**NUMBER OF GRANGES--Division, 47, Subordinate, 699; Total Membership, 25,314.
Increase since last report-- " 3, " 16; " 231.**

459 Granges from which reports have been received belong to the Divisions marked "no report," 231 belong to those Divisions that have made their reports. Many of these reports are probably in the hands of the Divisions, and will soon be forwarded; 5 do not belong to any Division.

The gain by initiation does not in all cases equal difference between the number of members at close of last quarter, and at close of quarter for which report is made, for the reason some members have been admitted by Dinit, some have withdrawn to join other Granges, some dropped for non-payment of dues, some died, &c.
