whether this ring had been paid for or not.

The dutiful son had another method of getting money out of the parental purse, though, after \$5,000 had been taken from it in the way already described, the amount left was not so very large. He had a younger brother, Richard, who last winter attended the Maritime Business College, but left there without completing his course. This young man was said recently to have obtained a position with the bank at Woodstock, N. B. The father was written to by Guy and asked for \$1,000, which would be used to secure such a position on the staff of the bank. It was necessary, so the letter ran, that this money should be forwarded to Guy as security for Richard to the bank. Such in effect was the proposal made, but the scheme did not work. The father could not see that any such payment was necessary to secure Richard's job and the money was not forthcoming. Guy M. McGallum Obtained housands of Dollars from His Father to Withdraws the Money and Leaves for Parts Unknown---His Mother's

It is not supposed that at the time there was any suspicion on the part of the parent that the \$8,000 was deposited in any other way than that which was shown by the bank book held by him with the bogus entries. He had no idea whatever of the other book, with the genuine entries, which showed the money in the son's name. Guy McCallum knew the value of credit. He had not a large amount of money, for he was only a bank clerk, but a year age his grandfather was known to be rich and Guy was able to set credit with brokers and others by telling them a fairy tale to the effect that he was a favorite grandson, the only son of the name, and that he was to be helr to an amount much targer than might naturally be expected. This story worked successfully to a certain extent, and partially explains how occasionally he could buy stocks that otherwise he would have found an impossibility.

(Halifax Herald, 28th.)

Guy M. McCallum was a clerk employed by the Boyal Bank of Canada up to within a week or so ago. He had been for six or seven years on the staff of that institution his work latterly being confined, it is said, to the adjusting department of the head office in this city. He was considered an efficient clerk and stood fairly high in the estimation of the bank.

Facts that have transpired within the past week show that this confidence was misplaced, not that the bank through him lost much, if any, of its funds, but the young man's father is a loser to the extent of \$11,000 or so, and his mother save a mote for \$2,000 which was realised on, and which was endorsed by him. This note is held by F. B. McCurdy 2. Co.

The story of young McCallum's career during the last few months is not uninteresting. He lived well boarding at the Element of any care.

went on. It was a method profitable enough, however, to enable the young man to live well, to do some stock speculation and to buy diamond rings once in a while. A recent purchase from M. S. Brown & Co. of an article of this kind meant ar outlay of \$250. It was not possible, last night, to learn whether this ring had been paid for or not.

No Progress Was Made—Mr. Bell John's Protest Was Read.

(Special to the Sun.) OTPAWA, May 27.—In the railway committee, further consideration of the Grand Trunk Pacific bill was opened

this morning with the reading of a protest from the St. John Board of Trade against the granting of a charter unless the interests of the maritime provinces were protected.

Mr. Bell insisted on the bill being placed in such a form as to meet the wishes of the people of the maritime provinces, who were almost unanimous in the opinion that the read must have provinces, who were almost unanimous in the opinion that the road must have its terminal at a Canadian port. By changing the route of the road so as it will pass north of Lake Winnipeg, a direct line can be secured which will greatly reduce the distance to St. John and Halifax. The Grand Trunk Pacific must be entirely independent of the Grand Trunk, which would simply use the new road as a feeder. He would favor giving the charter to some

The premier himself was afraid that even legislation could not centrol the Grand Trunk so as to have Canadian ports. With such suspicion fixed in the minds of the people, the Grand Trunk was the last company which should be selected to receive assistance. HALIFAX, May 27.—The big Hamburg-American liner Bulgaria, with over 3,000 souls—on board, including passengers and crew, from Hamburg and Boulogne, arrived this morning, and after passing quarantine inspection docked at the deep water terminus. She had fine weather throughout the passage with the exception of one day. She saw no ice. She was delayed for about two hours by a slight derangement of the machinery. She had 2,898 passengers on board, and the big ship, with her deeks crowded with people, having their first glimpse of the country in which they were to make their home, and in the garb of their various nationalities, presented a unique sight.

