While no date has been fixed as yet for the by-election which will be necessary consequent upon the placing of the Minister of Health on a salary basis, it appears to be a determination of the opposition to run a candidate against Hon. Four drunks were looted Sunday and Ernest Sergeant was arrested on a double liquor charge by Inspectors McAluish and Kerr.

Police Sergeant Power, Detective Biddiscombe and Donahue made a raid on No. 23 Brunswick street at 10.30 p. m. and arrested Miss Lottie Spencer on the charge of selling liquor in her place of business. **COLD WEATHER AND THE SPRING TIDES**

Gaspereaux Fishermen Had Rather Poor Luck Last Week—Good Catches Are Expected This Week.

This week the tides will be normal, and the same warm weather arrives, the fishermen expect to make good catches. Owing to the backward season some of the fishermen only got their nets ready last week.

**Mass Meeting of Hebrew Population**

M. Kadishewitz of Montreal the Speaker in Carleton St. Synagogue Last Evening—Want Funds for Palestine Restoration.

A mass meeting of the Hebrew population of the city was held last evening in the Carleton street Synagogue. The purpose of the meeting was to make a special appeal to the local Jewry on behalf of the Palestine Restoration Fund.

During the recent San Remo conference, Imperial statesmen declared that Palestine was to be the Jewish homeland, and that it would be under the protection of Great Britain. That has been the dream of Hebrews the world over for years, and in the hope that one day that dream would be realized, they long ago initiated this Palestine Restoration Fund. Some of the most prominent men in the commercial and banking worlds of New York and London are the trustees of this fund. For years from all parts of the world Hebrews have been slowly going back to Palestine. Since the cessation of hostilities this migration has been more pronounced.

It is estimated that more than 200,000 Jews have within a very short time worked their way back to the homeland. Many of the families that have gone back need assistance. Moreover, there is an immense amount of work to be done to make it a country fit to live in.

Moreover, now that its future as the Jewish homeland is assured it is expected that thousands more will return. Hence an immense amount of capital is needed.

During this week a special drive is being made over the world for the Restoration Fund. Canada's quota is half a million.

The meeting in the Synagogue last evening was addressed by M. Kadishewitz, long ago settled in Montreal, who has devoted his life to the cause. Judging by the interest which the gathering paid to the appeal of M. Kadishewitz and from the remarks of different speakers at its conclusion there does not seem any doubt that the Hebrews of this city will respond fully.

**Technical High School At Moncton**

Local Trade Union Official Says Moncton is Talking About Technical School or College.

"Moncton is talking about a technical high school or technical college as if St. John was not on the map or worth consideration anyway," remarked a local trade union official who has just returned from the railway bureau.

"The way they talk there you would think that Moncton was the chief industrial center of the Province, and entitled to everything that comes along. Professor Peacock, the technical education man, seems to agree with them, and tells the world that Moncton is the proper place for a technical high school. I would like to know what Premier Foster thinks of each doctrine. Also I would like to know what the city council of St. John think about it. Or are we again going to pay the penalty of adopting a reactionary form of government by grain waking up too late!"
