

ST. JOHN STAR, FRIDAY, NOVEMBER 2, 1906.

FIVE

In Damp Weather
—WEAR—
"Maltese Cross" Rubbers.
They Lead in Fit, Style and Wear.

RUSSELL SAGE used to say—
"That the physician may recommend a change of air for the man who is ill; but why be ill? Illness is nothing but an irreparable loss of time."
Many of the ordinary ailments of the day are caused by damp feet. Take no chances. Wear Rubbers.

Waterbury & Rising,
King Street. Union Street.

St. John, N. B., Oct. 31, 1906.
Every Winter Overcoat
On our racks for men was fresh made this fall—not a single one carried over from last winter. Besides, every Overcoat here was made to our special order from wools selected by us in the place, and because we buy and sell for cash only we can and do sell them to you for less than you can get equally good overcoats for elsewhere.

MEN'S TWEED OVERCOATS . . . \$6.00 to \$15.00
MEN'S MELTON OVERCOATS . . . \$12. to \$18.00
MEN'S BEAVER OVERCOATS . . . \$10.00 to \$20.00

COMMERCIAL.

WALL STREET.
NEW YORK, Nov. 2.—The stock market opened irregular. The London stock market upon the resumption of trading after the holiday did not take up fully the advances the Americans

market, but the rise in other important railroad stocks was not large. More interest was displayed in the specialties, particularly in local public utilities. The high prices of Northern Pacific and Great Northern preferred indicated gains of 5-14 and 9-14 respectively, some of which were lost when the realizing began. Elsewhere the advances reached two points in Delaware and Hudson, 1-4 to 1-3 in Brooklyn Transit, Con. Gas and Lead, and 1 in Amalgamated Copper and Knickerbocker Ice. Isolated declines reached two in American Lined preferred, 1-4 in National R. R. of Mexico preferred and 1-8 in St. Louis and San Francisco second preferred. The market became quieter but was near the top prices at 11 o'clock. Reading, Union Pacific and Smelting rising a point.

PLANS FOR BANK'S SAFETY.
B. E. Walker, of the Canadian Bank of Commerce, says:
"1. No one man should be put in charge of a bank without check or inspection. He should not himself permit it, and the directors should not permit it."
"2. Every general manager and other important officer should have associated with him some men—or one man at least—to divide his responsibility, to aid him with advice, and capable, at a moment's notice, of taking his place, if necessary."
"3. While the directors cannot be expected to count the cash or attend to many details, they are responsible for the way in which and the persons to whom they delegate their authority. They should not abdicate their functions, but should keep in touch with the affairs of the institution. And their powers should not be turned over to any one man, responsible to nobody, but to an organization whose members should be men of undoubted character and ability and who will check one another. There should be a double check on every transaction."

PAID THE USUAL DIVIDENDS.
The directors of the United States Steel Corporation declared a quarterly dividend of 1/2 cent on the common stock. This is the same as the last dividend on the common stock. The directors also declared the regular quarterly dividend of 1/4 cent on the preferred stock.
The net earnings for the quarter ending September 30, were \$3,114,624, as compared with \$3,246,582 for the corresponding quarter of last year. The unfilled orders on hand on September 30th were 7,595,884 tons, as compared with 5,885,277 on September 30, 1905. The unfilled orders exceed in volume those of any other quarterly report by the corporation. The highest quarterly record reported was on December 31st, 1905, when they amounted to 7,695,088 tons.

PRINCE RUPERT.
The G. T. P. Terminal City is
Beginning to Take Form
The First Street is Now Being Planted
and Houses Are in Process of
Construction.
VANCOUVER, B. C., Nov. 1.—Prince Rupert, the newest Transcontinental Railway terminus on the Pacific coast, already has a population of several hundred and expects within three months to be lighted by electricity. A big English company, ultimately will light the town, but for the present the current for illuminating purposes will be furnished from the sawmill plant of the British Columbia Ties and Lumber Company, which has been erected at Prince Rupert to carry out several important contracts with the Grand Trunk Pacific. Mr. Russell, who for some time was confidential agent for the railway company on the coast, has been appointed postmaster and customs collector at the new terminal. The townsite, which a few months ago was covered with timber, is being cleared and altogether Prince Rupert, the new city, bears an appearance just like Vancouver when the C. P. R. arrived here in 1888. Thomas Dunn, formerly of this city, but who has now joined a big firm which is starting at Prince Rupert, said in an interview:—
"Engineer Pillsbury of the Grand Trunk Pacific has seventy men at work laying out the townsite and already the first street, which is 100 feet wide and starts at the wharf, is being planked. The clearing of 300 acres of the townsite will be commenced right away. Lumber for the construction of the houses which the railway company will build at Prince Rupert had commenced to arrive before I left for the south."
"J. Moore, locating engineer of the Grand Trunk Pacific, is engaged surveying the route the line will take on Kien Island. There are five survey parties on the island also. Dominion Hydrographic Engineer Dodge is making surveys of the harbor and contiguous waters. He will remain there all winter. The harbor of Prince Rupert is one of its greatest attractions. It is absolutely landlocked and there is ample expanse of water to accommodate the shipping of the Pacific. Prince Rupert itself has a water frontage about twelve miles long."
WINNIPEG'S FIRE PROTECTION.
The City of Winnipeg, at a recent meeting, placed an order for 5,000 feet of 8 1/2 inch high-pressure hose, for fire protection purposes. This is one of the largest single hose orders placed by any western corporation, and the successful tenderers for supplying the hose—The Canadian Rubber Co., of Montreal, Limited—obtained the business in the face of some very sharp competition. The Canadian Rubber Co. of Montreal, Limited, have also obtained from the City of Winnipeg an order for 5,000 feet of wax and gum treated "Keystone" fire hose. It is reported that the "Keystone" brand of hose was specified by the City of Winnipeg on account of its known and tried superiority over other makes.

Our Milk Keeps
much better than that handled in the old way. Cooled by patent coolers as soon as milked, the animal heat is driven out, and keeping qualities improved. Tested daily.

DIED OF POISONING.
The death took place at 62 Almon street at an early hour this morning of Mrs. Louise Dean, aged 55 years, wife of John Dean. The cause of death was poisoning, and the medical examiner gave a certificate of death to that effect. Late last night Mrs. Dean's family heard a strange moaning in her room, and on investigating found that she was suffering from poisoning, having taken a quantity of "Rough on Rats." A physician was called, and although he did everything possible to save her life, she passed away a couple of hours later. It is believed that some time after she was in her room she went to the mental to get a powder and by mistake swallowed a quantity of the poison. She is survived by a husband and three daughters who will have the sympathy of their friends in their bereavement.—Halifax Record.

PERSONALS
