

The Board presents \$5 to every pupil who passes the Intermediate or II. Class Examination. The boy and the girl who obtain the highest number of marks at the Semi-Annual Entrance Examination, receive \$5 each, after one year's regular attendance at the High School.

In addition, \$100 worth of Prizes are awarded in July.

DISCIPLINE AND MORALE.

The government is firm but not arbitrary, strict but not harsh. It is founded upon confidence in the pupils, and its tendency is to teach them self-respect, courtesy to others, obedience to principles, and a conscientious regard for what is right. Slang, coarseness, profanity, and such like, are not tolerated. Diligence, self-control, refinement of manner, and nobility of character are fostered in all possible ways. No pupil will be allowed to retain his or her connection with the School, whose example tends to encourage indolence or insubordination, or whose influence in other respects is injurious. The Head Master will GRATEFULLY receive from parents or guardians any suggestions regarding the treatment of their sons, daughters or wards, and EARNESTLY solicits their hearty co-operation.

PUPILS FROM THE COUNTRY.

It is gratifying to know that the number of pupils from the country is rapidly increasing, and already they outnumber the town pupils. Moreover, it is found that they are equally successful, and in not a few instances surpass their class-mates from the Town. The efficiency of the Public Schools is well attested by the excellent stand which many of the pupils are able to take on entering, and while pursuing their studies at the High School.

If parents not residing in the Town so desire, the Head Master or one of the Trustees will be only too glad to exercise a kindly surveillance over their children, finding suitable boarding houses, visiting them occasionally, providing Church-sittings, and having regard generally to their comfort and well-being.

PUPILS FROM THE TOWN.

Whilst the Town is at present well represented in the School, both in numbers and talent, still it will be readily acknowledged that the "Market of the West" should have the "College of the West." With the advantages which Chatham High School now offers, it is deserving of far more patronage from the townspeople than it has yet received. It is a great mistake to suppose, because our children are destined not for the Professions, but for business or the trades,
