

THE CHANGE OF LIFE

INTELLIGENT WOMEN PREPARE
Dangers and Pain of This Critical Period
Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women at this time draws near is not without reason.

If her system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a burden.

At this time, also, cancers and tumors are more liable to begin their destructive work. Such a woman needs a sense of suffocation, hot flashes, dizziness, headache, dreading of impending evil, sounds in the ears, timidity, palpitation of the heart, and a host of other ailments, irregularities, constipation, variable appetite, weakness and inactivity are promptly healed by intelligent women who are approaching the period of life when woman's great change may be expected.

Lydia E. Pinkham's Vegetable Compound is the world's greatest remedy for women at this trying period, and may be relied upon to overcome all distressing symptoms and carry them safely through to healthy and happy old age.

For special advice regarding this important period women are invited to write to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

FRENCH WARSHIP FOR VENEZUELA.

PARIS, Oct. 18.—The French armored cruiser Desaix, understood to be bound for Venezuelan waters, did not put in to Brest after leaving Cherbourg, October 18th, as it was announced she would do, but passed the Island of Ushant, heading direct for the French Antilles.

The officials here say that the published report that the French squadron intends either to bombard some coast point such as Cumana or Barcelona, or else, seize Venezuelan shipping, is an exaggeration, as the only decision arrived at is to have the squadron, the nature of the demonstration being determined on later on if the attitude of Venezuela requires a resort to force.

In any event the United States is fully advised in advance concerning the nature of any coercive measures.

NEW THOROUGHFARE FOR LONDON.

LONDON, Oct. 18.—The fine new thoroughfare formed by Kings Way and Aldrich, connecting the Strand and Holborn through the heart of congested London, was opened today by King Edward, with considerable ceremonial.

The new street is considered to be the most important improvement carried out in the Metropolis since the construction of Regent street, 1825.

The work occupied six years and cost over \$30,000,000, of which it is estimated that two thirds will be recovered by the sale of building sites.

The thoroughfare is three quarters of a mile in length and a hundred yards wide. The notorious slums of the neighborhood have been eradicated.

Underground trolley cars run beneath the new street.

MYERS-BURGESS.

A pretty though quiet wedding took place in the cathedral yesterday morning at nine o'clock, when Rev. Fr. Meahan united in marriage Miss Mary Burgess, of Joggins, N. S., and William C. Myers, of this city.

LOCH LOMOND FAIR A SUCCESS.

Excellent Exhibits of Live Stock and Vegetables.

The 23rd annual fair of the Simonds and Loch Lomond Agricultural Society was held the 10th inst. The show was well patronized by the farmers of Simonds parish, and a large number of city people were also present.

As to the show itself, all seem to be well satisfied that it was an improvement on former years, particularly in regard to produce.

The special notice should be given to the exhibits of W. T. Boyle and Josselyn & Young, as they are certainly great stocks. Such is the written opinion of the judges, Dr. T. Fred Johnston and R. T. Worden.

The horses also are worthy of mention. The special notice should be given to the exhibits of W. T. Boyle and Josselyn & Young, as they are certainly great stocks.

Following are the names of the judges: Horses, R. T. Worden, Dr. T. Fred Johnston (Dr. T. O. Baxter found it impossible to attend); cattle, Thos. Dean, W. L. Mullin and R. D. McLean; produce, John H. Case, W. A. Porter and R. R. Patchell; domestic work, A. Megarity, James Collins and John H. Vaughan, sr.

The judges as a whole did very effective and satisfactory work. A very good feature of the judging was that the tags that went with each exhibit were marked with the number rather than with the name of the exhibitor.

The numbers of the owners being unknown to the judges, these latter were in a position to decide with greater impartiality than if they had known to whom the exhibits belonged.

The Simonds and Loch Lomond Agricultural Society has been established nearly a quarter of a century. During that period it has done splendid work teaching and helping the farmers and dairymen of Simonds. It receives an annual grant from the government for the purpose of holding fairs. This year it announced that the members subscribed \$100 to meet the expenses of the agricultural exhibition.

The president of the society is W. T. Boyle of Golden Grove, and the secretary, Alexander T. Johnston of Upper Loch Lomond, who has acted as treasurer for 22 years and the combined position since 1899.

DECISION IN FAVOR OF WIFE.

LEAVENWORTH, Kas., Oct. 17.—The divorce suit of Concepcion Vasquez, the Filipino woman, against First Lt. Sidney S. Burbank, 4th Infantry, which has attracted much attention in the army, has been decided in favor of Mrs. Burbank. Word reached Fort Leavenworth today that Judge Bates of the court of First Instance at Iloilo, P. I., had granted a divorce to Burbank's Filipino wife, had given her the custody of their daughter and had allowed her monthly alimony.

