Rt. Hon. Arthur Meighen, P.C.,
Senate Chambers,
Ottawa, Canada.

My dear Meighen,

Since my retirement from active school duties I find I have considerable time on my hands for useful work; moreover, I am still strong and capable, not to say young. The taking of the Census in Western Canada this summer has been suggested to me as a possible opportunity some temporary employment. I am writing to you to ask if you could give me any information about how appointments are made for this particular piece of work. Are they left largely in the hands of our friend Coats, who has made such a success of the Bureau of Statistics? Perhaps you would be good enough to speak to him about the matter and advise me what steps to take and where to apply, if application is required.

Remember me to McLeish of the Department of Mines and any other members of the class of '96 you may happen to meet.

With all best wishes for continued success and prosperity,

I remain,

Very sincerely yours,

A. M. Scott

P.S. If you could take time to make a mathematical analysis of Social Credit and advise us how to deal with it here in Alberta, your help would be much appreciated.
