A Valiant Battle For Their Lives

A WORLD in itself—a dauntless little world, each citizen battling for life. Life is very dear, when you are young, and so many patients at the Muskoka Free Hospital for Consumptives are still in their eager twenties. Yet each has something of tragedy and of heroism in that short life's history. Here, a girl who cared for orphaned brothers and sisters; there, a school teacher alone in the world; a nurse broken down through hard work; a housemaid; a factory hand; a young mother; or, amongst the men, a laboring man, friendless and penniless; a farm hand, who has wife and children; a fireman; a miner; a telegraph operator; a musician.

Alas, how they want to live! And how well spent the money restoring them to health and strength up there in Muskoka. Contributions may be sent to Sir William Gage, 84 Spadina Avenue, Toronto, or to Geo. A. Reid, Treasurer, 223 College Street, Toronto.

Badly Burned At Paisley

The fire-bell called our citizens to smart attention on Saturday evening about 7 o'clock. A small coal oil heater had been left burning in the dentist's office. More's drug store while the dentist was out at tea time, had blazed and threatened to destroy the premises. The fire was first noticed by Mrs. J. Shannon, from her house across the street. Alan Shoemaker immediately ran over and entering the dental lot from the rear by way of the drug store, went into the waiting room, picked up the over-flaming heater and threw it out of the window, and in doing so was badly burned on his face and hands by the flames fanning back upon him as he made the throw or by burning oil that splashed over him. Fortunately the burns are not deep, and it is hoped that when the skin has healed over there will be no scars left.

The front entrance door was burst open and other men applied the contents of a hand fire extinguisher to the blazing oil on the floor, and the danger of a conflagration was over.

M. Fred Taylor, known throughout the world as "Cyclone" Taylor, one of the greatest hockey players the world has reared from the game. "Cyclone's" career as a hockey player has not been quelled by any other player, and even now any team in the country would be glad of his services. However, Fred is through with the game as a player.

The embargo on Canadian live cattle in Great Britain which has been on for twenty eight years may as a result of Canadian agitation and the education of the English masses be removed. If the lifting of it takes place both the Canadian producer and the British consumer will greatly benefit. On British grazing lands two crops of cattle can be ripened in a year and if this barrier were taken down thousands of cattle especially from the prairies, can be sent abroad in an unfinished state and finished with little expense in the old land.

Mr. and Mrs. H. Sanson of Fordwich were knocked down, and the latter severely burned about the neck and face in an explosion of acetylene gas in the cellar of their home. Finding on returning from his store, on Thursday evening, that fresh carbide was needed in the generator, and Mrs. Sanson was doing her work by the light of a coal oil lantern, Mr. Sanson went to the cellar, and his wife evidently held the lantern too close when he opened the top of the generator. Sufficient gas was emitted to cause an explosion, Mr. Sanson is able to attend to his work, but Mrs. Sanson is under care of Dr. Whitley. No damage was done to the house. A book of the explosion was that a match in Mr. Sanson's pocket was left in, while the matches it had contained were blown out of it and the stems burned, though not the heads.

There is surely not a bigger question in Canada to-day than that of exchange. There are certain commodities like coal and raw materials that necessarily forces us to buy in the United States. On these we must pay tribute. We buy much else that could better be bought in Canada and on this we pay tribute too.

The only way to make the Canadian dollar a hundred per cent dollar in the United States, is to cease absolutely the purchase of goods and commodities in that land that we can do without. If every Canadian would resolve to do this the Canadian dollar would soon look the United States dollar in the eye. You know that. Everybody knows that. But now are the Canadian people going to be jarred into a consciousness of it?

These are the views of Louis Blake Duff in his paper "The Welland Tribune and Telegraph" and we believe his words are quite correct. Give the Yanks another year of trade invasion and your dollar will be worth about 80 cents.

"I Feel as Tho' I Could Not Drag Thru the Day's Work"

is the complaint of many a woman in the household, office or factory.

After suffering pain, feeling nervous, dizzy, weak and dragged-down by weaknesses of her sex—with eyes sunken, black circles and pale cheeks—such a woman is quickly restored to health by the Favorite Prescription of Dr. Pierce.

Changed, too, in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump. It is purely vegetable and contains no alcohol.

Druggists sell it in tablets or liquid, or send Doctor Pierce, at Invalids' Hotel in Buffalo, N. Y., 10 cents for trial package.

BARRE, ONTARIO.—"I was suffering from a run-down system some time ago, was unfit to perform my daily duties, and was advised to try Doctor Pierce's Favorite Prescription. I tried it, took two bottles, and was restored to my natural strength. I cannot praise Doctor Pierce's medicines too highly, and will be willing to write to anyone sending a stamped envelope."
