

THE ACME HEEL TRIMMER

Pat'd in the United States, England, France and Germany.

THIS new machine, for Trimming or Shaving the Heels to Boots and Shoes of all Grades and Styles, is now offered to the trade as a **Perfect Heel-Trimming Machine**. This machine has not been RUSHED upon the market before it had established any claim to merit, but it has earned the enviable reputation it holds to-day by its performances in many New England shoe factories, where it has been tested on all kinds of work beside other Heel Trimmers, which were claimed to be the "Standards." The many testimonials which we have from manufacturers who now own and use the "**ACME**," will be interesting reading to any one engaged in the manufacture of Boots and Shoes, and we shall be glad to furnish them to any who may apply for them.

The Acme Heel Trimmer Co.,
19 HIGH STREET,
BOSTON, MASS., U.S.A.

Boston, November 20th, 1889.
