

RED FLAG WAS HOISTED

Soldiers and Civilians Were Killed at Vladivostok.

A dispatch from St. Petersburg says: According to the official report of the recent mutinous outbreak of sailors at Vladivostok, the crews of three torpedo-boat destroyers, the Skory, Serdily and Trevolzhny, mutinied, hoisted the red flag and shelled the port, doing considerable damage to various buildings and killing some soldiers and civilians. The Skory, on board of which were three revolutionary agitators, including one woman, took the lead in the mutiny, the crew rising at the instance of the agitators, killing the commander of the boat and wounding the other officers, who were overpowered and confined below decks. The fire of the rebellious torpedo-boat destroyers was answered by the batteries ashore, and from the gunboat Mandury and the torpedo-boat destroyers Grosvoiy, Smely, and others. They surrounded the Skory, and poured a raking fire into her, which battered her to

pieces, exploded her two boilers and caused fire to break out on board. Nearly all the mutineers of the Skory were killed in the vessel. The three or four survivors threw themselves into the sea. The mutiny on board the Trevolzhny was quelled by her own crew, after six of the mutineers had been killed and six wounded. General Count Unterberger, commanding the military District of Amur, has arrived at Vladivostok, and assumed charge of the situation. The United States Embassy here on Friday received a despatch from the Consul at Vladivostok, saying that the American who was wounded during the bombardment of Vladivostok by the mutinous torpedo-boat destroyers is Harry Nielert, an employe of the Pacific Commercial Company, whose building was struck by a shell.

INDIAN FAMILY KILLED.

Father, Mother and Son Found Dead Near Raymond, Alberta.

A despatch from Lethbridge, Alta., says: An Indian, his wife and boy were found on Sunday by some children in the neighborhood of Fifteen-mile Lake. The children thought that the Indians were drunk, and did not go near them. They were a boy named Taylor, who informed his father after going to the spot and finding the dead Indians. After seeing himself Mr. Taylor went to Raymond and telephoned to the Mounted Police at Lethbridge. Coroner Rivers of Raymond was sent to the scene, and found the bodies covered with a cloth. There was every indication of murder. The man's head was blown off as with a shotgun. All of the bodies bore marks of violence. Superintendent Wilson of the Mounted Police says it is certainly a case of murder, but further than that will not say anything. An Indian who was camping near the murdered family on Saturday is suspected of the crime.

SEND OUT EMIGRANTS.

Bishop of London Would People Canada From Motherland.

A despatch from London says: The Bishop of London, speaking at Fulham on Wednesday on the subject of "The Church and the Empire," said that what impressed him most on his recent tour was the wonderful loyalty of Canada—Canada, the granary of the world—and the vast possibilities of this great nation which is bound to us by ties of blood and religion, which nothing ought to be able to break. "There is room," he said, "for a hundred millions in Canada. If we don't take the trouble we will lose our chance, and Canada will be filled by somebody else. We ought to be sending out from this overcrowded land more and more loyal Englishmen. Emigration is largely the cure of our ills, and if it is a God-given cure both clergy and laity might give their brains to see it properly carried out."

CUSTOMS WAREHOUSE BURNED

Heavy Damage in Montreal on Thanksgiving Day.

A despatch from Montreal, Que., says: Thanksgiving Day was marked by a big fire in this city. Late on Thursday afternoon fire broke out in the examining warehouse of the Customs and before it was got under control heavy damage was done. The building, which is situated on McGill and Common Streets, occupies nearly a whole block. Over \$100,000 worth of goods were stocked in the warehouse. The fire, which is supposed to have resulted from spontaneous combustion, originated in the oil department on the top floor, and before a hard fight the firemen succeeded in muzzling the flames, containing the fire to the top flat.

During a public holiday, the warehouse was vacant, the only employe on duty being the watchman. While he was making his rounds shortly after four o'clock in the afternoon he noticed smoke coming from the quarter where the oil is kept. A general alarm was rung in, and the whole brigade responded. The firemen had a hard fight in getting the fire under control and saving the building from total destruction. When they arrived smoke was pouring from the windows of the top flat, and the work of saving the building was attended with considerable risk. Several members of the brigade were overcome by smoke, but nobody was seriously injured. It was after six o'clock before the fire was under control. The damage from the fire and water is estimated at \$50,000.

He embalmed the corpse of the young woman, dressed it in its bridal clothes, and kept it in his rooms for a fortnight. Neighbors finally grew curious from the fact that the young man never went abroad, and peeping one day through his shuttered window they saw Alessandro seated alongside the dead body of the woman who was to have been his wife, affectionately holding her hand.