There were ten different nations represented among them, the bulk of them Austrians, but there were also Hungarians. Russians. Germans, Swiss, Bulgarians, Italians, Roumanians, Syrians and Greeks.

They are a better lot than usual among the Galicians, strong and hearty, and many of them possessed of money. There were an immense number of children among them, fully one-fourth being under 14 years.

C. OF ENGLAND S. S. CONFERENCE

ST. STEPHEN, May 27.—The Church of England Sunday school teachers' conference for the diocese of Fredericton, under the direction of the standing committee of the synod, opened its sessions yesterday afternoon in the school house of Christ church, his lordship the bishop presiding. Rev. H. Montgomery was chosen chairman.

After an appropriate opening address by the hishop, a few words of welcome to the members of the conference were said by Rev. Canon Newnham and by Rev. F. Robertson, rector of Trinity. Rev. W. H. Robinson of Calais and his teachers were formally invited to attend the sessions and take part in the exercises of the conference.

Papers on the training, equipment and personality of Sunday school teachers were read by Very Rev. Dean Partridge, Rev. H. E. Dibblee, M. A., rural dean of Fredericton, and Rev. H. A. Cody. The subject was followed by a paper on class discipline by R. W. Allin, B. A., of Rothesay.

The evening session was held in Trinity church school room, when Rev. John de Soyres, M. A., spoke on what the Sunday school is doing for parents, and Very Rev. Dean Partridge on what it is doing for church and state,

Woodland there, which was one of the best tracts in the country and was owned by a dozen or more residents of Preden-Haut and vicinity, was burned over a year ago and it was decided in order to save lumber to cut it all down. This was done last winter and a rotary mill was put in and lumber cut up and piled ready for hauling to a place of shipment. The mill had finished and the men had been paid off, but the watchman was still on the premises. The fire caught from a stove pipe used in the kitchen of the camp that had been occupied by the men. The deals had been sold to W. B. Dickson, buyer for W. M. Mackay. Some advances had probably been made on the cut, but Pred en-Haut people will be the principal losers and they are practically out of their winter's work, besides much valuable timber. the Government in the Most Momentous Debate of the Present Parliament---On the Eve of Disso-Against Germany and Also Against United States Trusts.

(Associated Press.) LONDON, May 28.—Mr. Chamberlain

has again proved himself the strong of the present parliament, he, in a frank and bold speech, further developed the policy which would be universally regarded as an entire reversal of Great Britain's fiscal position and at the same time, he proved that he has managed to carry the government with him against their convictions.

The impression left on the minds of the crowded chamber was that the country is on the eve of a dissolution and that, as in 1890, Mr. Chamberlain carried the country with him on the South African war policy, he has now converted his colleagues to the belief that he will be able to carry it again to the policy of professional states. on the policy of preferential trade within the empire.

In addition to asking for a mandate to tax food he asks for power to en-gage in a tariff war with Germany on Canada's account and to fight the American trusts.

The debate practically ended with Mr. Chamberlain's speech and the house emptied into the lobbies, few itstaying to hear Winston Churchill de clare hostility to the colonial secre-tary's policy. What little enthusiasm was displayed was on the liberals' side of the house. The conservatives lis-tened to the speech in chilling silence, indicative of alarm and uncertainty as to the outcome of the unexpected

FREDERICTON.

Board of Trade Will Meet the Chamber of Commerce Delegates

FREDERICTON, May 28.—The Board of Trade has been notified that delegates to the Chamber of Commerce of the Empire, which meets in Montreal this summer, will visit the capital on their tour through the maritime provinces, probably about Sept. ist. The Fredericton representatives to the Montreal gathering will be President Palmer and Secretary McCready.

The city school trustees have decided to continue the manual training system instituted by Sir Wm. McDonald. The arrangement with that gentleman will expire this year, but he has offered the board the plant of one of the rooms of the school free of charge if the system were continued. A committee was appointed to engage a teacher and procure suitable quarters. The resignation of Joseph Mills from the principalship of the Charlotte street school was received.

The annual conference of the Adventists of the maritime provinces opens here tomorrow and will continue in session several days.
