> A MILL STREET BLAZE. Three Segee Wooden Buildings Badly Damaged by Fire Last Night.

(From Friday's Daily Sun.) Fire was discovered last evening shortly after ten o'clock in the Segee block,. Mill street. An alarm was sent in from box 8 Where the clear blue waters rose and fell O'er rocks that had for ages been and also from box 213. This caused some confusion and perhaps delayed the firemen a little. At any rate the flames had got a pretty good start when the first stream was turned on. Just where the fire broke out no one appears to know, but those who were early on the scene say that all the fire was in the rear of the electric laundry, in the middle building when they saw it first. The middle building when they saw it first. The buildings are all wooden structures, as dry as snuff, and the fire spread in a moment and very soon had possession of the Salva-tion army barracks. An interesting event took place Wednesday at the residence of Rev. Father Byrne at Norton, Kings Co., when M. Gertrude Kelly, only daughter of Michael Kelly of Young's Cove, Queens Co., was united in marriage to James L. Corcoran of north end. Rev. Father Byrne tied the knot. The newly married couple arrived in the city by the evening's train and held a reception at the residence of Mrs. Thomas Corcoran, where a sumptuous repast was partaken of by a large number present. The young couple are popular with their friends, the groom being well known in the north end, and the bride will be greatly missed among her young friends at Young's Cove. A number of the bride's friends accompanied her and were present from Young's Cove and vicinity, where the bride took an active part in social circles. Mr. and Mrs. Corcoran will

SAILING ON A BICYCLE.

For the last few weeks there has been in the vicinity of New York another new de-velopment of the bicycle idea. This is an arrangement made by Mr. Christian Ganz, of Omaha, Nebraska, by which he can set a sail from the handle of his bicycle, and on the back with the wind cheme can traa level road, with the wind abeam, can tra-yel all day without using his own strength at all, except to check the speed of the bicycle when the wind forcs it ahead too fast. The sail is adjusted in the follow-ing manner, and any tright boy can amuse himself by making a sail for his own bihimself by making a sail for his own bi-cycle. Mr. Ganz has taken a stout pièce of inch-and-a-half or two-inch plank, cut it into a circular shape possibly five or six inches in diameter, and by making a deep notch at one point from the circumference in to-wards the centre, has fitted it securely around the forward support of the bicycle-just below the handles. Through this disk a hole is made, precisely after the nanner of a "step" for a mast in a row boat. The light bamboo pole or mast is then inserted through this hole, and fastened securely be-low by stout twine or wire around the sup-port of the bicycle. The pole itself is seven feet high, and the boom of the sail is six feet long, with a gaff of about three to four feat.

The sail is of light silk or cloth, and is

bent on in the same manner as an ordinary boat sail. The foot of the boom, however, is

boat sail. The foot of the boom, however, is attached to the mast with a goose-neck, that allows the rider of the bicycle to tip the boom itself up against the mast at any time he chooses; and it in this way that he "tacks ship," by lifting the boom over his head to the other side. Mr. Ganz has covered one hundred and eighteen miles in a day with this sail, with almost no work except checking the speed of his bicycle. He is confident that on a straight macadamized road he can easily do two hundred miles with the wind abeam. which is the most favorable direction to have it come from.—Harper's Young People. covered with a veil. I couldn't speak: it was as if my tongue was frozen. She put her hands on my shoulder and looked up into ny face."

"What was she like ?" demanded the president.

"Your excellency, I cannot describe der. I only saw her eyes, then, and they were on fire and went right through me. She told me much that I cannot recall, for I was looking, not listening. But at last I understood her to be talking of her brother in the mine. She said she had come all the way from Russia to see him, and that

he was dying. "She said that if I would let her into the mine for a few minutes she would . always pray for me and devote her whole life to making me happy. "Her great black eyes bewitched me and I believed her. I said nothing, but pointed to the mine, and in a mo-

ment she had fled into the dark opening to the gallery. I never thought of what I was doing. I was dazed and stood stock still, and the snow kept falling all the time and the night was growing darker. I had my eyes fixed on the entrance and saw the figure emerge and run toward me.

"''Soldier,' she said, 'you have made me happy for life. Make yourself happy and fly with us. Let my brother pass. I will lead you and him to a place where we will be happy together. Be good to me, soldier, and I will give you all you ask from me. I will be yours; I will live for you and

die for you.' "Don't smile, excellency. I was in-tcxicated with her words. I believed who loves as I do can fail in nothher. Her arms were around my neck ing." and her face was lovely as the Madonna's. I seized my rifle and flung it with all my strength out into the snow. She put a file into my hands and I followel her to the gallery. There the darkness was thicker still, but we groped our way to where a man stood chained to a thick wooden stanchion. Three years after a man and a woman on Ellis island suddenly encountered each other.

She starts and gasps: "The soldier !"

While he exclaims:

"The woman !" There is no time for more. She has passed the inspectors and hurried to the little steamer that is to convey her to New York. He is pushed back, for the inspectors may not reach his case for a day or two.

But he lands at last. Where shall he find her? He finds employment and then for six months spends all his leisure in the quest. At last he meets her. She is coming out of a theatre. He touches her sleeve. No word is spoken then, but as if by mutual instinct, they enter the nearest cafe.

Five minutes later he has said: "I have always loved you. You belong to me. Since you say your husband is dead, you are mine."

"But you have no money," glancing at his shabby clothes.

The next day they were married by

a priest of the Greek church. Was it love or gratitude that prompted the woman, upon her third brief meeting, to grant so much ?

The priest, gazing after them as they departed, murmured: "I have united a goddess and a
