The intelligence from the Coatment during the week has been of the most important and alarming character. In the face of the present trouble in Berlin, and with the experience of the French revolution before him, the imbecile and sanguinary despot of Austria has characterised his success by the most atrocious and cold blooded murders in Vienna. Defençeless citizens are shot without ceremony, their houses rifled, and even women and children massacred. The students of the University, who used almost superhuman exertions in defence of the city, are hunted down like wild beasts, and executed where captured. These atrocities have excited general abhorrence and a violent reaction of revolution is predicted. The King of Prussia having cautiously waited

anxious to follow in the footsteps of the Austrian The intelligence from Berlin is of the highest importance, as it announces that the King and the Prussian Assembly are at issue, and that the National Assembly could not be organised on the 8th ult. The King has transferred the sitting of the Assembly from Berlin to Brandenberg At a subsequent meeting, the Assembly decided that the House would declare itself en permanence. The Burgher Guard adhere to the Assem-

bly, and opposed its removal from Berlin as it wou'd endanger the iberty of the people. A detachment stationed themselves in the buildings to protect the committee of 30 members, which remained through the night. The Chief Police sent a message to the commander, directing him to disperse the Assembly, by not allowing any one to pass except those who went out. He refused to obey the order, whereupon. the chief issued a proclamation that the Kirg had resolved to call into requisition the troops of the line for the executing that order.

On the 7th the King issued a proclamation dissolving the Burgher Guards. The city was declared in a state of siege. No persons were allowed to form gatherings in the streets, and no meetings were permitted, no placards were allowed to be published. The clubs were to be closed and arms to be delivered up. The Assembly met in another place at 3 o'clock, and re-elected Von Unrup their President, and the same Vice Presidents as before.

It was stated outside that they had declared all those opposed to them guilty of high treason. General Wrangel has, in all, 25,000 men, with .64 field-pieces. Up to the evening of the 13th, no actual collision had taken place, but the utmost excitement prevailed.

FRANCE. The greatest anxiety is now felt for the election of President, which will take place on Sunday, December 10.

THE PRESIDENTS MESSAGE. A synopsis of the message to Congress, trans-

The troubled and unsettled condition of some of the principle European powers has had an unnecessary tendency to check and embarrass trade and to depress prices throughout all commercial nations; but notwithstanding these causes, the United States with their abundant products, have felt their effects less severely than any other country, and all our great interests are still prosperous and successful.

In viewing the great events of the past year, and contrasting the agitated and disturbed state of other countries with our trenquil and happy condition, we may congratulate ourselves that we are the most favoured people on the face of the earth, while the people of other countries are struggling to establish free institutions under which man may govern himself, we are in the actual enjoyment of a rich inheritance from our

Vast additions have been made to our territorial possessions: within less than four years the annexation of Texas to the Union has been consummated, all conflicting title to Oregon territory south of 49 degree north latitude, being all that was insisted upon by any of my predecessors, has been adjusted by the treaty; the care of several territories, according to a report prepared by the commission of the general land office, from the most authentic information in his possession which is herewith transmitted, containing 1,193,061

square miles in addition. The acquisitions of the United States are now estimated to be nearly as large as the whole of Europe, and the whole extent of both the Pacific and Gulf of Mexico.

The addition of Sea Coast including Oregon is very nearly two thirds as great as all we possess, before we have three great maratime fronts, making in whole, an extent of sea coast 5,000 miles.

The President recommends earnestly that a regular organised territorial Government in New Mevico and California be established, he also recommends the Missouri compromise, and gives his reasons for approving the Oregon Bill. The sincere desire to preserve harmony and Union in deference to the acts of his predecessors, or should Congress prefer to submit the legal question to the Supreme Court, he expresses his opinion that the whole Union should cheerfully acquiesce in the decision of that tribunal.

