At this time, when the Investment situation presents so important an issue, no small interest attaches to the following statement by the Management in one of the publications of The Great-West Life Assurance Co.
 "The investments of the Company as a whole were never in a more satisfactory position than they are to-day. We find it now a matter of supreme gratification that the investment policy of the Company has always been directed towards mortgages on real estate, especially on farm properties. Contrary to the general experience, we now find that the security back of our investments has been rather increased than diminished on account of the war conditions, this fact being due, of course, to the increased value which has accrued to all farm products. The Directors of the Company have recently concluded a careful examination of the investments, and have expressed themselves as surprised with the excellent standing of the Company's assets."
