Deprived Mining Company of Their Legal Rights

Discussion in House on Telephone Companies Waxes Warm

OTTAWA, Ont., March 1 .- The major part of today's sitting of the House vas devoted to a vigorous condemna tion, by the Minister of Justice, of the tion, by the Minister of Justice, of the action of the Whitney government of SALISBURY, N. B., MAN 1906 in violating the basic principles of British justice by usurping the rights of the courts and railroading through the legislature's bill depriving the Florence Mining Company of any legal rights it might have to the mining location now held by the Cobalt Lake Mining Co. The question was one of the issues of the last Ontario provincial campaign, the contention of the opposition being that Premier Whitney had arbitrarily over-ridden any rights which the Florence Company might have through its claim of prior location and had passed an act ratifying the agreement which the government had made with the Cobalt Lake Comany and practically justifying the overnment's own action in granting the property to the latter company. Mr. Clarke of South Essex brought the matter up in the commons this afternon with a view of having it placed on record that the Dominion governent had declined to disallow the provincial legislation on purely constitutional rather than on moral grounds. Mr. Aylesworth, the Minister of Jusice, lucidly set forth the reasons for non-interference and explained the general right of a province to pass any egislation it saw fit in resort to prop

Mr. Lennox reviewed at length the evidence collected by the special committee of parliament in 1904, when Sir William Mulock started the propaganda for a nationalized telephon system and he animadverted on the inaction of the government in taking no steps since to give the public any comparison of rates charged in Canada and in Great Britain, Australia and in other countries, he sought to If the Dominion was not ready to go on the kidneys. for a national telephone sysem, there should be, he argued, at least a government supervision of rates valuable. charged by private companies so as to make the rates at least as moderate as prevail in countries where national telephone service is maintained. This wholesale lowering of rates, however, he qualified by the statement, that re-

gard must be paid to local conditions. A. K. McLean made an obvious reply for the government in moving an amendment to the resolution, stating that adequate action had already been suggested by Mr. Lennox, and under the act of last session the rallway dission was now going over the tolls of all telephone companies with a where they were found to be unreasonable. Power Company Holds Meeting

OUTLOOK BRIGHT

Work of Development to be in Full Swing Next

At an enthusiastic meeting of Grand Falls Power Company held a heir local office in the Globe-Atlantic building on Prince William street yesterday afternoon, it was decided im mediately to start the work involved the St. John River at Grand Falls. The meeting took place at 3 o'clock, hose present including General Manager Harry McLaughlin, Secretary A.
L. Sherar and W. B. Lane of New York; John J. MeRae, chief engineer, of Ottawa, and Frank B. Gilbreith of New York.

As announced yesterday, the contract for the construction work has been placed in the hands the Frank B. Gilbreith organization of New York. The local representative of the com Sun last evening at the Dufferin Hotel stated that it was the intention of the ompany to bring the hydro-electric development from Grand Falls. They will generate horse power in electric current to Fredericton and St. John. The plant will probably be in operation in this city about July 1, 1910. Other cities in Maine and New Bruns-

provides for an equitable division of al lproperty. From one who has seen issued a proclamation today calling on the will it is said that it allows Mrs. Baldwin more than would be hers un ier a court division, and provides for all the legal heirs.

There is a blank mortgage against the estate of about \$1,500,000 held by the Hibernia Savings Bank of Sar Francisco. This and minor incumbrances are expected to reduce the value of the estate to the heirs to about \$28, 000,000.

The body of Baldwin will lie in state in "The Cottage" on the Santa Anita Ranch all day today after being embalmed. It will be sent to San Fransisco on Wednesday, and the funeral will take place in that city on Thurs day. The final resting place will be in San Francisco at the side of his firs wife.