EXTENT OF OREGON TERRITORY .- It appears by official documents that on the east it skirts 800 miles along the Rocky Mountains; on the south, 300 miles along the Snowy Mountains; on the west, 700 miles along the Pacific Ocean; on the north, 250 miles along the North American possessions of Russia and England. This area, or immense valley, contains 250,000 square miles-capable, undoubtedly, of forming seven States as large as New York, or forty States of the dimensions of Massachusetts.

CELEBRATION. -The water from Lake Cocnituale was formally introduced in Boston on Wednesday last, and the celebration which, as an unusual and welcome event, was grand and brilliant. The city was thronged with thousands of strangers, and the military, societies, and firemen, made an immense cisplay in procession. Every thing went off well from beginning to end, and concerning the number of people drawn to the city to witness or participate in the celebration, the Evening Journal says:—" Boston never held so many people before. PROSPECTUS OF THE EVANGELICAL PIONEER, VOL. II.

N submitting the prospectus of our second volume, it becomes us with humble gratitude, to acknowledge the success with which an enterprise, planned amid many fears, a d conducted amid many infirmities, has been crowned. To indulgent patrons, to efficient agents, to comsel, and their money to sustain it; above all, to Him who alone giveth the increase—our heartfelt acknowledgments are here paid. It is twelve months since our t prospectus was issued, and when we look back and k around, there is nothing save ground of thanksgivng The paper, established in a circulation beyond ou most sanguine expectations, will henceforth itself be a standing memorial of the artainment of our prominent oject. That olject was stated to be the promotion of e unity of Baptists in this Province, and the Pioneer will appear in its second volume, as the property of "the Regular Baptist Union of Canada."

It is not necessary that we should now speak particuarly of the principles on which the Pioneer will be conducted, or the objects to which it will be directed. It is set for the defer ce of evangelical truth; to contend earinate a knowledge of the things most commonly be ple; to encourage an extending interest in all proper jects of Christian enterprise; to summon the scattered ests to rally around the standard of the Captain of our alvation. Some occasions of controversy, for which we ave little relish, are now, it may be hoped, removed, rosecute the high objects set before us.

Whilst the principles and aim of the Pioneer will remain

unchanged, we hope to effect many important improve-ments which will render it much more worthy of general poort. Its business arrangements will be put under a competent manager, and an efficient system. It will be seed from an office new y and completely furnished with very requisite for the execution of the work in a supe hat it may be more conveniently filed and bound. The sheet will be somewhat enlarged, and instead of fou pages as at present, it will consist of eight pages, about the rize of The Albion of New York. The type used for the body of the paper will be smaller than at present that used for advertisements will be a size larger than at present. The amount of reading matter will thus be in-creased. A heavier and better paper has been ordered,

and is now being manufactured for our use.

With the change of form, there will be a change in the June, 1843, but it far exceeded them both. It making more extended arrangements, there will be found

FANNING MILLS.

The former notices and representations of our mills are rue-to which we still adhere. We have taken extra prime true—to which we still adhere. We have taken extra primite bring out a perfect article the prevent season, such an one as every farmer who is worthy of his eccepation, and is anxious to produce the best samples of grain, and to keep his farm free from foid grain should have, and would be proud to passess. Let others do as they will, we give no false representations; neither do we say, as some of our neighbours have said. That we will self for several dollars less than also the release are selling, but we do say, 6. Mills are what other sheps are seiling; but we do say, 6... Mids ar-and shall be, twice as many dollars better as they will be f cheaper than the common prices. The farmess are cautioned against listening to the representations of those who eppese

us, or to their own fearsus, or to their own fearsBe not hosty in buying—try our article, then decide. Every good farmer that had previously purchased in the reighbourhood where we sold last year, regretted his purchase when he ascertained the superior cy of our article. It was the when he ascertained the superior, y of our aircle. It was the superiority of our mills that occasioned our less by fire last August. Still we are on hand again, and have commenced selling for the season. We appeal to the good sense, interest and prefit of the farmers, not to their prejudice. Now, what do you say, will you have a perfect aircle? If you will, we have just the one for you; but if you want a poor, common Mill, do not come to us to purchase.
