Be Ready With A Cletrac

BUY your Cletrac now. Break it in on early Spring jobs and be ready for the Spring rush.

When the ground is "just right," the Cletrac farmer is ready—knows his Cletrac—has the odd jobs done. Weather conditions or a short season make no difference, the Cletrac keeps going hour after hour—more hours—longer days. Does the work of six horses with power to spare.

The Cletrac's weight is evenly distributed over its wide track. The Cletrac turns short, swings back to the furrow quickly. No power or time lost at the turn. It burns coal oil (kerosene), perfectly. It lays its own track over plowed ground—goes anywhere, does everything. Light weight, adaptability and low operating cost fits the Cletrac for any work.

There's a book you'll want, "Selecting Your Tractor." Send for the book or see your dealer.