When they came out Downie again closed the doors. Witness then went to dinner and did not return to the of fice until after three o'clock. Down! was then at work. Downie said that the man who took the money must have been familar with the office. Later in the afternoon about five o'clock. witness said he went to the machine shop and Downie said he had gone lown there to take an evening paper to the machinist. Downie then return-

ed to his work in the office. Police Officer S. Morton Olive gave one o'clock on Friday, 19th February he received a telephone call from the Simms factory that \$1200 had been stelen from the place and that the clerk was lying unconscious on the office floor. He 'phoned Chief Clark, and on his instructions went to the seene with Police Officer Cavanaugh. They found Downie stretched on the floor with his feet near the vault door, Mr. Anderson said the man had been choked. Witness looked for marks on the defendant's throat and could not find any. The neck looked a little bit red, as if it had been rubbed. About five or ten minutes after witness got there, the chief and detective came into the office. The chief said to Dowrie: "Get up, get up. You're able to

get up." Downie started to rise and

heard somebody say: "Hurry up." De-fendant said that was the last he remembered. The chief fanned Downie with a piece of card board. Witness asked defendant to make sure if he had seen any person around there who might have done it. He said he had not. They made inquiry in the imnediate neighborhood to find out if any person had been seen going in or out of the factory. Downie said that the person who caught him by the throat must have been pretty strong to have put him out so quickly. Fe also said he was all right, but his

Roosevelt Gives Farewell Luncheon

TO TENNIS CABINET

Pays High Tribute to the Men Who Have Aided

Him

WASHINGTON, March 1.-President Roosevelt today gave a farewell lunch eon at the White House to the members of the famous "Tennis Cabinet" and others who have been closely associated with him during the past seven years. Aside from the distinguished as among the president's chief aides during his administration, and also as the president had made friends when numerous hunting expeditions. The occasion was memorable to those who surrounded the president today and the latter's forewell words were not entirely free from notes of regret, if no administration had given its chief more loyal service, and he stated that he believed that the country fied never had a more devoted set of public servants than those men through whom he said, most of the work of his administration had been accomplis

The president in his remarks follows ing the luncheon said: "Gentlemen,-You are here nominally as members, or to meet the members of the 'Tenmis Cabinet'-that is, as men with whom at tennis or hunting. or riding, or walking, or boxing, I have played, with whom I have been on the round-up, or in the montains, or in the ranch country. But really, as you know, you are not here for that reason at all-you are here because you are men, and because you represent the men with whom I have worked while I have been president. No administration has ever had finer or more loyal service than you have given, and I do not believe this country has even had an abler or more devoted set of public servants. It is through you and those like you that I have done the major part of what has been accomplished under this administration. Moreover, in a vast number of cases the doing of the work itself has been your only reward. The credit has come to me to the chief of the administra-

tion. For exactly as men like to symcommander, so they like to symbolize it became head, forgetting that the immense macessful administration, successful from the standpoint of advancing the honor and the interests of the country, must be managed as ours has been, in spirit of the most loyal association and partnership. There are many others like you whom I would have given much to bring here today, but there simply wasn't room enough; and so I have brought you here partly for your own sakes, but primarily as representing thousands of other workers; as representing all good, faithful, fearless public servants, who strive their best to do what the public need demands and who, in the last analysis, stand all on the same level, when Judged by that supreme test which takes into chief account the spirit of the service rendered. Whether a man is a cabinet Minister, a bureau chief, a marshal, an Indian agent, a forester, a letter carrier, a member of the life-saving service, a clerk in a department, or a workman in a navy yard, or whether he holds one of a hundred other rositions, makes not the slightest difference if he puts his heart and his soul and his mind into his work, and is content to accept as his chief reward the satisfaction that cames fro knowledge that the work has been well done. So, while I greet you for yours selves, I greet you still more as symcolizing others, and in saying farewell to you I shall take as symbolizing all of you one who leaves public life when leave it; a man who made a real personal sacrifice when seven years ago he came here to take office at my request; a man who has stood ever since as a type of what a good public servant should be; a man who for the last two years has been one of the most useful cabinet Ministers who ever