Mrs. Burbank brought the action after the lieutenant's return to the United States, and after his engagement had been announced to a prominent young Leavenworth woman. The war department provided counsel for the deserted wife.

Leut. Burbank is now being tried by court martial at Iloilo on charges growing out of the case that has just been decided.

The suit in the Philippines is a different proceeding to that instituted some time ago in Leavenworth by Mrs. Burbank. The Leavenworth case was to have come up this week, but since the court in the Philippines has acted, the Kansas suit probably will be dropped.

BOILER EXPLODED.

CAMBRIDGE, Mass., Oct. 17.—A steam boiler in Waverly Hall, one of the Harvard University private dormitories, exploded tonight shortly after 11 o'clock, wrecking the west side and entrance hall of the building and injuring slightly two women and a boy, who had happened to be in the basement. The explosion caused considerable excitement among the students. According to the janitor, the accident was caused by the check valve falling to work.

TEMPERANCE COLUMN.

THIS DEPARTMENT IS CONDUCTED BY THE W. C. T. U.

OFFICIAL CALL. TORONTO, Oct. 1905. Dear Comrades: The Dominion Women's Christian Temperance Union is hereby officially called to meet in its Fourteenth Convention at Hamilton, Ontario, November 10th to 14th inclusive.

Full executive meeting November 9th, 3 p. m. The membership of convention is provided for in Article III of the Constitution, which reads: "The biennial convention shall be composed of the executive committee of the provincial corresponding, recording and Y secretary and treasurer, one delegate for every one hundred paying members of auxiliary provincial unions, and one delegate for a fraction of a hundred."

Particulars of place of meeting, etc., will be given at a later date. All regular members of the convention will be billed. R. Butler, 233 Main street, Hamilton, Ont., is convener of the hospitality committee, and the names of those intending to be present should be forwarded to her at the earliest possible moment, and also to the corresponding secretary, Mrs. Bascom.

We would remind you of our prize banners. The one presented by our late loved president, Mrs. Ella P. M. Williams, to be given to the province showing the largest percentage of gain during the two years, won by the Northwest Territories in 1903) also the two presented by our first honorary life member, J. Hale Ramsey of Montreal, one for the greatest gain among the Y. W. C. A. of Quebec province in 1903), and the other to be given the province showing the largest percentage of gain in juvenile work (now held by Manitoba).

The organization of the programme is under way and will be full of interest. You will receive it in good time. Hamilton is preparing to give us a hearty welcome, and we trust there will be a full delegation from every province.

Delegates having friends in Hamilton with whom they expect to stay will please notify Mrs. Nicholls. TRANSPORTATION ARRANGEMENTS. Mrs. R. W. McLachlan, 55 Ste. Monique street, Montreal, Que., is chairman of transportation committee, and will be pleased to answer inquiries re railroad rates. A circular of information re railroad rates will soon be sent out.

We have much reason to thank God for His guidance and protection, and will be pleased to answer inquiries re railroad rates. A circular of information re railroad rates will soon be sent out.

TRUE PHILANTHROPY. Mrs. F. R. Currah, Windsor, Ont., will send free to any woman who suffers from female weakness or painful periods a sample of the remedy that cured her.

SOLUTION TO FISHING TROUBLES. WASHINGTON, Oct. 18.—After a conference between Secretary Root and Sir Mortimer Durand, the British ambassador, lasting for an hour and a half, it was announced that a speedy and satisfactory solution of the Gloucester-Newfoundland fisheries controversy was in sight. The facts obtained show that the Newfoundland inspector of revenue protection service directed that American vessels should not be allowed to fish under American register on the ground that they had never done so in the past. Prior to this time the American fishermen had bought bait in Newfoundland under British license. They are now prevented by law from buying bait, and the authorities have been unwilling to permit them to catch herring without a special fishing license. Secretary Root informed the ambassador that the American register is a ship's highest form of nationality and carries with it not only a license to trade but also a regular fish fishing license. As soon as this fact is made clear to the Newfoundland authorities it is expected they will withdraw all objections. Meantime the American fishermen, with the approval of the state department, have been instructed to continue their fishing.

TITLED ALL THE TIME. Mrs. George Beattie, Carr's Brook, Colchester Co., N. S., writes: "Last night I was very much run down, felt tired all the time, and did not seem to have life or energy enough to do my work. Three boxes of Dr. Chase's Nerve Food did me a world of good, and made work a pleasure to me. I have not had occasion to use any medicine since, and have recommended Dr. Chase's Nerve Food to all my friends."

