fines, etc., \$65.45; town assessment, \$900, making a total of \$11,369.55, showing that the net increase for the Carnegie library would only amount to \$225.00 according to last year's figures. As the government grant is based on the number and quality of the books purchased, this additional amount required would no doubt be materially decreased if a new build-

ing were erected, on account of a large grant being received.
Your committee would, therefore, recommend that the mayor be and is hereby instructed to make application to Mr. Carnegie for a grant of \$10,000 for the purpose of erecting a public library building in Ingersoll.

J. L. Paterson,
Chairman.

FIRE, WATER AND LIGHT.

The fire, water and light committee recommended payment of the following accounts: B. L. Scott, \$21; C. H. Crawford, \$25.00; W. H. Jones, \$5; A. C. Foy, \$5; A. Beattie & Co., \$1.35; W. C. Forman, \$2.20.—Adopted.

BOARD OF WORKS.

The board of works reported as follows:
(1)—That the following accounts be paid: Geo. Wilson, \$2.75; C. P. R., freight, \$1.55; Ingersoll Foundry Co., \$2.50; R. Whitlaw, \$9.58.
(2)—That Wm. Waterworth be granted permission to tap the corporation drain at the corner of R. H. and Oxford streets, subject to his signing the usual agreement.
(3)—That the board of works be granted the sum of \$800, from the contingent fund for the purpose of completing the general work.—Adopted.

FINANCE COMMITTEE.

The following report was submitted by the finance committee:
That the following accounts be paid: G. N. W. Tel. Co., \$1.39; Bell Telephone Co., \$2.70; The A. A. Langford Co., \$1.75; Wood & Co., \$1.25.
(2)—That the income assessment of J. S. Cameron for 1907 be rebated same being error in assessment.—Adopted.

INDIGENT COMMITTEE.

The report of the indigent committee recommended payment of the accounts of James Childs, \$9, and Geo. Bloor, \$12.50.—Adopted.

MARKET COMMITTEE.

The market committee reported as follows:

(1)—That the following accounts be paid: John Robinson, \$4.50; Andrew Robinson, \$3.50; Ingersoll Gas Light Co., \$3.50.
(2)—That the request of the Ingersoll Poultry Association for the free use of the town of Ingersoll for the 4th, 5th and 6th be granted on the same condition as last year.—Adopted.

The following special constables on July 24th, were paid at the rate of \$1.75 each: Chas. Foster, H. Bears, Harry Swartz, B. Cable and W. C. Wright.
A motion carried that the request of the R. C. separate school board and that they be instructed to build a culvert from the south side of the bridge on Bell street to their property, limit at cost not to exceed three dollars per foot, same to be charged to the board of works.
The sum of \$800 was placed to the credit of the board of works.

(1)—That the board of education, as ordered by F. Richardson, seconded by W. Mills, "that the payment of the debentures issued under Bylaw No. 258 and interest on debentures issued under Bylaw No. 255 be placed in the hands of the finance committee with power to instruct the treasurer to pay same."

The sum of \$150 was placed to the credit of the board of education.
The Mayor Coleridge reported verbally that the railway committee had forwarded a request for the railway commission for fees for the protection of the Grand Trunk in accordance with the verdict of the coroner's jury, touching the death of the late Wm. McIntyre. He also mentioned that a reply had been received from Mr. Cartwright stating that the matter would be laid before the railway commission at the earliest opportunity.

Mayor Coleridge brought three matters to the notice of the council:
(1)—That the residents of Harris street, between King and Canterbury streets, were pressing for improvements to the street.
(2)—That the approach to the lane between the Mansion House and the Lane was in a bad condition.

A motion carried that the verbal report of His Worship the Mayor re improvements on the northeast corner of Charles and Thames streets be referred to the board of works to report at the next meeting of the council.

ACCOUNTS.

The following accounts were ordered to be paid: Electric Light Co., \$195.28; W. H. Jones, \$1.24; W. E. Law, \$1.50; D. A. Bonesteel, \$1; T. A. Bellamy, \$5.

An adjournment was made at 9.15.

OH, FOR A CLEAR COMPLEXION!

A clear complexion is the outward evidence of inward cleanliness. In bad health the face becomes a sign of disease, telling of disease within. If yellow bile is not properly secreted, it pallid, the kidneys are faulty, if skin is murky and dark circles beneath the eyes, look for constipation. Whatever the cause, no remedy compares with Dr. Hamilton's Pills, which are mild, safe, purifying, and vitalizing in their action. They give a marvellous rosy tint to the cheeks, brighten the eyes and establish health that defies age and disease. Sold everywhere in 25c boxes.

MEN KILL SELVES WOMEN LIVE LONG

Strenuousness in Chicago Makes a Marked Change in the Death Rate.

Chicago, Aug. 5.—The strenuous life is killing the men of Chicago at a tremendous rate, while the women of the city are increasing their longevity by the simple life.

In the weekly official health bulletin issued yesterday, Health Commissioner Evans declared that a few centuries will see Chicago an Adames Eden.

He draws his conclusions from the death rate in Chicago for 20 years and especially the last five months, when five members of the stronger sex died for every two of the fairer. Dr. Evans makes the startling statement that during the last seven months of 1906 in Chicago about 12,000 men succumbed as compared to 8,000 women. He says that in the last year the ratio of difference in the death rate between men and women has been thirty against less than ten per cent twenty years ago.

The cause for this is attributed by the physician to the strenuous life. Contributory are the quick lunch and carelessness.

The men, he says, are living at a rate that is thirty per cent faster than that of the women. They work harder. They take less care of themselves than their wives and daughters. They court danger. They dissipate more. They exhibit a carelessness begotten of a familiarity with danger.

The remedy, according to an imminent physician, lies in the return to the simple life of our fathers.

LITTLE LOCALS

Edwin Adair, Toronto, is visiting at his home here.

Miss Annie Layton of Detroit is holding at her home here.

Mr. Thos. Seldon, who has been summing at Fort Keewaywin, Muskoka, is in town.

Miss White of Toronto returned home this morning after spending a couple of days in town, the guest of Mr. and Mrs. Geo. Beck.

Mr. and Mrs. Gillis McPherson of Guelph, are the guests of Mr. and Mrs. J. A. McCullough, King street west.

Reg. Bloor has returned from Providence Bay, Manitoulin Island, where he was playing ball with the team of that place.

Miss Mabel Hargan and Miss Hattie Morrow left yesterday to spend a couple of weeks with relatives and friends at Alpena, Mich.

NOTICE

Dear Sir,—I have much pleasure in acknowledging receipt of cheque from the Equity Fire Insurance Co., Toronto, through their local agent, Wm. Dundas, for loss by fire in the store window on Saturday, the 20th July last.

The promptness of this company in paying fire losses is very commendable and should receive the patronage of the insuring public.

Yours truly,
A. F. MacDonald.
Ingersoll, Aug. 2, 1907.

THE WEATHER.

Lower Lakes and Georgian Bay.—Moderate to fresh southerly to southwesterly winds, mostly warmer, but a few local thunderstorms.
