hills and valleys and the neighboring county of York, Maine, were swept by a series of remarkable thunder storms today of a severity unequalled for years. No lives, so far as is known were lost, but there were many of the narrow escapes so peculiar to the freaks of lightning and innumerable mildings struck, five of which were de stroved. In addition to the damage t building property, the cost to the state and towns for repairs to roads which were badly washed, will be very heavy, while the hail and abnormal rainfal with the high winds did considerable damage to crops and trees.

The storms were unusual in their nature. Following a heavy and steady downpour of rain Saturday night, the electric I disturbances commenced th earlier, part of the forenoon. For nearly three hours and a half the lightning was nearly continuous and the downpour of rain was of almost tropical violence. Before the valleys were scarcely cleared of the first storm, another of equal fury followed, and this in turn was succeeded by another.

Hailroad trains were delayed by bad washouts, but no wrecks were reported. In Concord, N. H., the streets and highways were badly washed and strewn with branches off trees torn up by wind and lightning, but no houses in the city proper were struck. In the mearby town of Canterbury the houses and barns owned by Geo. W. Silver and John Moore were destroyed by fire started by lightning, causing a loss of about \$6,000

Rerry and Canobie Lake districts felt the full effects of the storms. The unprecedented amount of rain that was set loose after the electrical disturbance, commenced at seven o'clock in the morning, sent the rivers and streams foaming down the valleys with full banks. Crops, roads and property were damaged. In the town of Derry lightening entered a bedroom near where Lic. and Mrs. William J. Kingsbury were sleeping, but after circling the room, stripping the walls of its picture mouldings, it entered a pile of bedding and started a fire which was put out before much damage was done. In the neighboring town of Chester a barn owned by John A. Hazellton, was struck by lightning and destroyed with its contents. Portsmouth was demoralized by the

tempest, as was the adjoining town of Kittery, Maine, Several houses were struck, causing many small fires. Many people had narrow escapes and crops in the vicinity were hurt to a