GIFT TO QUEENS. OTTAWA, Oct. 18.—John R. Booth has given \$5,000 to Queen's University endowment fund. The Transcontinental railway commissioners left for Quebec today to attend the banquet of Chairman Farant.

FALL RIVER, Mass., Oct. 18.—M. C. D. Borden today notified the 2,600 operatives of the Iron Works mills, owned by him, that the 13-1/2 per cent. cut in their wages made in 1906, would be restored.

Mr. Borden did not cut wages in July, 1904, with the other manufacturers and his operative did not strike with the others. When the great strike was settled in April, 1905, and the cut was accepted, Mr. Borden announced a reduction in his mills. He is independent of the Manufacturers' Association.

CHATHAM NEWS.

Had Load of Meat Stolen From Hotel Stables.

CHATHAM, Oct. 17.—The weather has been remarkably mild and summer-like. Last night there was quite a display of lightning, which is somewhat unusual at this time of year. The farmers have secured the greater part of the season's crop, which is a good one in general, both as regards quantity and quality.

At the beginning of our year let me urge the importance of keeping a very careful account of work, in order to have complete reports at the next convention. We cannot let the first months of the year take care of themselves and try at the last to have full reports. Please, sisters, bear this in mind and save your provincial superintendents trouble at the end of the year.

May I suggest to presidents of local unions the great advantage it will be to them and the members if the meetings are carried on in a parliamentary way. No matter if the meeting is small it adds dignity and educates the members to make the most of the time by the intelligent discussion of the various subjects.

In a short time the year book will be in your hands, and a careful study of it will show you the plans for the coming year.

And now, dear sisters, I will ask your kindest and most loyal support for the officers who are to serve you during the year. Remember them at the throne of grace, and strive to hold up their hands in their work. Let us claim for special study 1st Corinthians, 13th chapter, and strive to square our lives by it in relation to each other. I trust to hear from many of you during the year.

Yours in the work, W. M. GRAY, President. NELLE ASKER, Cor. Sec.

EDGAR CANNING in A'bert and Westmorland Counties, N. B. F. S. CHAPMAN in Kings Co. N. B. J. E. AUSTIN in Sunbury & Queens.

ANDOVER. ANDOVER, Oct. 16.—On Saturday morning this community was grieved to hear of the death of G. Wilton Fortner, which occurred at his father's residence. The deceased was the eldest son of Joseph B. Porter and nephew of Senator Baird. For several months past he has been in poor health, and the best medical attention failed to help him. He was a young man of much promise. Born at River De Chute, this county, educated at the common schools and St. Martin's Academy. At the time of his sickness he was engaged in conducting a general store at the Upper Corner in this village. Much sympathy is felt for his father and mother in their sorrow and grief. The funeral took place today at 12 o'clock. Services were conducted at the house by the Rev. Mr. Squires, pastor of the Methodist church, assisted by the Rev. Mr. Bedell, rector of Trinity church. Interment was in the Episcopal cemetery at Bairdville.

A farmers' institute meeting was held on Wednesday evening last at Carlingford. The Hon. Mr. Feltus, in his mission of agricultural work, was present and acted as chairman. Duncan Anderson from Ontario and A. S. Dow of Woodstock were the speakers. Mr. Anderson talked on rotation of crops and the growing of clover. Mr. Dow spoke of advantages of dairying farming.

On Thursday evening they held a meeting at Lower Perth, after which they visited Gladwin and Upper Perth. On the 19th inst. they held a meeting at Edmundston and Fort Kent, Maine.

The steamer Senlac that runs on the South Shore route is again in trouble and will be off the route for a few days. A telegram was received here Tuesday by Wm. Thomson & Co. to the effect that she had broken in the blades of her propeller in the vicinity of Lockport, N. S. Tuesday evening the tug Lord Wolsey left here to tow the steamer to Yarmouth, where the new blades will be fitted to the propeller. The steamer carries two extra blades, and the other will be sent to Yarmouth by express. After the steamer arrives at Yarmouth it will take but a short time to complete the repairs.

BLOOMFIELD STATION, Oct. 18.—H. D. Raymond, who has been to England during his vacation, and only spent a very short time at home here, has returned to Toronto to pursue his last year's course at Wycliffe College. B. A. Watmore, who for more than a year has been at work in St. John, has taken charge of Mr. McKean's farm in Albert Co.

F. L. Titus has been making very extensive improvements to his barn, moving two of them and fitting up cement-floored stables. By putting two windows in the roof of the school building over the primary department, a commodious and well lighted room has been fitted up for manual training, which, however, will not be taken up till next term, the teacher, Miss Ricketson, being now at the Normal School qualifying for the work.

A plot of ground has been cleaned off and ploughed so as to be in readiness for a school garden next spring.
